Landscape Plans

FOR YOUR HOME—*Prepared by Our Landscape Architects*

THE demand for Ferris' planting plans has grown enormously the past few years, and we are glad to announce that our Landscape Department is continuing this service again this season. If you are desirous of obtaining a landscape plan that will exactly fit your home grounds and specifications, it is a golden opportunity.

All you need to do is to write us for our Sketch Blank. On this blank are full and simple directions so that anyone can make us a rough drawing of their home grounds. Upon returning this drawing and a remittance of \$2.00, we will have our landscape expert make a landscape drawing and planting chart that will give you an accurate and balanced plan to follow in planting your home grounds. Be sure to send for the Sketch Blank, for our landscape expert **must have your rough drawing made on this**, in order to get all dimensions, directions, etc.

Then, if you purchase the planting material from us and the order amounts to \$15.00 or more, the \$2.00 you have already paid for the plan is applied on the order as a due bill, **thus giving you this landscape service absolutely free.** The \$2.00 remittance required when we make the drawing is merely to keep away idle curiosity seekers. The Landscape Department maintains the right to charge a slightly higher rate where lots of over 60x200 feet are planned, or where very elaborate plantings are desired.

These plans are made under the direct supervision of our landscape expert; they are clear and easy to follow, and

we have had the finest sort of compliments on them in the past. Our customers have been more than pleased with the way Ferris landscaping has transformed their properties.

NO PLANTING PLANS MADE AFTER MARCH 15TH

Our shipping season is in full sway by April 1st, and because we want to give every customer the best possible service, we cannot take the time to make personal planting plans during that busy time. The shipping season for nursery stock is, of necessity, a limited one. We have a great many thousand customers to ship to, we spend sometimes nearly twenty-four hours of the day endeavoring to get shipments off promptly and in good shape. Accordingly, we have had to make this ruling not to furnish sketches and drawings after March 15th, so be sure to send in your application for landscape plans early.

OUR MESSAGE

to YOU

**"BUY
THIS
YEAR**

*and let
us help
you to
buy
WISELY"*

There comes a time when improvements for the home can no longer be delayed—when to do so is almost suicide. During the years of depression, most home grounds have been sadly neglected, and now is the time to start on the up-grade before it is too late.

To serve Ferris **SERVICE and QUALITY** customers at every turn has been our constant aim since the very beginning, and we are not failing you this year. We are proud to offer you, through this catalog, the finest Evergreens, Shrubs, Fruits and Ornamentals we have ever produced—trees and plants with the famous Ferris root systems and strong sturdy tops; that will go out and grow for all of you, wherever you are. No expense

has been spared to retain our standard of **HIGHEST QUALITY** for our customers.

Then, compare our prices with others. We are called the People's Nursery, as our prices are down so low that everyone can afford them. We grow our own nursery stock, and sell it direct to you through this catalog, saving you not only a costly salesman's commission but also the expense and possible injury from extra handling. This Planter's Guide is our only salesman—accurate descriptions and actual photographs to help you make a careful selection—and prices that will save you about 50 per cent.

**LOWEST
PRICES**

The "come-again" patronage of our customers has meant much to us in the past, helping to build up our nursery to its present great proportions. We are looking forward to renewed contacts with all old friends again this season—the same High Quality, Low Prices and Best Service are awaiting you—while to all new customers we extend a cordial welcome. It will be a real pleasure to serve you, to show you how your home can be beautifully landscaped and improved for so little money.

**WE INVITE and
WELCOME ALL**

**THIS IS THE
YEAR TO PLANT**

**EARL FERRIS and
MRS. FERRIS.**

In the year 1899, Earl Ferris moved the nursery from Bristow, Iowa, to Hampton, and has been president and general manager since that time.

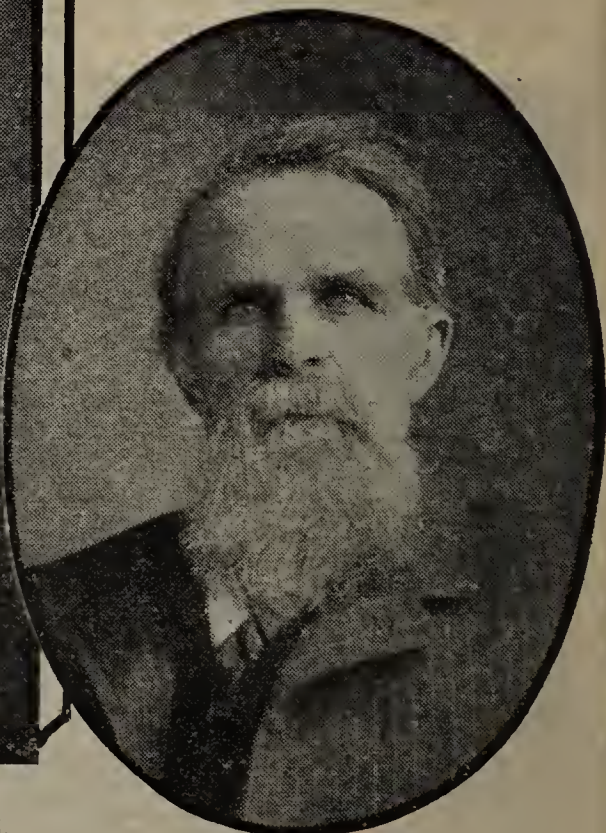

**S. W. FERRIS III,
EARL FERRIS II,
PATSY JEAN.**
Children of S. W. Ferris II.

S. W. FERRIS II.

During the past several years, S. W. Ferris II, as manager of landscaping and propagation, has helped materially to increase Ferris Service and Satisfaction with Ferris Quality nursery stock.

[4]

S. W. FERRIS.

During the Civil War days of 1869, S. W. Ferris founded our nursery, building a reputation for unusual Quality and Service.

Ferris 1934 FREE Premiums

HOW TO ORDER

ORDER EARLY. If we receive your order before our rush shipping season, we can give it a little the best service, and you get first selection of stock. Orders are booked as they are received, but shipments are not made until the proper time to plant, unless otherwise requested. We are so organized that we can handle thousands of orders daily, there are four large railroads out of Hampton, and we get splendid shipping service to all parts of the United States.

QUANTITY PRICES. We sell five trees of a variety at ten rate; 50 at the 100 rate; 500 at the 1000 rate, unless otherwise stated. Less than five of one variety at the each rate.

WE HANDLE NO ORDER UNDER \$1.00 except special Advertising Bargains. It costs us about \$1.00 to handle any order regardless of the size, and we must get handling expenses out of them.

IN SENDING MONEY you may remit by check, draft, postal or express money order, or cash in registered letter. Please do not send stamps as remit-

THE FERRIS GUARANTEE

We guarantee that Ferris nursery stock will reach the purchaser alive and in growing condition, and will replace, free of charge, any that does not, upon receiving your express or freight receipt with statement from the agent showing loss or damage.

Any tree or plant that dies the first growing season, we will replace at a cost of one-half the regular catalog price, customer to make report and have his order for replacement in our hands before October 10th, following date of purchase.

We guarantee to every Ferris customer stock that is true-to-name and absolutely as represented. Any Ferris stock proven not to be will be replaced free of charge or the purchase price refunded. We cannot be held liable for any damage other than herein named. **EARL FERRIS**

COME AND VISIT US.

See how we grow bushy, symmetrical specimens for landscape planting. Here are Blue Junipers, Globosa Arbor-Vitae and other Ferris specialties.

tance with orders. On orders up to and including \$5.00, we require cash with order. On orders amounting to more than \$5.00, we require either all cash with order, or, if customer prefers, one-fourth cash with order, balance C. O. D.

IN CASE OF ERROR OR SHORTAGE please write us immediately. We are here to give best possible service and satisfaction to our customers. Check over your order carefully, searching through the packing for any small items you may have ordered, and if there are any errors, notify us at once, stating number of bales or boxes you have received.

PARCEL POST SHIPMENTS. If nursery stock is ordered by parcel post, and no money included for postal charges, we will send the trees or plants as directed, if possible, with postage C. O. D., but if the size or weight of the bundle is outside of the parcel post limit, or contains nursery stock difficult to handle by parcel post, we reserve the right to change the routing to express.

BARGAIN COLLECTIONS CANNOT BE DIVIDED OR CHANGED IN ANY MANNER.

IN SHIPPING EVERGREENS the larger sizes will have to go by freight or express. Medium sized Evergreens, and the two, three and four times transplanted windbreak Evergreens in Norway Spruce, Jack Pine, etc., should not be Balled and Burlapped, as they are grown too close in the rows to ball satisfactorily, but if you so desire and will so specify on the order, we will mud the roots as we pack them, without extra charge. Balled and Burlapped Evergreens in most cases will have to go by freight, on account of the bulk and weight. Do not be afraid to have these Balled Evergreens shipped by freight, for their roots are packed solidly in the earth they have been growing in for years, and they can be on the road for weeks without any damage whatever. In the past, however, we have found that freight shipments of Evergreens traveled quite rapidly with little or no delay. We always advise that large, heavy, specimen Evergreens be Balled and Burlapped, and shipped by freight.

SUCCESS COMES EASILY

If Our Transplanting Directions are Carefully Followed

Start a Successful Planting by Purchasing High Quality Stock Properly Handled.

Good trees and plants are, naturally, the first step towards success. We have told you how we have been working these 65 years, producing strong, sturdy, heavy root systems, and ultimately the healthiest and most vigorous stock that can be grown. It is this kind of trees and plants that we send to our customers, and in addition pack them right.

In our Direct-to-Purchaser method, our trees are dug fresh from the nursery row, packed carefully, and are on the road to the customer within two or three hours time. There is no shipping to a distributing point, thence divided, handled two or three times and reshipped, or any other unnecessary delays such as are obvious when handling through agents. We have four railroads through Hampton, going in all directions, and each and every shipment is billed direct to the customer.

Good, careful packing is essential, also. We have spent considerable study on the best packing methods ever since we started in the business, and we feel that this is another place we are giving our customers No. 1 service. Ferris trees and plants are packed so that they reach our customers in as good condition as when they came from the nursery row. We have shipped into every section of the United States for many years, with remarkable success. A well known express superintendent has told us many times that we turn over to the express company the best packed shipments of nursery stock he ever had the pleasure of handling.

Important Rules to Follow in the Planting and Care of Evergreens

1. Examine the trees at express, freight or truck office, and call any damage to the attention of the agent at once, as all trees will be in perfect condition when they leave the nursery.

One of Our Big Fields of Hardy Perennial Phlox.

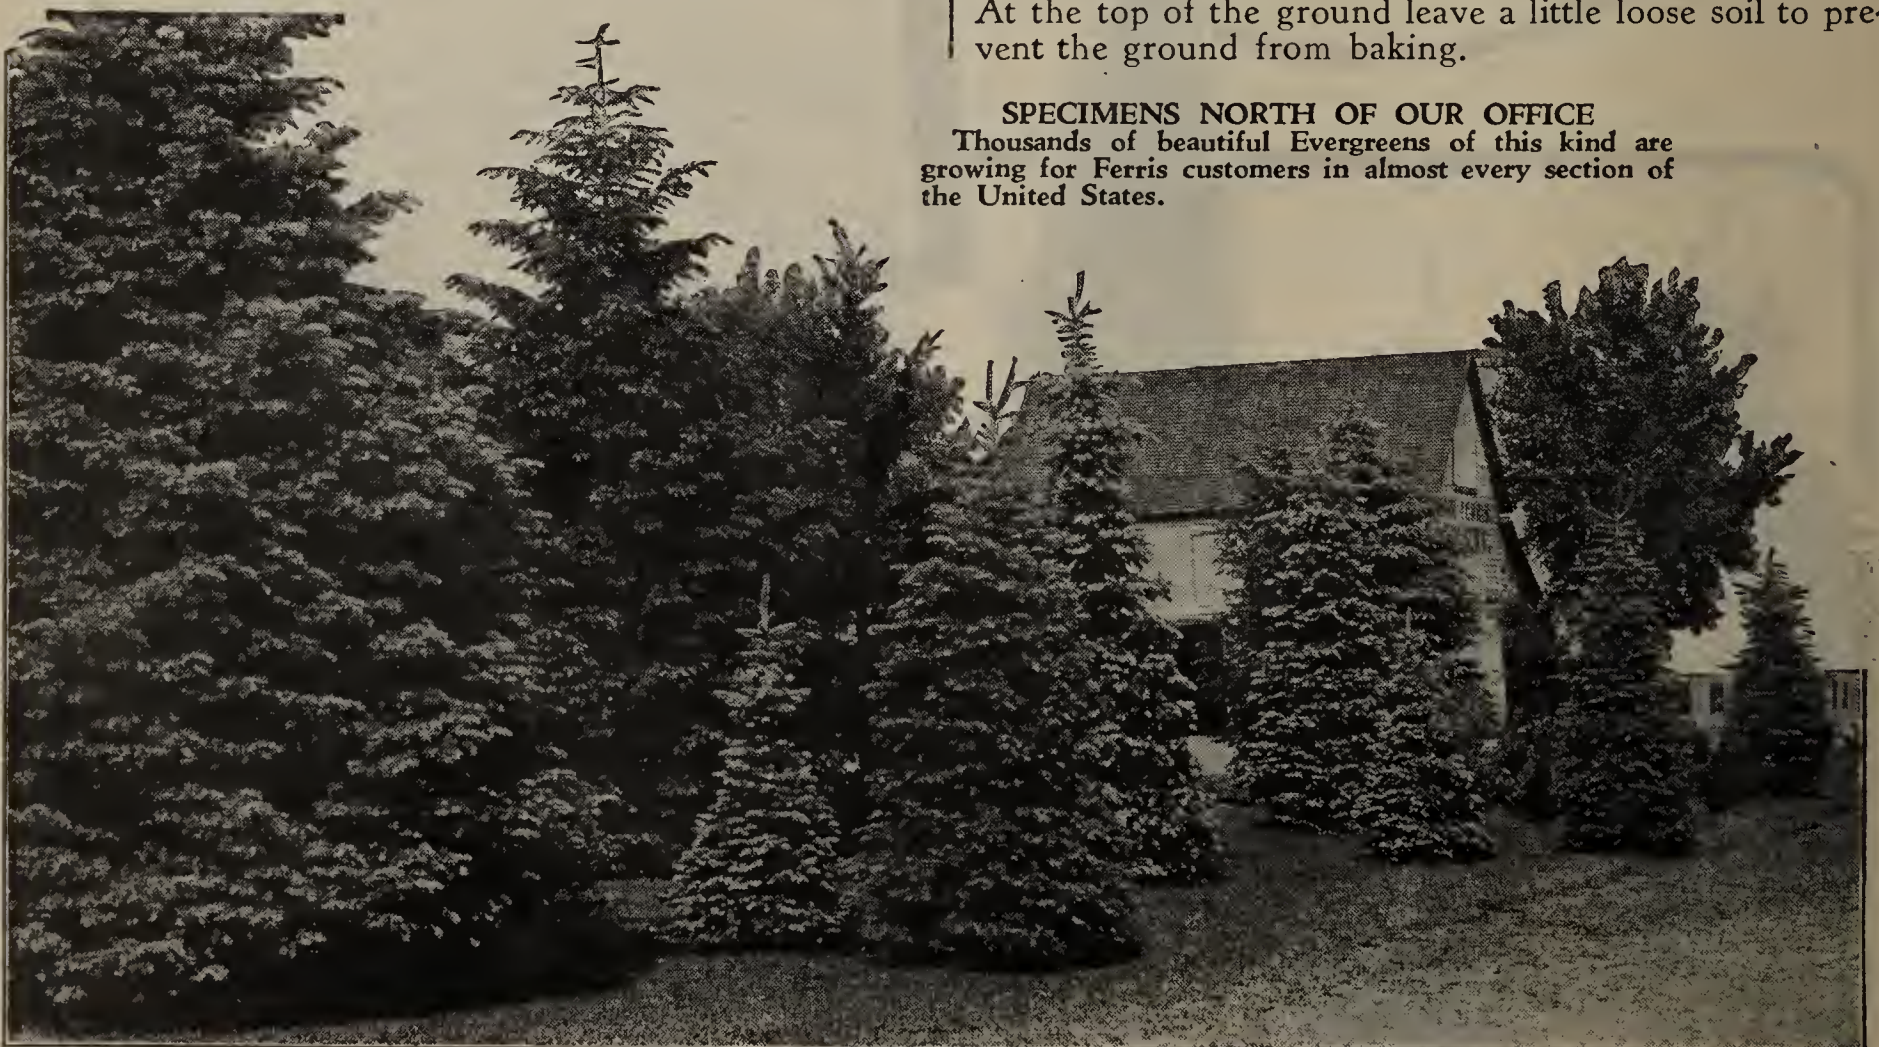

2. Have your ground ready for planting by the time the trees arrive. It should be good growing soil such as you would use for a corn crop or garden, and prepared in much the same manner. Never plant on new sod. If there is sod where you wish to plant, strip the sod for a width of six feet the length of the row, or a space four by four feet may be stripped and a tree planted in the center of each space. Thoroughly work and pulverize the soil from which the sod has been stripped.

3. Always plant as soon as the trees reach you. Do not expose the roots to the air. When you have everything ready to plant, unpack the shipment, putting the roots of each tree into a thick mud puddle, so that as much of this sticky thick substance as possible will cling to the roots.

4. Plant deeply and firmly, spreading the roots out in their natural positions, and press the soil around each tiny root with all of your might. Evergreens should be planted from two to six inches deeper than they were in the nursery row, depending on the size of the tree. At the top of the ground leave a little loose soil to prevent the ground from baking.

SPECIMENS NORTH OF OUR OFFICE

Thousands of beautiful Evergreens of this kind are growing for Ferris customers in almost every section of the United States.

Take Advantage of our LIFETIME EXPERIENCE in Growing Nursery Stock

5. Start cultivation at once; cultivate well and often during the growing season. This should be done for the first two or three years. Evergreens will not thrive or give best results in a weed patch. If you cannot cultivate, give them a very heavy mulching of well-rotted straw or old sawdust as soon as your trees are planted. (In localities of extreme cold, such as Northern Minnesota and the Dakotas, it is advisable to mulch the trees early in the fall, after cultivating them throughout the summer).

6. A judicious trimming is also beneficial to transplanted Evergreens. Trim about one-fourth of the foliage from your trees as you plant them. This may cause them to appear a trifle slim for a year or two, but they will be all the better for it in the end. In trimming Evergreens, do not cut off the terminal bud on the leader (tip), but trim back other branches about one-fourth.

7. Regardless of locality, see to it that your young grove is securely fenced when planted. Nothing is more injurious to young Evergreens than livestock in the yard to trample them down.

8. If you are having dry weather at planting time, you should water your Evergreens thoroughly about every other evening until you get a soaking rain. Do this through all dry spells for the first year or two. This is especially necessary in foundation plantings of ornamental Evergreens, where the trees get a strong reflection from the sun and the ground dries out more readily.

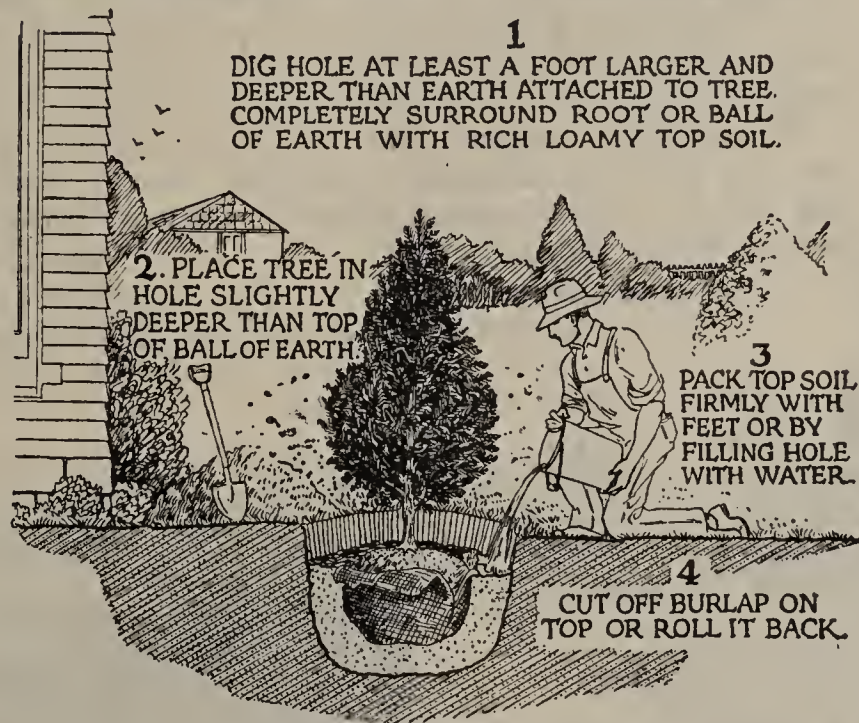

9. **For Balled and Burlapped Evergreens.** Dig a hole about twice the size of your ball, and plant the tree at once. If the ground is dry at planting time, fill the hole with water, and let it soak away before putting in the tree. Take care to handle the tree carefully so as not to break the ball, place it in the hole so that the tree will be a few inches deeper than it had been in the nursery, then cut the burlap at the top of the ball, rolling it back for three or four inches. Plant ball, burlap and all, using good growing soil to pack around the ball, and be sure to pack this soil firmly. The drawing on this page shows each step in planting Balled Evergreens.

10. **For Seedlings and Small Transplanted Evergreens.** This applies to seedlings and once transplanted grades. Plant them in a garden spot or in beds for the first two years, and care for them as you would cabbage plants. The more cultivation you give them, the better, and

We have over a half million 2-3 ft. Evergreens. There are over 2000 trees to the row in this particular field, with Norway Spruce in the foreground.

How to Properly Plant Balled and Burlapped Evergreens

ADD LOOSE SOIL UNTIL THE HOLE IS FILLED AND PACK FIRMLY AND LEAVE LIBERAL SUPPLY OF LOOSE EARTH ON TOP.

see that they get plenty of moisture during dry periods. In two years time the trees should be in good condition for transplanting into your permanent windbreak row, or into the border and group plantings around your home. Small transplants are cheaper in the long run than seedlings, as they are much more liable to grow. The two and three times transplanted Evergreens, as well as the larger sizes, are ready to be planted in their permanent locations.

Correct Distance to Plant Evergreens for Windbreaks

The distance apart that Evergreens should be planted depends very much on the number of rows used. We advise 8 feet apart in a single row, 10 feet apart each way in two rows, 14 feet apart each way in three rows; but the ideal windbreak is a four- or five-row windbreak, planted 14 feet apart in the row and the rows 20 feet apart. The space between the rows can be used for potatoes, corn, or any vegetable.

How to Determine the Number of Trees or Plants to an Acre

Multiply the distance in feet between the rows by the distance the trees or plants are apart in the row, and the product will give the number of square feet that each tree or plant will occupy; then divide this number into the number of square feet in an acre (43,560), and it will give you the number of trees or plants to the acre.

"HOW FAR APART SHALL I PLANT?"

The correct distance apart to plant is often a problem to planters. There are no set rules for this, but with our years of experience in planting and growing, we are glad to suggest advisable distances to our customers, which will work out very satisfactorily in every way.

Apple Trees25 to 40 ft. apart
Cherry Trees15 to 18 ft. apart
Plum Trees12 to 15 ft. apart
Pear Trees15 to 18 ft. apart
Peach Trees16 to 18 ft. apart

The Finest Block of Pyramidal Arbor-Vitae Specimens in the United States.

Norway

A typical Ferris grown, 3-4 ft. Specimen Norway Spruce as you receive it.

SPRUCE FOR FARM WINDBREAKS

(*Picea excelsa*)

Our famous Norway Spruce have every attribute of the perfect windbreak tree—tall, compact growers, with thick, interlacing branches clear to the ground, giving complete shelter—the most rapid grower of all the Spruces, often making a growth of 12 to 24 inches in a year when once established—hardy everywhere, and so easily established. Then, too, it is a fine looking tree, an imposing pyramid in form, thickly covered with dark, rich green needles that are short and stiff. 80 to 100 feet at maturity.

In groups on the lawn, in a background planting, or even as a single specimen near the home where it can serve as a living Christmas tree, the Norway Spruce is always delightful—so shapely, so dependable. It makes a fine ornamental hedge, being easily sheared back to any height desired. Always it has been the most popular evergreen for Christmas trees.

Come to the nursery and see them—millions of them all the way from tiny seedlings up to big, heavy, bushy trees that are superb for immediate effects in the windbreak row or in the landscape planting.

Extra Hardy White Spruce

White Spruce.

A Tree of Fine Form—Splendid for Landscaping and Windbreaks.

(Picea canadensis alba)

We grow the northern type of White Spruce that is so much harder and finer in every way than the southern type. It forms a broad, compact pyramid, densely covered with short, stiff needles of a light shimmering green, sometimes almost blue. It grows rapidly, maturing at 50 to 70 feet, and is always of graceful carriage. A native of the North, it is hardy even in the coldest places.

Ferris' White Spruce are extremely useful; beautiful in every phase of landscaping—backgrounds, combination groups, single specimens, hedges—and will never disappoint you. For windbreak planting it is a great favorite—so hardy, fine looking, and a compact grower, well branched to the ground. We have never had as beautiful a stock of White Spruce as we are offering this year.

BLACK HILLS SPRUCE

Charming, Shapely Evergreens—Superb for Landscaping.

(Picea canadensis albertiana)

Always a little beauty, with its heavy, thick foliage and its perfect symmetry. A native of the Black Hills country of South Dakota, it resembles its parent, the White Spruce, though somewhat slower in growth and more compact. Color is a rich, glaucous green, sometimes intense blue. Extremely hardy, easy to establish, maturing at 35 to 40 feet. One of the finest evergreens you can use for single specimen planting on the lawn; it is a wonderful windbreak evergreen for the West and Missouri Valley district. We are offering extra choice specimens this season.

Black Hills Spruce.

COLORADO BLUE SPRUCE

A Handsome
Lawn Tree —
Rich in Color,
of Perfect
Symmetry and
of Supreme
Hardiness.

(Picea pungens)

A tree developing unusual form—a broad even pyramid thickly studded with graceful branches clear to the ground, covered with heavy, lustrous foliage of varying tones—sometimes deep green, again it is touched with silver, while others have a decided blue tinge. It is a magnificent evergreen, full of vigor and hardiness like the Rocky Mountains from whence it originated, and is a grand tree for the home grounds, either used singly or in groups.

The following Colorado Spruce are not guaranteed as to color, but many of them, especially those in the smaller sizes, will develop into very fine blue specimens if given time, good care and patience. 40-60 ft. at maturity.

4-6 in. Seedlings	25	50	100
	\$2.50	\$4.00	\$7.00
(If the seedlings are desired by parcel post, add 5c for 25, 10c for 50, or 15c for 100).			
	Each	10	100
8-12 in., bushy, well branched, XX	\$0.35	\$3.00	\$25.00
(If the 8-12 in. light transplants are desired by parcel post, add 25c extra for 10 trees or less, add 40c extra for 50 trees, or 60c extra for 100 trees).			

NOTE—These seedlings and transplants were all grown from seed taken from select Blue Shiners, but do not show blue to any extent when so young—not until they reach a height of 18-24 inches.

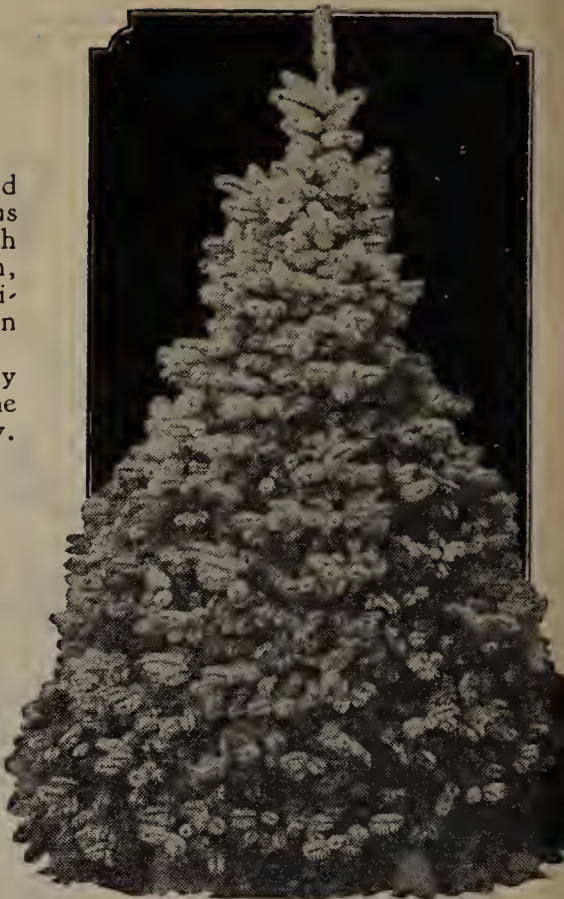

Koster's BLUE SPRUCE

Blue as the Skies—A Royal
Beauty.

A grafted form of the Colorado Blue Spruce; color is a deeper, even more perfect blue than that of the Shiners; foliage heavier and a trifle longer. It develops the same handsome form, though is more open in growth, especially when small. The aristocrat of all evergreens. 35 to 40 feet at maturity.

18-24 in. Specimens, XXX, B&B	Each \$8.00

(If any of these specimens are desired Balled and Burlapped, add 50c per tree extra).		

Colorado Blue Spruce Shiner.

Selected Colorado Blue Spruce Shiners

(Picea pungens glauca)

The "Extra Blue" trees—trees of magnificent form as their thick branches climb in even layers from a broad base to a tapering crown, with heavy lustrous foliage reflecting the most glorious silver and blue tones. Small wonder that this evergreen gets more admiration than any other—that deep in the heart of everyone is the longing to some day own a real Blue Spruce.

It is extremely hardy, adaptable to nearly all climates. Beautiful as a single specimen on the lawn, it is especially striking when planted with other evergreens where its rich color is brought out to perfection. 40 to 60 feet at maturity. Our Shiners are extra choice specimens, and were marked in the nursery last summer when they showed

a remarkably fine blue color. They are ideal for landscape work.

18-24 in. extra heavy, select Specimens, XXX, B&B	\$5.00

Evergreen Bargain Group No. 4

Our popular "Harmony Collection"—superb evergreens that combine unusually well. You will find this group very desirable for the foundation planting, for a lawn group, or in the formal garden setting.

Majestic and Graceful—It is
the King of the Pines.

White Pine

(Pinus strobus)

There is an irresistible appeal to the White Pine—grandeur of outline, charm of color, a softness and fragrance of foliage that will bring the beauty of the Pine forests right to your door.

It is extremely rapid in growth, very hardy, with long, soft, thick needles of a light silvery green. Planted alone, it will develop a magnificent specimen, tall and graceful. A windbreak or screen planting of White Pine is not only beautiful but one that will give complete security, and it is the country's foremost lumber Pine. 75 to 120 feet at maturity.

On account of the Federal Quarantine, White Pine cannot be shipped into Arizona, California, Colorado, Nevada, New Mexico, Utah and Wyoming.

White Pine.

Ponderosa Pine

(Pinus ponderosa)

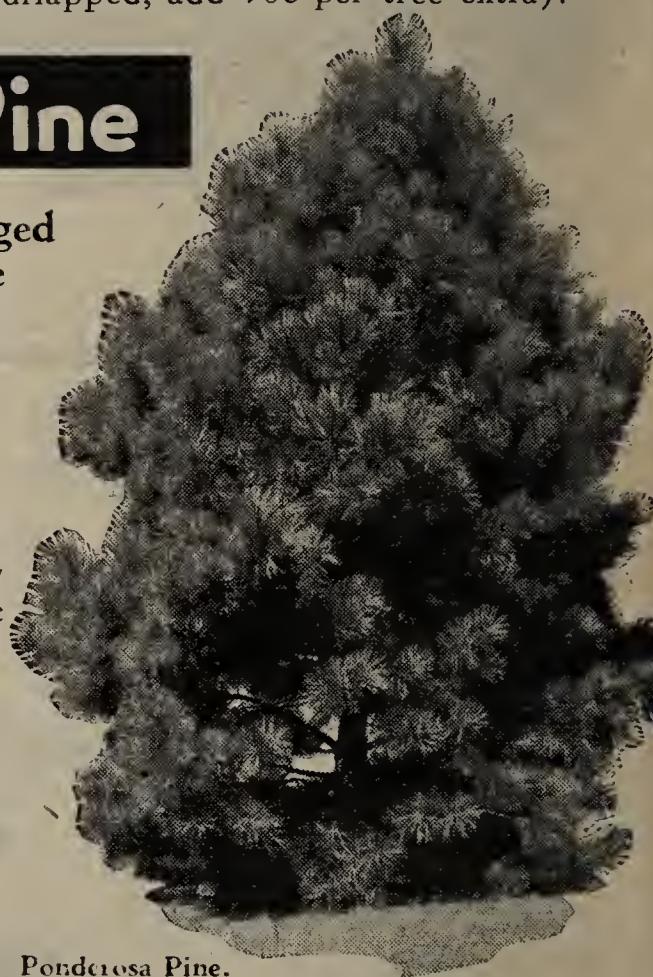

Massive, Rugged
Beauty for the
Landscape. In
Windbreaks
They Give
the Finest
Protection.

In the Ponderosa Pine you will find the beauty of strength and massiveness—a tree that is invaluable for solid backgrounds or enormous, spreading specimens. With needles longer than you will find on any other Pine, extraordinarily thick, and of a rich, deep green, you can readily distinguish it from other varieties. 90 to 120 feet at maturity. It is absolutely hardy, rapid in growth, and very valuable in windbreak planting. Our fine specimens will work wonders on your landscape.

Austrian Pine

(Pinus nigra)

The Dark, Somber
Pine of the Mountains,
of Which Poets Write.

The Austrian or Black Pine is very closely related to the Ponderosa Pine, having the extra long needles of rich green, the great spreading branches, and handsome form, though a trifle more upright reaching. A splendid tree for ornamental planting, either in the background or as a choice specimen on the lawn, and is especially fine for quick screens or windbreaks around exposed places. 90 to 120 feet at maturity.

Austrian Pine.

Scotch Pine

(Pinus sylvestris)

A Rugged, Fine Evergreen for Quick Windbreaks. A Decorative Tree for the Landscape.

There is something always attractive about the Scotch Pine—when young it is a stocky, bushy, rounded tree densely covered with blue-green needles of medium length—in older, mature years it has a delightful irregularity of outline that is so picturesque on the landscape. The Scotch Pine has always been a popular windbreak evergreen on account of its rapid growth, its hardiness, and the fact that it does well in almost any soil. Use our choice specimens for fine landscaping; they will certainly please. For reforestation, the Scotch Pine is one of the best. 35 to 50 feet at maturity.

Scotch Pine.

Red Pine

(Pinus resinosa)

The magnificent Norway Pine, growing to an immense height, and covered with thick masses of long, soft needles of a deep lustrous green. A monarch among the forest trees, so hardy and enduring, thriving even along the seacoast and in the thin, poor soils of the western plains. You will find it a splendid background evergreen, for along the driveway, or bordering the lawn; ideal for windbreaks. Extensively used for reforestation, as it is a hard Pine of much value. 75 to 100 feet at maturity.

Hardy, Enduring and Fine Looking — Useful and Ornamental.

2-6 in. Seedlings	100	1000

Dwarf Mugho Pine

(Pinus montana mughus)

Dense, Low — A Little Beauty — Popular in the Border.

The picturesque Dwarf Pine that forms a bushy, compact ball, growing as broad as it does tall, never reaching over 4 feet high, and can be kept trimmed back if desired. The long, stiff needles are very numerous, and of dark, rich green; in the spring the new growth looks like a multitude of tiny candles over the tree. Very hardy. One of the finest dwarf evergreens for the foreground and foundation.

A collection of hardy, dwarf evergreens that answers every need of the low foundation or rock garden.

The Hardy Firs

*The Grandest of All Evergreens
For the Lawn*

Concolor Fir

(*Abies concolor*)

Out of the Rocky Mountains of Colorado has come this magnificent, hardy Concolor Fir. The long, graceful needles are extremely thick on the branches, varying in color from light green to gray-blue; they give the tree a beautiful soft, full appearance and a radiant color effect that justifies its common name, "Silver Fir."

Our Concolor Firs are of the Colorado type—rapid growers, perfectly hardy, so easy to transplant, and entirely free of any insect troubles. It never loses its lower branches, and grows more compact and shapely each season, often reaching a height of 60 to 80 feet. The lustrous foliage and grand form place it far forward of the more common evergreens—a superb specimen for the lawn—wonderful in groups or screens. We have a finer stock of Concolor Fir this season than we have ever grown—beauties that will give complete satisfaction.

(If desired Balled and Burlapped, add 50c per tree extra).		

Soft, Shimmering Foliage and Handsome Form. It is the Perfect Lawn Specimen.

This beautiful Concolor Fir is growing in front of the home of S. W. Ferris II. Every Christmas Eve it is adorned with hundreds of colored electric bulbs.

Douglas Fir

(*Pseudotsuga Douglasi*)

One of America's oldest trees—splendid adaptability, endurance and vitality, enabling it to survive through the centuries. The tall, rather narrow pyramid form is compact and always graceful, with heavy foliage of deep green color. It is an evergreen of extremely long life, every year becoming more beautiful, retaining its grand form from the ground to the very tip of its lofty pyramid even through old age. Supremely hardy and so easily established, the Douglas Fir does well under the most trying conditions.

The tree is a rapid, dense grower and of great vigor, making a superb windbreak evergreen. Nor can its landscape qualities be praised too highly, for planting either in a solitary position or in a group with other evergreens, it is a masterpiece. Easily sheared, it is fine for hedges and screens also, the trimming making it even more compact.

Our Douglas Fir this season are the finest that can be produced, grown from Northern Colorado seed of the hardiest, finest type. 100 to 120 feet at maturity.

A Lofty Handsome Tree of Remarkable Vitality—So Valuable for Windbreak and Ornamental Planting.

(If desired Balled and Burlapped, add 50c per tree extra).

Ferris' Douglas Firs are extremely vigorous and hardy. They develop into just such fine, large specimens as this. If you visit the nursery, you will find this very tree directly north of the office.

Pyramidal Arbor-Vitae.

Pyramidal Arbor-Vitae

(*Thuya occidentalis pyramidalis*)

What beauties they are—classic, slender, pointed trees thickly covered with lacy, bright green foliage, never growing too tall or bushy. They display unique charm at the entrance or in the foundation planting, while in the garden they give a delightful formal touch. Their refined habits and small proportions make them very desirable for cemetery plantings.

Ferris' Pyramidal Arbor-Vitae are a selected type; the foliage is close and compact, and a bright green at all seasons, and they have been grown with expert care. They require no shearing, for their natural development is the perfect pyramid that makes them the ideal landscape evergreen. 12 to 15 feet at maturity. You will certainly be pleased with our handsome specimens.

Its Perfect Globe Shape
is so Charming in the
Foreground.

Globosa Arbor-Vitae

(*Thuya occidentalis globosa*)

A handsome dwarf evergreen, absolutely round in shape, very dense in growth, the deep green foliage flat and beautifully carved like all of the Arbor-Vitae. Seldom does it get over 3½ or 4 feet at maturity, hence its generous use in low borders and foreground work. Our Globes are choice specimens for the finest landscape effects.

Siberian Arbor-Vitae

(*Thuya occidentalis Wareana*)

A very dense, small growing pyramid of unusual hardiness. The thick foliage is deeply chiseled, and a handsome deep green color throughout the year. We recommend our Siberian Arbor-Vitae highly for ornamental planting, especially in combination with other low growers in the foundation setting and for formal effects in the garden. 6 to 8 feet at maturity if untrimmed.

Siberian Arbor-Vitae.

American Arbor-Vitae

The Favorite Evergreen for Hedges — A Delightful Lawn Specimen.

An evergreen long in use in this country, and a very lovely one—so suitable for the background or corners of the foundation planting, for screens or lawn specimens, while as the inside row of a windbreak it gives superb finish and protection.

It naturally develops a compact, graceful pyramid; the dense foliage is flat and beautifully carved, deep green in color. 35 to 50 feet at maturity. It bears shearing better than any other variety, and can easily be clipped to any size or shape desired; hence its popular use in formal hedges.

	Each	10	100
1 ft. average, XX	\$0.30	\$2.50	\$20.00

Graceful
Formality—
Extreme
Hardiness—
A Beautiful
Evergreen
in Almost
Any
Setting.

Red Cedar.

Red Cedar

(*Juniperus virginiana*)

A broad, tapering pyramid, finely formed, thickly covered with feathery foliage ranging from deep green to silver, with springtime bringing a bronze tint. Close pruning produces a formal column that is so delightful in the garden or at the entrance; the graceful, more informal lines of the untrimmed trees are handsomely displayed in groups or in a background screen.

You will find the Red Cedar growing all over the United States—an evergreen of superb hardiness, standing up well under hot, dry conditions as well as cold. How much richer is the landscape with a clump or pair of our Red Cedars 25 to 30 feet at maturity, but can easily be kept trimmed to any desired shape or size.

4-4½ ft. Select Sheared Spec., XXXX ..	2.50	22.00

(If desired Balled and Burlapped, add 50c per tree extra).

Blue Juniper

(*Juniperus virginiana glauca*)

Not only does the Blue Juniper have the grace and artistic habits of the Red Cedar, but it has the added charm of blue-tipped foliage in the summer, especially pronounced during the growing period. When kept trimmed, its shapely, compact top is a formal pyramid, but some planters prefer the open growth and more irregular outline of the untrimmed tree. A splendid, hardy, upright Juniper.

American Arbor-Vitae.

Its Rich
Blue Color
Call for
Admiration.

Blue Juniper.

Chinese Column Juniper

Exquisite, Living Columns
for the Entrance or Garden.

(*Juniperus chinensis pyramidalis*)

Not only is this new evergreen distinctly beautiful, but it is also of supreme hardiness, thriving well everywhere—North or South—except in a too wet or too shady place. It never grows more than 15 or 20 feet high, with each year's growth becoming more compact and shapely. The tall, slim columns of deep green shading to blue give a touch of elegance wherever used—at the entrance, in the foundation border, or as formal sentinels in the garden. They are very easily established and grow rapidly. You will be delighted with our extra select specimens.

	Each	10
18-24 in. Specimens, XX	\$2.00	\$18.00
2½-3 ft. Specimens, XXX	2.50	22.50

(If desired Balled and Burlapped, add 50c per tree extra).

Chinese
Column
Juniper.

A Colorful, Refined Juniper—So Distinctive on the Landscape.

Pyramid Juniper

(*Juniperus virginiana pyramidaliformia*)

The changeable colors of this beautiful new evergreen are a most interesting and delightful feature—lovely gray-green during the summer when covered with the new growth, then turning in the fall and winter to a decided plum color. It is a hardy tree, developing a slim, refined cone, and gives picturesque contrast to either a formal or informal planting.

	Each	10
2 ft. light Specimens, XX	\$2.25	\$20.00

(If desired Balled and Burlapped, add 50c per tree extra).

Meyer Juniper

Rich, Unusual Colors and Unique Form
Make This the Most Fascinating of All
Evergreens.

(*Juniperus squamata Meyeri*)

Here at the nursery we have never taken quite the interest in a new evergreen that we have in the Meyer Juniper. It has a delightful irregularity of outline that draws your attention immediately—sometimes more upright, again more trailing. The handsome foliage is thick, pointed and prickly, and of a rich, shining blue color. Sometimes in the sunlight the color will be a distinct mauve, sometimes a deep green, or even a silvery reflex—a beautiful study in color harmony. Close to the pool or in the rockery the unusual character of the Meyer Juniper is set off to perfection; in borders or foundation groups it gives superb contrast. We have the finest specimens in the United States.

	Each	10
12-18 in. Specimens, XXX	\$2.50	\$22.50
18-22 in. Specimens, XXX	3.00	25.00

Ferris' Grafted Silver Cedar

(*Juniperus scopulorum Ferrisi*)

Regal Specimens
of Bright, Shining
Silver are the
Choicest Land-
scape Material.

The grafts, from which these handsome evergreens were propagated, were selected from trees of the very bluest blue, and of the most perfect column form. The silver foliage, fine and feathery, is magnificent both in texture and color, the blue sheen especially marked during summer and fall. A very rapid grower, compact and graceful, and hardy everywhere—developing a symmetrical, silver-blue specimen that is superb for the entrance, foundation groups, or out in the garden. 12 to 15 feet at maturity when untrimmed.

	Each	10
18-24 in. light Specimens, XX	\$2.00	\$18.00
2-2½ ft. light Specimens, XX	2.50	20.00

(If desired Balled and Burlapped, add 50c per tree extra).

Meyer
Juniper.

Silver Cedar

(② *Juniperus scopulorum*)

Handsome
Pyramids of
Silver—
Superb on the
Landscape.

Not only is the Silver Cedar extremely hardy and easily established, but it is an evergreen of outstanding ornamental value. Bushy, symmetrical pyramids of light silver that are so decorative at the entrance, rounding out the corners of the foundation groups, or lending gracious hospitality to the outdoor living room. More slender and columnar than the Red Cedar, it can be given even more formal lines by clipping a little each year. 12 to 15 feet at maturity when untrimmed.

	Each	10
12-18 in. light Specimens, XX	\$1.00	\$ 9.00

where — Most
Popular Dwarf
Evergreen for
General Plant-
ing.

Pfitzer's Juniper

(① *Juniperus chinensis Pfitzeriana*)

For Charming
Grace in the
Border, it Has
No Equal.

No dwarf evergreen in the world can produce the same effect of refinement and good taste on the landscape as does this very hardy and very beautiful Pfitzer's Juniper.

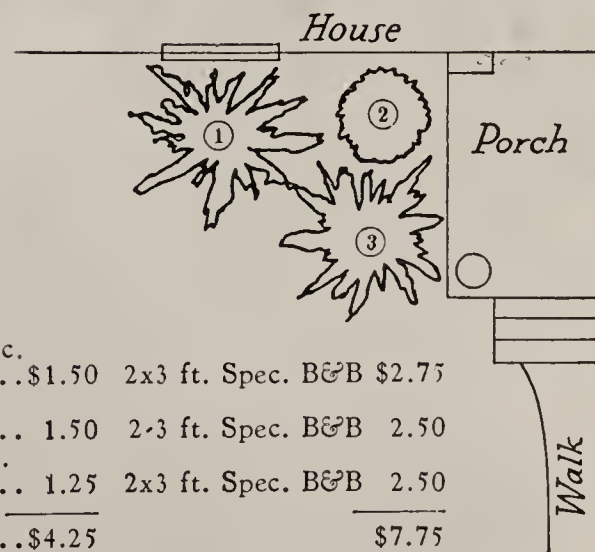

Feathery foliage of a light gray-green color, naturally developing a low, spreading form, broad and picturesque. If the leaders are staked up, a handsome broad pyramid is formed. The tree thrives well in the heat of the South as well as the rigorous climate of the North. We have never had such fine specimens of the Pfitzer's Juniper as we are offering you this season—every one of them a beauty.

\$6.50

Spiny Greek Juniper.

Spiny Greek Juniper

(*Juniperus excelsa stricta*)

A Shapely Evergreen That Displays Elegance and Formality.

If you are looking for a rather low growing evergreen of formal design—something different than the ordinary—plant the Spiny Greek Juniper. For best results, it should be planted in a sunny, dry place, where it will develop a very compact, rather broad, low pyramid of classic outline, and of a beautiful blue color. It grows slowly, very evenly, and for this reason is of outstanding favor for the foundation planting, for the rockery and pool, or formal garden.

Each 10
18-24 in. Specimens, XX ..\$2.25 \$20.00
(If desired Balled and Burlapped, add 50c per tree extra).

Tamarix Juniper

(*Juniperus sabina tamariscifolia*)

Beautiful green foliage of a most artistic character, resembling the delicacy of the Tamarisk shrub—a low, creeping evergreen, very compact—forming a dense, low mat of light misty green. A handsome edging variety, and splendid in the rock garden.

Each 10
15x20 in. Specimens, XX ..\$2.25 \$20.00
(If desired Balled and Burlapped, add 50c per tree extra).

Tamarix Juniper.

Retinospora Plumosa

Dainty and Feathery — So Picturesque in the Foundation Border or Rockery.

A handsome, small evergreen from Japan, with plumelike, blue-green foliage, more beautiful than any fern. Dwarf in habit, never getting more than 3 or 4 feet in height. It combines so well with Junipers and Arbor-Vitae in foundation groups, while it has always been a great favorite in the rock garden.

Each 10
2-3 ft. Specimens, XXX\$2.00 \$18.00
(If desired Balled and Burlapped, add 50c per tree extra).

American Yew.

American Yew

(Taxus canadensis)

This hardy evergreen seldom grows over 2 or 3 feet high, is densely covered with deep green, glossy foliage, and in the fall months is loaded with scarlet berries. Beautiful in the rockery, splendid as a low hedge, while it combines so charmingly with other types in the foundation and garden groups. It thrives well in the shade.

Handsome Foliage — Lustrous and Distinctive — An Exquisite Dwarf Evergreen for Selective Landscaping.

18-24 in. Specimens, XXX	Each	10
2-2½ ft. Specimens, XXX	\$1.50	\$10.00
	1.75	15.00

(If desired Balled and Burlapped, add 50c per tree extra).

Young or Old, the Hemlock is Always a Picture of Gracefulness.

Canadian Hemlock

(Tsuga canadensis)

The Hemlock can be depended upon to give the softening touch to any planting. Handsome, dark green foliage, soft and fernlike, densely covers the tree as it develops a broad, symmetrical cone. Because it shears easily, inducing a heavier, bushier growth, it is a wonderful tree for foundation groups, while a specimen left on the lawn to develop naturally will assume considerable height and magnificence. Plant in a somewhat sheltered place, in moist, deep sandy loam; it prefers partial shade to full sunlight.

2-3 ft. Specimens, XXX	Each	10
	\$2.50	\$22.50

(If desired Balled and Burlapped, add 50c per tree extra).

Mr. Earl Ferris:

Jasper, Ind.

I am enclosing a little order. I listen to your programs on the air and certainly enjoy them very much. I have bought evergreens and shrubs from you, and sure must say they are doing fine. You are the best nursery I have bought from yet.

MRS. EUGENE SCHNEIDER.

PEONIES The Greatest of All Flowers for the Home

"Magnificent" describes the Peony—immense, fragrant, gorgeously colored flowers of springtime that are loved the world over. They are so easy to grow, so hardy and dependable, that anyone can grow them. We are offering you here highly rated Peonies—varieties of outstanding beauty and garden value—the very best of the tested Peonies.

Plant Peonies in good, deep, rich soil in an open, sunny situation if possible, with the eyes no more than two or three inches below the surface.

(If Peonies are desired by parcel post, add 5c each, 10c for 3, or 25c for 10, for packing and postage).

TRIOMPHE DU NORD. Very large bloom of light rose-red with silvery reflex; very fragrant. Heavy bloomer.

CAROLINE MATHER. Bright rose-red with purplish tint. Striking.

FESTIVA MAXIMA. Enormous white with crimson tips, exceedingly fragrant.

LAMARTINE. Deep rose-red, with numerous golden stamens. Distinctive.

EDULIS SUPERBA. Beautiful mauve-pink. Wonderful free bloomer.

DUCHESSE DE NEMOURS. Handsome white Peony with sulphur center, no crimson flecks. Fine fragrance.

DELACHEI. Large, rose type bloom of a beautiful violet-crimson, slightly tipped silver.

MEISSONIER. Brilliant purple-red blooms borne freely on tall stems.

MARIE LEMOINE. Immense creamy white blooms; fragrant and lovely. Late.

Ferris' Special Prices on above nine selected Peonies: 25c each; 3 for 60c; 10 for \$1.75.

FELIX CROUSSE. A dazzling beauty of fiery red, large and globular.

AVALANCHE. Extra fine, milk-white, with creamy center and carmine tips.

KARL VEIDER. Large, full blooms of rose-pink; fine fragrance.

KARL ROSENFELD. Handsome, rich crimson blooms, large and compact. Superbly strong and prolific bloomer. A gorgeous Peony and often classed as the finest red.

Ferris' Special Prices on above four choice Peonies: 35c each; 3 for 80c; 10 for \$2.25.

Our Brilliant Perennial Phlox

Their Glorious Blooms Last All Summer Long
Use Ferris' Phlox Generously in Your Borders

Tall, stately trusses of waxy, gorgeously colored blooms that last the summer through—where is there a flower that will equal it for the border? Planted in beds by themselves, edging shrubs or evergreens, or clumped in mixed perennial gardens, our hardy Phlox give the grandest effects. Plant from 10 to 18 inches apart, in any good soil where they will get at least some sunshine. They are gross feeders and require considerable moisture, especially during the blooming period. Transplant every three or four years for best success.

(If Phlox are desired by parcel post, add 3c each, 5c for 5, 8c for 10, or 15c for 25 Phlox, to cover packing and postage).

DR. CHAS. MAYO. Fine large white with red eye.

ECLAIREUR. Bright rose-carmine with purplish tinge.

JULES SANDEAU. Lovely watermelon-pink.

MRS. JENKINS. Pure white, large, free flowering.

THOR. Rich salmon-pink with scarlet glow.

RIJNSTROOM. Immense flowers of charming rose-pink.

B. COMTE. A rich, satiny, purplish red.

BARON VON HEECKEREN. Splendid, new, large salmon-pink.

# Our Famous Iris

**HARDY and  
BEAUTIFUL**

There should be Iris around every home; they are easy to grow, dependable, and so lovely. Every springtime, without fail, they bring a wealth of charming lily-like flowers of every color in the rainbow, varying from rich deep tones to delicate pastel shades. Edging the pool, bordering the driveway or garden, or generous clumps of them in the perennial border—Ferris' beautiful German Iris fit perfectly into any part of the home landscape. They like good, well drained soil and a sunny location; plant about 12 inches apart, barely covering the roots with soil.

(If Iris are desired by parcel post, add 2c each, 6c for 5, 10c for 10, or 15c for 25 Iris, for packing and postage).

**PURPLE QUEEN.** Large, rich purple; very early.

**KHEDIVE.** Beautiful soft lavender with distinct orange beard. Fragrant.

**QUEEN OF MAY.** Charming shade of rose-lilac, nearly pink. Beautiful.

**MADAME CHEREAU.** Flower white with lovely blue frill.

**SAMBUCUS BEETHOVEN.** A showy Iris, with rose-lilac standards and rich purple falls.

**COMTE DE ST. CLAIRE.** Standards white; deep rich violet falls, margined white. Lovely.

**HONORABILIS.** Golden yellow standards, rich mahogany falls.

**BRIDESMAID.** White shaded soft lilac; slightly frilled.

**PERFECTION.** Light blue standards, falls dark, velvety, violet-black with orange beard. Handsome.

**CRIMSON KING.** Standards and falls a rich claret-purple.

Our special prices on above 10 varieties of Iris: 6c each; 10 for 40c; 25 for 90c; 100 for \$3.00.  
(Not less than five of a variety at the ten rate).

**MRS. H. DARWIN.** Pure white netted at base; free flowering. Very fine.

**EDITH COOK.** Deep yellow splashed with purple. Showy.

**VIOLACEA GRANDIFLORA.** Rose-lilac standards and violet-purple falls.

**NIBELUNGEN.** Large, handsome flowers with fawn-yellow standards and violet-purple falls.

**EUGENE SUE.** Cream white, purple spots and stripes.

**MONSIGNOR.** Distinctive and large, color a rich violet shading to purple-crimson.

**FAIRY.** Clear white delicately shaded soft blue; peach blossom scented.

**PLUMERI.** Standards coppery rose, falls velvety claret. Choice.

**FLAVESCENS.** Delicate soft yellow; large, sweet-scented flowers.

**GERTRUDE.** Violet-blue; fragrant and lovely.

**RHEIN NIXE.** Ivory-white standards, falls a lovely mauve edged with white.

**NUEE D'ORAGE.** Standards dove color with deep violet falls. Very large flowers and one of the finest of the Iris.

Our special prices on above seven varieties of Iris: 10c each; 10 for 60c; 25 for \$1.00; 100 for \$3.50. (Not less than five of a variety at the ten rate).

Our special prices on above five varieties of Iris: 12c each; 10 for 70c; 25 for \$1.25; 100 for \$4.00. (Not less than five of a variety at the ten rate).

# Our Beautiful GLADIOLI

The "Glad" is the flower for the millions—so hardy and easy to grow as well as beautiful. Their brilliant blooms, borne on tall, stately spikes, make a wonderful display in the late summer garden, and they are superb in bouquets, lasting a long time.

Plant Gladiolus bulbs 4 to 6 inches deep in good growing soil, and keep them free from weeds. You will have blooms all summer long if you plant a few bulbs every two weeks. Remove the bulbs from the ground in the fall before freezing weather, clean and dry them, and store in a cool, dry cellar.

Our Gladiolus bulbs listed below are large, blooming size, 1 inch and up. We guarantee them to bloom the first year.

## Most Popular Cut Flower of All Times

(If Gladiolus bulbs are desired by parcel post, add 4c for 3; 6c for 10, 10c for 25, or 20c for 100 bulbs, to cover packing and postage).

ARDEN. Beautiful watermelon-red.  
A. V. BUNCE. Copper-orange.  
LE MARECHAL FOCH. Large, delicate pink.  
HALLEY. Large, salmon-pink.  
E. J. SHAYLOR. Dark rose, ruffled.

# The Finest in PERENNIALS

## For Your Gardens and Borders

This is the Time to Make Your Dreams Come True

Wonderful Values in Our Thrifty, Field-Grown Blooming Size Plants

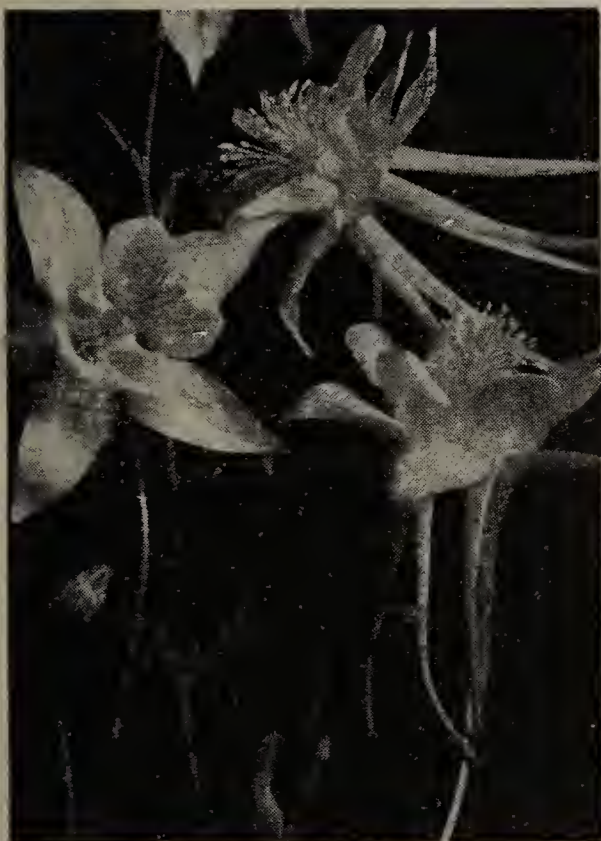

It's fairyland right in your own dooryard when rich and glowing perennial borders flourish there. Flowers of every known color and pattern—flowers that come back year after year without replanting—flowers to fill every craving of the artistic imagination! We offer here a wide selection of varieties, hardy favorites, so that you can readily choose an assortment to fit your own needs, and that will give you a glorious succession of bloom from early spring until killing frost in late fall.

PARCEL POST RATES ON PERENNIALS. Add 3c each, 5c for 5, 8c for 10, or 15c for 25 plants, for packing and postage.

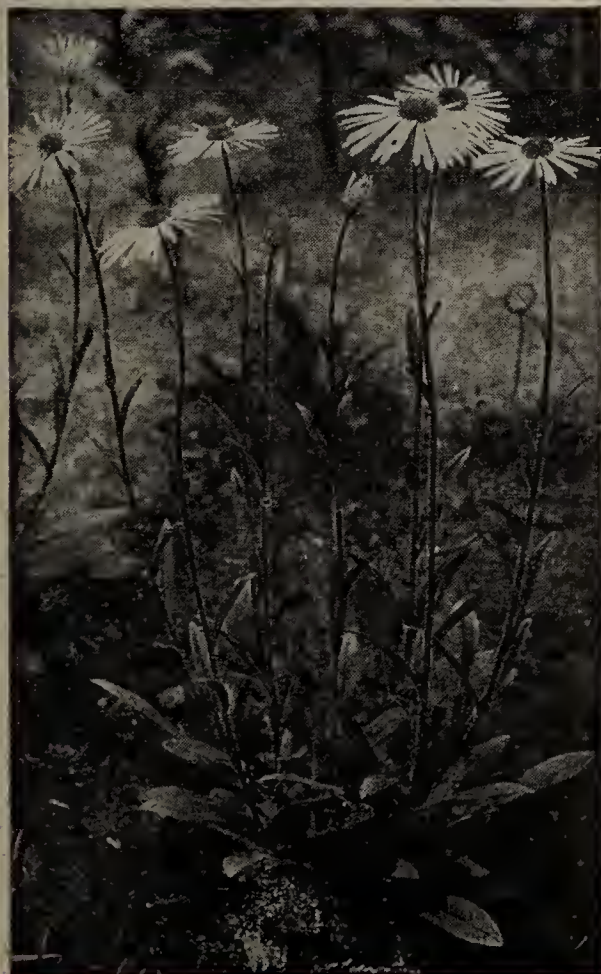

Varieties marked \* are especially suitable for rock gardens.

Achillea, The Pearl.

Long-Spurred Aquilegia.

Aster Alpinus, Goliath.

### Achillea

\***THE PEARL.** Tiny, double, roselike flowerets of pure white, in abundance from May to September; feathery foliage. A fine border plant. 20c each; 5 for 75c; 10 for \$1.00; 25 for \$2.25.

\***ROSEUM.** Dense heads of rose-pink; decorative foliage. Splendid in the border and bouquets. 15c each; 5 for 50c; 10 for 80c; 25 for \$1.75.

\***FILIPENDULA.** Glowing heads of yellow flowers in July and August. Fine for the rock garden and border. 20c each; 5 for 75c; 10 for \$1.00; 25 for \$2.25.

### Aquilegia - Columbine

One of the daintiest and most desirable of all the outdoor flowers; hardy, vigorous, long-lived, and a long-time bloomer. We have two selected strains, as follows:

\***DOUBLE HYBRIDS.** Attractive double blooms, and a good range of color. Mixed only. 20c each; 5 for 50c; 10 for 80c; 25 for \$1.75.

\***SELECTED LONG-SPURRED HYBRIDS.** Very choice, colors from white to blue and delicate tones of pink, rose, yellow and lavender, many of them bicolor. Mixed assortment only. 20c each; 5 for 60c; 10 for 90c; 25 for \$2.00.

### \* Anthemis

(Golden Marguerite)

Glowing yellow Daisies, with handsome, finely cut foliage. Wonderfully free flowering, blooming all summer long. They should be in every border planting; excellent for cutting. 15c each; 5 for 45c; 10 for 75c; 25 for \$1.50.

### \* Aster Alpinus, Goliath

A showy, dwarf perennial, splendid for the rock garden or edging the border. Grows 6 to 10 inches high, bearing large, handsome, bluish purple flowers in May and June. 20c each; 5 for 65c; 10 for \$1.00.

### \* Aster, Mauve Cushion

Very distinctive, as it forms a broad circular cushion not over 9 inches high, and this so lavishly covered with silvery mauve flowers in October and November when most other flowers are gone. Fine for edging or the rock garden. 25c each; 5 for 75c; 10 for \$1.25.

### Bleeding Heart

(Dicentra)

An old favorite, with fernlike foliage and deep rose-red, heart-shaped flowers clustered along drooping stems. Very hardy and thrifty. 30c each; 3 for 75c; 10 for \$2.00.

### Planting Suggestions for Perennials

Most of the perennials can be planted in either spring or fall, though spring is generally conceded a little the safest for the majority. Plant in good rich ground, that has been prepared the same as you would for any garden crop, and as a rule the crowns should be on a level with the ground. Set the low and medium growing perennials 8 to 12 inches apart, the taller ones 18 or 20 inches apart. The more shallow cultivation you give them with the hoe, the better they will be, and the more attractive your garden. During dry periods they should be given plenty of moisture, especially until well established. A light covering of straw, leaves or other coarse litter placed over the bed in late fall when the ground is frozen two inches down, will insure safety, and do not uncover too early in the spring.

Anthemis.

## Campanula

**CANTERBURY BELLS.** As lovely as its name, and a favorite with all garden lovers. Plants are covered with beautiful, large, bell-shaped flowers in July. One of the grandest border plants; biennial. Choice of Calycanthema (Cup-and-Saucer) or Medium (Single)—white, blue or pink. 25c each; 5 for 75c; 10 for \$1.25; 25 for \$3.00.

\***CARPATICA.** (Carpathian Harebell). Exquisite flowers of porcelain blue from June to October; you will need it in your rock garden or edging the border. Perennial. 25c each; 5 for 75c; 10 for \$1.30.

## Chrysanthemum

These are the beautiful, hardy, garden Chrysanthemums that give the garden its only color in late fall, when all other flowers have faded and gone. Vigorous, healthy plants, growing sometimes as large as shrubs. Graceful, aster-like blooms that have all the warmest, richest shades of fall. They like a rich soil that is not too wet. After the blooming period, cut back the tops quite close to the ground and mulch with clean straw. Plant in spring only. Choice of red, yellow, white, brown, and pink. 30c each; 5 for \$1.00; 10 for \$1.75.

## Coreopsis Grandiflora

Rich golden yellow flowers come in great profusion nearly the entire summer, and are excellent for cut flowers. A dependable, hardy, beautiful perennial that will do well anywhere. 20c each; 5 for 50c; 10 for 80c; 25 for \$1.75.

## Delphinium

(Perennial Larkspur)

This gorgeous perennial outclasses them all—tall, stately spikes of clear, heavenly blue flowers, with a heavy mass of beautiful foliage. Ferris' Delphiniums should be a large part of any perennial border, for they are free, continuous bloomers; they are dependable, hardy, easy to establish, giving to the garden the richest sort of background. Plant in good, rich, well drained soil in a sunny location. Choice of **Belladonna** (light sky-blue), or **Bellamosa** (deep rich blue). 20c each; 5 for 50c; 10 for 80c; 25 for \$1.75.

## Our Selected Hybrid Delphiniums

The newest and choicest sorts to be found anywhere—colors ranging from light blue, mauve, pink and lavender, down to the richest, deepest blues and purples—both single and double types. Unusually long bloom stocks of the very finest texture, coloring and form. Our visitors the past summer claimed them to be the finest hybrids they had ever seen.

**GOLD MEDAL HYBRIDS.** Mixed only. 25c each; 5 for 75c; 10 for \$1.25; 25 for \$2.25.

**WREXHAM HYBRIDS.** Mixed only. 30c each; 5 for \$1.00; 10 for \$1.60; 25 for \$2.85.

**HOLLYHOCK STRAIN.** Mixed only. 35c each; 5 for \$1.25; 10 for \$2.00; 25 for \$3.75.

## \* Dianthus - Hardy Pinks

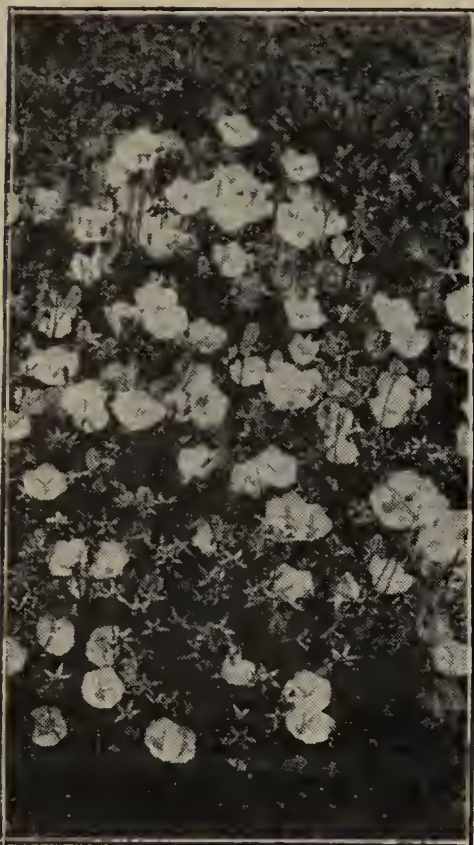

Every garden needs the charm of the Hardy Pinks—crinkled heads of rich coloring and spicy fragrance—so hardy and easy to grow. A splendid edging plant, and a favorite in rockeries. Our assortment contains a fine mixture of colors in red, pink and white. 15c each; 5 for 40c; 10 for 65c; 25 for \$1.35; 50 for \$2.25.

## Digitalis - Foxglove

Stately, picturesque plants ideal for bold effects in the border. Sometimes 4 and 5 feet high, the strong stalks covered with big bell-shaped florets, and set off by heavy, luxuriant foliage. Likes a rather loose, rich soil, and plenty of moisture. Mixed assortment only, colors ranging from pure white to soft pink and deep rose. 25c each; 5 for 90c; 10 for \$1.50.

## \* Funkia, Blue

The very popular Plantain Lily, forming a symmetrical mound of handsome, bright green, waxy foliage, with picturesque lily-like flowers of clear blue, borne on medium tall spikes in July and August. They do best in rich soil, in sun or partial shade. Fine for the border or close to the pool. 20c each; 5 for 70c.

Campanula CarpatICA.

Coreopsis.

Foxglove.

Hardy Chrysanthemum.

Delphinium Belladonna.

Hardy Pinks.

## \* Gaillardia

The Gaillardia is so easy to grow, and such a wonderfully profuse bloomer, that you can depend on having their handsome flowers all season. Shading from bright crimson to golden yellow, what a picture they make in the garden. Give them lots of sunshine. 20c each; 5 for 45c; 10 for 75c; 25 for \$1.50.

## Geum

\*MRS. BRADSHAW. Fiery red, ruffled blooms, large and double, somewhat resembling a carnation. A favorite rockery plant. 25c each; 5 for \$1.00; 10 for \$1.50.

\*LADY STRATHEDEN. Grows 12 to 18 inches high, producing a quantity of large, rich, golden yellow blossoms, beautifully ruffled, nearly the summer through. Fine among rocks or in the border. 25c each; 5 for \$1.00; 10 for \$1.50.

## Golden Glow - Rudbeckia

A tall, showy, background perennial, very hardy and thrifty, producing beautiful, golden yellow balls of bloom in August. 20c each; 5 for 75c; 10 for \$1.35.

## \* Gypsophila-Baby's Breath

A cloud of misty, white, miniature blooms cover the tiny branches of this dainty plant. A fine filler for the border, while the cut sprays blend so exquisitely in bouquets with other garden flowers. 15c each; 5 for 40c; 10 for 65c; 25 for \$1.35.

## \* Helianthemum

(Sun Rose or Rock Rose)

Showy, dwarf evergreen plants, suitable for the sunny rockery or a dry bank. Artistic, creeping foliage sets off well the brilliantly colored flowers that appear like single roses. Plant only in sandy or medium, well drained soil, with full exposure to sun, and mulch with dry straw during the winter. 20c each; 5 for 85c; 10 for \$1.50.

## Heuchera - Coralbells

Dainty plants for the border or rockery. Low, tufted leaves, with slender, graceful stems 12 or 18 inches tall, which are covered with charming blooms of white, coral and pink. Likes a moist, rich loam. 25c each; 5 for \$1.00; 10 for \$1.60.

## Hibiscus - Mallow Marvels

Giant perennial flowers of late summer and fall, grand for hedges, backgrounds, or bold clumps in the perennial garden. The showy, lovely blooms are broad, of hollyhock shape—rich red, pink and white. Your choice of colors. 20c each; 5 for 75c; 10 for \$1.25.

## Hollyhocks

Popular from our grandmothers' times, they will always be in great favor. For the showy background and tall border, they have no equal. Plant in deep, rich, sunny soil, and mulch during the winter. This season we are offering a special new strain of very striking beauty—the Emperor. Flowers are large, outer petals wide and elegantly frilled, the center a very double rosette, giving the appearance of a huge crested Begonia. Mixed colors only. 25c each; 5 for \$1.00; 10 for \$1.75.

## \* Iberis Sempervirens - Candytuft

A dwarf, spreading, compact plant, ideal for rock gardens and edging; handsome evergreen foliage, in early spring a mass of pure white, fragrant blooms. 20c each; 5 for 75c; 10 for \$1.10.

## Lathyrus - Perennial Sweet Pea

Showy, free flowering, hardy perennial climbers, ideal for covering trellises, banks, arches, etc. Numerous clusters of typical pea flowers are fine for cutting. Choice of red or pink. 25c each; 5 for \$1.00; 10 for \$1.50.

## Liatris Pycnostachya - Kansas Gay Feather

A great attraction in the midsummer garden, with its tall, 4-foot spikes of rich purple flowers, lasting a long time. Use in the background or for showy effects in the border. Very hardy, doing well in sun or shade. 20c each; 5 for 75c; 10 for \$1.10.

## Lily-of-the-Valley

The very sweetest of all flowers, with its tiny, waxy flowers like miniature bells appearing in graceful fashion up and down the stems, and such sweet fragrance. Fine for shade. 20c each; 5 for 50c; 10 for 85c.

## \* Linum Perenne - Perennial Flax

A lovely, airy plant, with delicate feathery foliage, and a shower of pale blue flowers all summer long. Desirable for rock gardens or borders. 20c each; 5 for 50c; 10 for 85c; 25 for \$1.75.

Geum, Mrs. Bradshaw.

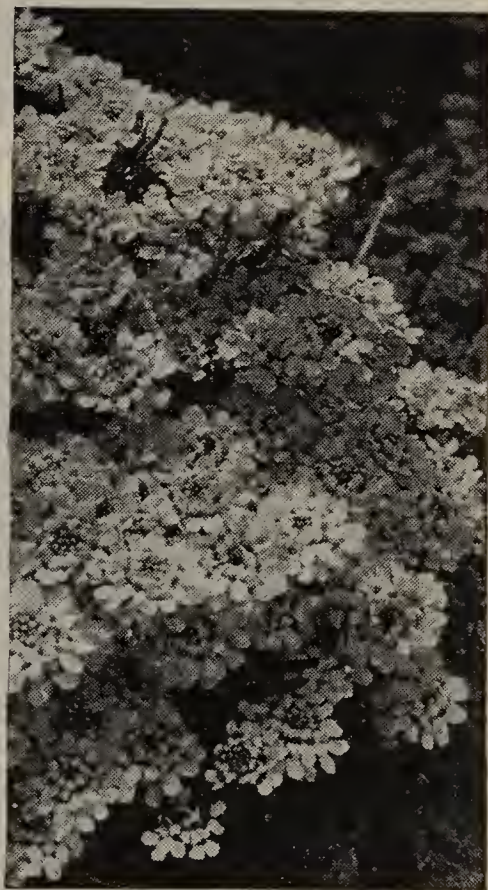

Gaillardia Grandiflora.

Gypsophila.

Hibiscus.

Iberis—Candytuft.

Lupines.

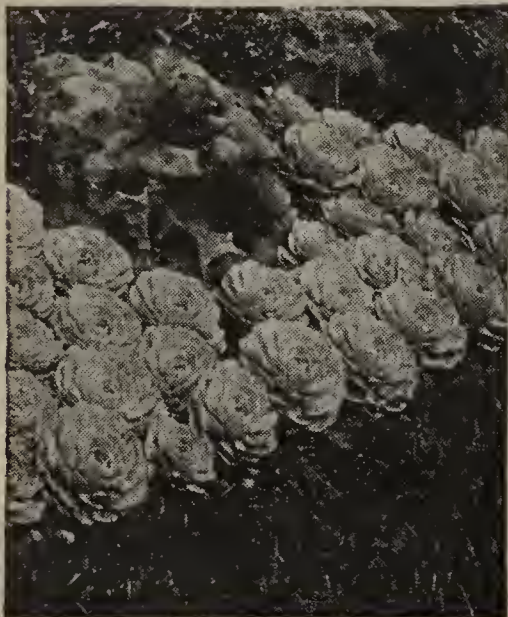

Lychnis Chalcedonica.

Scabiosa Caucasica.

Sempervivum—"Hen and Chickens."

Shasta Daisies.

### Shasta Daisy, Early

Glistening white flowers in great abundance in June, making a beautiful display in the garden, and especially fine for bouquets. Extremely hardy, liking a deep, rich soil. 15c each; 5 for 40c; 10 for 65c; 25 for \$1.35; 50 for \$2.25.

### Shasta Daisy, "Alaska"

This is the improved strain of Alaska, with extra large flowers often 4 or 5 inches across, of pure gleaming white. Very free flowering, their blooms often lasting through the summer and early fall. 15c each; 5 for 40c; 10 for 65c; 25 for \$1.35; 50 for \$2.25.

## Lupines

Long spikes of pea-shaped flowers, blue and rose in color; handsome foliage. Hardy, vigorous plants that must get plenty of moisture. An elegant perennial for the border. Choice of blue or rose. 20c each; 5 for 50c; 10 for 85c; 25 for \$1.75.

### \* Lychnis Chalcedonica - Maltese Cross

Very fine, old-fashioned perennial, very hardy and easy to establish, with dense heads of brick-red blooms throughout the summer. You will want the brilliant flash of Lychnis in your flower garden and rockery. 15c each; 5 for 40c; 10 for 65c; 25 for \$1.35.

### \* Myosotis - Forget-Me-Not

Delicate tufted foliage, the plants laden with tiny flowerets of rich blue. How charmingly they edge the border or fill in the rock garden. 20c each; 5 for 50c; 10 for 80c; 25 for \$1.75.

### \* Phlox Subulata - Moss or Mountain Pink

A grand dwarf perennial—in early spring it is a mass of colorful bloom. Splendid for edging, for ground cover, or the rockery. Choice of pink or lavender. 20c each; 5 for 60c; 10 for \$1.00; 25 for \$2.00.

## Physalis - Chinese Lantern

Very much in demand because of its wealth of bright orange-scarlet, lantern-like fruits in autumn, so fine for winter bouquets. 15c each; 5 for 40c; 10 for 65c; 25 for \$1.35.

### \* Platycodon-Balloon Flower

Large, handsome, bell-shaped flowers that bloom from July to September. Hardy, erect plants that are fine for border or rockery. Choice of blue or white. 15c each; 5 for 40c; 10 for 65c; 25 for \$1.35; 50 for \$2.25.

## Pyrethrum - Painted Daisy

Beautiful Daisies of white and shades of pink and rose cover the plant in June; attractive fern-like foliage. Very hardy and easy to grow, with a liking for sunshine. 20c each; 5 for 60c; 10 for \$1.00; 25 for \$2.00.

### \* Saponaria - Soapwort

A lovely plant for edging or the rockery, entirely covered with rosy pink flowers throughout the spring. 25c each; 5 for 75c; 10 for \$1.25.

Saponaria.

## Scabiosa Caucasica

(Pincushion Flower)

Large, showy flowers of lavender-blue from June to September. A beautiful plant in the garden, and one of the finest for bouquets. Likes well drained soil and plenty of sunshine. 20c each; 5 for 75c; 10 for \$1.25; 25 for \$2.25.

### \* Sedum, Dwarf

The very finest sort of plants for the rock garden, covering graves, etc. Hardy, very easy to establish, doing well in sunlight or partial shade. Dwarf and spreading, with thick, waxy foliage that is always attractive. Make up your assortment from the list given below.

Our Special Prices: 15c each; 5 for 40c; 10 for 70c; 25 for \$1.50.

ALBUM. Thick, waxy, round foliage and white flowers.

SEXANGULARE. Very dark green foliage and yellow flowers.

SPURIUM COCCINEUM. A beautiful rosy crimson flowered form.

STOLONIFERUM. Attractive purplish pink blooms; evergreen leaves.

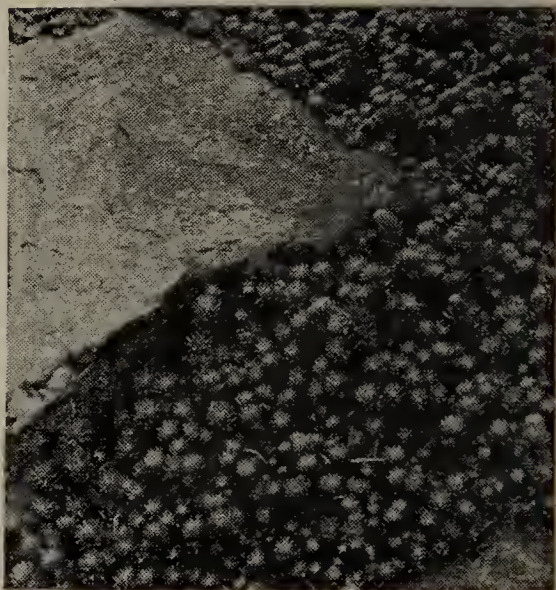

AIZOON. Bright yellow flowers.

### \* Sedum, Erect

SPECTABILIS. The prettiest of the erect-growing Sedums, with broad, light green foliage, and immense heads of handsome, showy, rose colored flowers in late fall. Splendid for either the rock garden or border. 25c each; 5 for \$1.00; 10 for \$1.75.

## Sempervivum-House Leek

The interesting, old-fashioned "Hen and Chickens." Always a source of delight to old and young. Thick, waxy leaves form very charming rosettes among the rocks or along the border, the tiny "chicks" snuggling closely to the "mother hen." Pale red flowers. You will get a lot of enjoyment from this unusual plant. 20c each; 5 for 75c; 10 for \$1.35.

Sedum Aizoon.

Statice—Great Sea Lavender.

Stokesia—Stokes' Aster.

Vinca—Trailing Myrtle.

### \* Silene Schafta - Catchfly

A lovely border or rock plant, growing from 4 to 6 inches high, with masses of bright pink flowers from July to October. 20c each; 5 for 65c; 10 for \$1.00.

### \* Statice - Great Sea Lavender

A particularly ornamental plant, splendid for the rockery or border. Tiny leaves, leathery in substance, with immense heads of purplish blue, minute flowers. In bouquets these graceful blooms blend so delightfully with other flowers, and when dried last for months. Hardy. 15c each; 5 for 50c; 10 for 75c; 25 for \$1.50.

### Stokesia - Stokes' Aster

Handsome aster-like blooms of lavender-blue or white are produced in abundance from June until October. Plant grows about 2 feet high, is very hardy and easy to establish, doing best in a sunny, open place. One of the most beautiful of all perennials, either in the garden or in bouquets. Choice of blue or white. 20c each; 5 for 60c; 10 for 90c; 25 for \$1.75.

### \* Veronica Longifolia

These showy plants have a grand covering of royal blue spikes from June to September which are splendid for cutting. A very hardy perennial, more beautiful with each season's growth. A favorite for rockery or border. 20c each; 5 for 60c; 10 for 90c; 25 for \$1.75.

### \* Vinca Minor - Periwinkle

Just the ground cover you need to edge your evergreen planting. This is the Trailing Myrtle—hardy evergreen plant growing low and spreading, with glossy foliage of a beautiful blue-green. Attractive dark blue flowers in April and May. A splendid edging for shrubbery groups, also a desirable covering for graves, or around trees where shade often prevents other plants from growing. 25c each; 5 for 75c; 10 for \$1.25.

### \* Viola Cornuta

As an edging plant, the Viola stands supreme, and besides, it is a great favorite in the rock garden. Hardy, thrifty plants, bearing great quantities of beautiful pansy-like blossoms throughout the summer and fall. Shear the plants several times during the season so that the flowers do not go to seed—it is the secret of their continuous blooming.

**MIXED VIOLA.** A delightful assortment of colors and unusual markings. 20c each; 5 for 60c; 10 for 90c; 25 for \$1.75.

**BLUE PERFECTION VIOLA.** Handsome shade of blue. 20c each; 5 for 65c; 10 for \$1.00; 25 for \$2.00.

### \* Yucca

Broad, swordlike foliage of evergreen nature, and tall, branched spikes of large, fragrant, drooping, creamy white flowers—an effective plant in almost any location. 15c each; 5 for 50c; 10 for 75c; 25 for \$1.50.

Yucca.

- 2 Yucca
- 2 Lychnis
- 2 Gypsophila

These 35 Splendid Rock Garden Plants (well worth \$7.50)—

OUR BARGAIN PRICE, POSTPAID **\$3.25**

## ROCK GARDENS

There is nothing quite so fascinating on the landscape as a beautiful Rock Garden. A natural slope, terrace, or at the back of a pool is the ideal location. Plant all rocks firmly before setting out evergreens or perennials, tipping them so that the moisture will go into the ground around them, not drain away. Set your plants in good, well drained soil, not pockets that will hold water like a cup, but see that they receive sufficient moisture especially until well established.

In perennials, we especially recommend varieties that are marked with an (\*) on this and preceding pages, and, of course, you will want some evergreens. Junipers, Arbor-Vitae, Retinospora, Mugho Pine, Yew, and any of the small transplanted Spruce and Fir are desirable, and will make your rock garden an attractive picture throughout the year. (Don't overlook the Rock Gardens pictured and priced on the front cover and page 26).

## "Favorite" Rock Garden Collection

- 1 Black Hills Spruce. 8-12 in.
- 1 White Spruce. 12-18 in.
- 1 Douglas Fir. 8-12 in.
- 1 Dwarf Mugho Pine. 8x12 in.
- 2 Savin Juniper. 10x12 in.

These 6 Ferris Evergreens, light transplanted—choice varieties for the rock garden (regular catalog price, \$2.75)—

OUR BARGAIN PRICE, POSTPAID **\$2.42**

## "Supreme" Rock Garden Collection

- 1 Chinese Column Juniper Specimen. 18-24 in.
- 1 Ferris' Grafted Silver Cedar Specimen. 18-24 in.
- 1 Pfitzer's Juniper Specimen. 18x24 in.
- 1 Meyer Juniper Specimen. 12-18 in.
- 1 Spiny Greek Juniper Specimen. 18-24 in.
- 1 American Yew Specimen. 18-24 in.
- 1 Globosa Arbor-Vitae Specimen. 12-18 in.

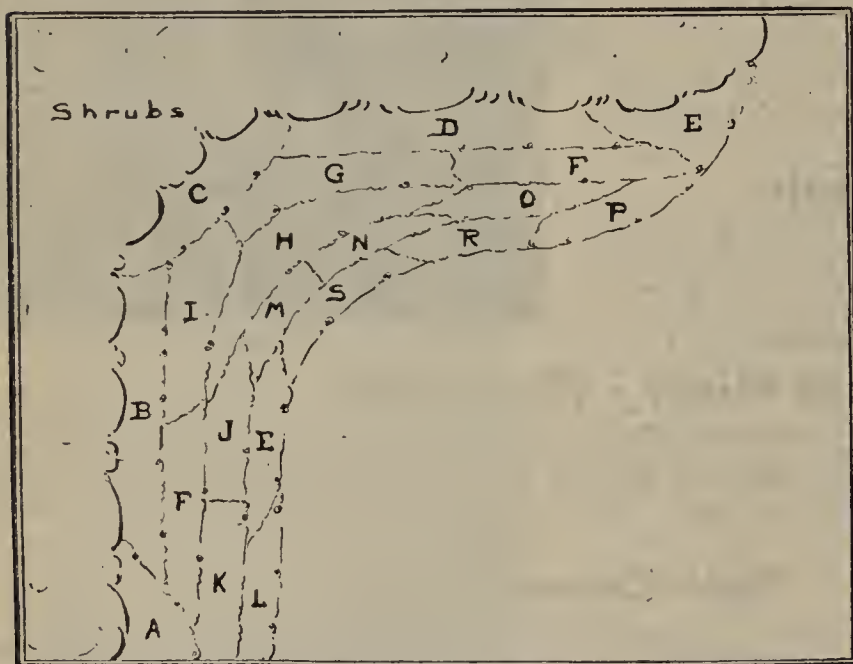

These 7 Wonderful Evergreens for the Rockery—the finest collection of the kind we have ever offered—all choice specimens (regular catalog price, \$11.75)—

OUR BARGAIN PRICE BY EXPRESS **\$8.95**

# Our "Family Garden Collection"

A grand border of beauty that will fit so perfectly into the outdoor living room, along the driveway or garden paths, or will finish the evergreen groups in such superb style. This complete planting will nicely fit a space 50 or 60 feet long and 5 or 6 feet wide.

|            |                                                                                                               |               |

OUR EXTRA SPECIAL BARGAIN PRICE

**\$19.50**

(If desired by parcel post, add 50c extra).

## Ferris' STATELY HARDY LILIES

For Spring Planting

**We Have Extra Choice Large Bulbs**

### Tiger Lily

(*Lilium tigrinum*)

The grand, old-fashioned Lily that makes a brilliant display in the garden during August and September, when the strong, branching stems are thickly covered with showy, orange-red flowers spotted with purple. Extremely hardy and thrifty; a splendid Lily for massing. **Select, blooming size bulbs, 20c each; 5 for 75c; 10 for \$1.25.** (If desired by parcel post, add 3c each, 6c for 5, or 10c for 10 bulbs).

### Lemon Lily

(*Hemerocallis flava*)

Not a bulb, but generally classed as a perennial. It is one of the old-time favorites and will always be popular. Very hardy, thriving almost anywhere, but does exceedingly well in a moist place or in shade. Abundant grasslike foliage makes a very beautiful background for the wealth of clear yellow blooms in June. Unusually effective in clumps or masses in the garden. **20c each; 5 for 75c; 10 for \$1.35.** (If desired by parcel post, add 3c each, 6c for 5, or 10c for 10 bulbs).

### Double Tiger Lily

(*Lilium tigrinum flore pleno*)

Richly colored blooms like the single Tiger Lily, but double clear to the center. Hardy and desirable. **Select, blooming size bulbs, 25c each; 5 for \$1.00; 10 for \$1.65.** (If desired by parcel post, add 3c each, 6c for 5, or 10c for 10 bulbs).

### Lilium Umbellatum

In June this showy Lily is covered with great heads of large, handsome, orange-red flowers. One of the easiest Lilies to grow and one of the most beautiful. **Select, blooming size bulbs, 25c each; 5 for \$1.00; 10 for \$1.80.** (If desired by parcel post, add 3c each, 6c for 5, or 10c for 10 bulbs).

## —for Spring Planting

**REGAL LILY** (*Lilium Regale*). Magnificent large blooms of white, lightly suffused pink, with beautiful canary-yellow center, and delightfully fragrant, these borne in thick clusters on tall, strong stems, often 4 and 5 feet high. Very hardy and easy to grow, and this, with its rare beauty and superb coloring, has made it the most popular Lily today. Plant in fall or early spring, in any good, rich, well drained soil, setting it about 5 inches deep, and placing a little sand beneath the bulb. **Fine blooming size bulbs, 12c each; 5 for 50c; 10 for 90c; 25 for \$2.00.** (If desired by parcel post, add 3c each, 6c for 5, 10c for 10, or 20c for 25 bulbs).

The Showy Tiger Lily is Always a Great Favorite.

REGAL—The Grandest Lily in the Garden.

# Ferris' Extra Choice

## Everblooming Hybrid Tea Roses

The Very Finest and Hardest Sorts for the Garden.

Our hardy Hybrid Teas are growing and abundantly blooming in all parts of America, and from everywhere comes the same story—"I want more of your wonderful Everblooming Roses." Glorious and exquisite colors, rich fragrance—blooms that are long pointed and charmingly formed like the true "hot-house" Rose—these beautiful Roses bloom from June until frost.

(If Roses are desired by parcel post, add 5c each, 10c for 4, or 25c for 10 plants, for packing and postage).

Red  
Radiance.

### COLUMBIA.

One of the greatest bedding and cutting Roses of them all. Beautifully formed buds of a lovely pink deepening in color as they open. Large, very free-flowering, and so fragrant. Select, 2-yr. plants, 45c each; 3 for \$1.10; 10 for \$3.00.

### BETTY UPRICH-

ARD. A superb everblooming Rose, with brilliant copper-red buds of splendid form that merge into lovely salmon-pink flowers touched with copper. Hardy, and a profuse bloomer. Select, 2-yr. plants, 45c each; 3 for \$1.10; 10 for \$3.00.

**CAROLINE TESTOUT.** The famous Portland Rose, producing a lavish quantity of rich, satiny, rose colored flowers, edges touched with silver. One of the loveliest of all Roses. Select, 2-yr. plants, 45c each; 3 for \$1.10; 10 for \$3.00.

**LUXEMBOURG.** A favorite at the nursery. Long, pointed buds of beautiful bronze-yellow, and very fragrant. Hardy, and a heavy bloomer. One of the best yellows for your Rose garden. Select, 2-yr. plants, 45c each; 3 for \$1.10; 10 for \$3.00.

Luxembourg.

**RED RADIANCE.** There is no finer Rose for the garden. Lovely rich red blooms, large and globular, with strong stems, ideal for cutting. Strong, steady bloomer throughout the summer. Select, 2-yr. plants, 45c each; 3 for \$1.10; 10 for \$3.00.

**PINK RADIANCE.** Most popular Rose in all America. Very large, beautiful blooms of silvery pink shading to salmon, are borne on tall, strong stems, and in great abundance. Very fragrant. Select, 2-yr. plants, 45c each; 3 for \$1.10; 10 for \$3.00.

**MRS. CHAS. BELL.** The shell-pink Radiance, with an exquisite salmon background. Hardy, steady bloomer, and should be in every garden. Select, 2-yr. plants, 45c each; 3 for \$1.10; 10 for \$3.00.

**GRUSS AN TEPLITZ.** From early June until frost, this charming Rose is covered with large, full blooms of a brilliant fiery red; deliciously fragrant. Hardy, vigorous grower, and will develop a superb hedge in rich ground. Splendid in the garden, and a showy Rose in bouquets. Select, 2-yr. plants, 40c each; 3 for \$1.00; 10 for \$2.50.

**K. A. VICTORIA.** Immense creamy white blooms of perfect form, full and double, are abundantly produced on long, strong stems. Steady, profuse bloomer; a great favorite. Select, 2-yr. plants, 45c each; 3 for \$1.10; 10 for \$3.00.

**LADY HILLINGDON.** Exquisite, long pointed buds of deep apricot-yellow come on long, strong stems, opening up full and double. One of the finest of all yellow Roses. Select, 2-yr. plants, 45c each; 3 for \$1.10; 10 for \$3.00.

K. A. Victoria.

**PREMIER.** Dark pink flowers of full size, fine form and rich fragrance. Bush strong and robust, and a profuse bloomer. A handsome Rose in the garden or in bouquets. Select, 2-yr. plants, 45c each; 3 for \$1.10; 10 for \$3.00.

If Roses are desired by parcel post, add 5c each, 10c for 4 or 25c for 10 plants, for packing and postage.

Pink  
Radiance.

# Our Rose Specialties for 1934

The Very Choicest of the Everblooming Roses

**Talisman** The most sensational Hybrid Tea Rose of all times. Brilliant orange-red buds, long and beautifully formed, open to a large, fragrant, double bloom of glowing golden yellow stained with copper and rose. Magnificent in color, it arouses the greatest admiration everywhere. **Select**, 2-yr., 55c each; 3 for \$1.50.

**Briarcliffe** Glorious, long pointed buds of large size are a brilliant deep pink and very fragrant. Heavy bloomer, and one of the very finest new everblooming Roses. **Select**, 2-yr., 50c each; 3 for \$1.35.

**Etoile de Hollande** Magnificent bright crimson blooms, perfectly formed and of immense size; they do not fade out in the sunlight. Sweet fragrance. This beautiful, hardy red Rose should be in every collection. **Select**, 2-yr., 50c each; 3 for \$1.35.

## President Herbert Hoover

The wonderful new Hybrid Tea Rose that became popular over night. Rich in contrast, with its maroon, orange and gold colorings—large buds and blooms on tall, stiff stems that are ideal for the florist's trade and a heavy bloomer besides. Our supply is limited, so order early. **Select**, 2-yr., 75c each; 3 for \$1.80.

## Rev. F. Page-Roberts

A superb new Rose, soft buff-yellow inside, with outer petals a rich salmon stained with red. Long copper-red buds open to large, very double flowers of delicious fragrance. A truly great everblooming Rose. **Select**, 2-yr., 55c each; 3 for \$1.50.

## Joanna Hill

A gorgeous new yellow Rose—long, pointed buds of perfect form opening into large, exquisite flowers of clear yellow with orange-yellow heart. Ideal blooms for cutting, as they last an unusually long time. **Select**, 2-yr., 60c each; 3 for \$1.65.

Dame  
Edith  
Helen.

## Dame Edith Helen

The supreme pink everblooming Rose of the age. Large, full double blooms of glowing pink, delightfully fragrant that are superb in the garden or in bouquets.

A very heavy bloomer. **Select**, 2-yr., 55c each; 3 for \$1.50.

Joanna  
Hill.

## Souv. de Georges Pernet

A Gold Medal Hybrid Tea Rose, with large buds of oriental red opening to gigantic blooms of orange-pink. Here is a splendid bedding Rose—dependable, a hardy and vigorous grower, and a sure bloomer. **Select**, 2-yr., 50c each; 3 for \$1.35.

E. G. Hill.

**E. G. Hill** Dazzling scarlet shading to deeper red with a rich glossy finish. Blooms very large and fragrant. It is the finest red everblooming Rose yet introduced. As long as they last, our **select**, 2-yr. plants, 60c each; 3 for \$1.65.

**Mrs. E. P. Thom** Rich lemon-yellow throughout; the strong plant a mass of golden bloom all summer long. Buds are slender and pointed, flowers large and shapely. You will want this handsome new yellow Rose in your collection. **Select**, 2-yr., 65c each; 3 for \$1.80.

Meadows, N. Hamp.

I had a perfect stand with the stock purchased from you last spring—and never have I seen such lovely Roses. They have blossomed all summer and still have a few buds. A neighbor of mine who is a great lover of flowers says they are the finest Roses he has ever seen, and he wants your catalog. Mrs. John Walker.

If Roses are desired by parcel post, add 5c each, 10c for 4, or 25c for 10 plants, for packing and postage.

Betty Uprichard.

# Our Extra Select Climbing Roses

## Choice Varieties That Have Never Been Excelled

**PAUL'S SCARLET CLIMBER.** Known as the "Reddest Rose That Grows," and is the most brilliant, most popular Climbing Rose of the present day, being more dependable and a better bloomer than the new, so-called everblooming climbers. Blossoms are nearly once again as large as the Crimson Rambler, semi-double, and hold their vivid scarlet coloring until the petals fall. Hardy, vigorous grower. Select, 2-yr. plants, 30c each; 4 for \$1.00; 10 for \$2.00.

**DR. W. VAN FLEET.** Long, pointed buds of perfect form are borne on individual stems, making them ideal for cut flowers—color a clear flesh-pink. When fully open, the flowers are enormous; foliage large and glossy. An exquisite Pillar Rose; hardy, and a profuse bloomer. Select, 2-yr. plants, 30c each; 4 for \$1.00; 10 for \$2.00.

**MARY WALLACE.** Handsome Pillar Rose with huge, semi-double blooms of bright, clear rose-pink deepening to salmon at base, so beautiful in bouquets. Strong, hardy and desirable. Select, 2-yr. plants, 30c each; 4 for \$1.00; 10 for \$2.00.

**GARDENIA.** The popular Climbing Yellow Rose. Golden yellow buds merge into creamy white as they open; foliage healthy and glossy. Select, 2-yr. plants, 30c each; 4 for \$1.00; 10 for \$2.00.

**SILVER MOON.** A white Climbing Rose, and a real beauty. Flowers are semi-double, very large, pure glistening white; with a heavy fringe of brilliant yellow stamens. Foliage bright glossy green; plant very vigorous and hardy. Charming by itself or in combination with other more colorful sorts. Select, 2-yr. plants, 30c each; 4 for \$1.00; 10 for \$2.00.

**CLIMBING AMERICAN BEAUTY.** If you know the greenhouse American Beauty Rose, you will have a good idea of the loveliness of the Climbing American Beauty. Its large blossoms of deep carmine-pink, its delightful fragrance, together with its great abundance of bloom make it a favorite everywhere. Hardy, strong grower with very attractive foliage. Select, 2-yr. plants, 30c each; 4 for \$1.00; 10 for \$2.00.

**HIAWATHA.** A flashing beauty—the strong, vigorous plant covered with large clusters of artistic single florets of a vivid crimson color with a clear white eye, and a mass of golden stamens at the center. Splendid for trellises and arches. Select, 2-yr. plants, 30c each; 4 for \$1.00; 10 for \$2.00.

(If Roses are desired by parcel post, add 5c each, 10c for 4, or 25c for 10 plants, for packing and postage).

**ROSE OF FAIRFIELD.** Large clusters of rich red double Roses in June followed by occasional blooms on the new growth during the summer, and for this reason sometimes called the "Ever-blooming Crimson Rambler." Select, 2-yr. plants, 30c each; 4 for \$1.00; 10 for \$2.00.

### Popular Rambler Roses

Your trellis and arbor need the flashy brilliance of our choice Ramblers; they will cover your fences quickly and make them beautiful backgrounds. Remember, too, that they are very hardy and dependable.

**CRIMSON RAMBLER.** Old-time favorite, covered in June with large clusters of bright crimson, miniature Roses. Select, 2-yr. plants, 25c each; 5 for \$1.00; 10 for \$1.80.

**WHITE RAMBLER.** Delightful companion of the Crimson Rambler, the large clusters of bloom being snow-white. Select, 2-yr. plants, 25c each; 5 for \$1.00; 10 for \$1.80.

**AMERICAN PILLAR.** A brilliant Climber—large, handsome, single flowers of carmine with white center and rich yellow stamens. Select, 2-yr. plants, 25c each; 5 for \$1.00; 10 for \$1.80.

**EXCELSA (Red Dorothy Perkins).** A beautiful, hardy plant, heavily covered with broad clusters of rich crimson bloom. One of the best. Select, 2-yr. plants, 25c each; 5 for \$1.00; 10 for \$1.80.

**DOROTHY PERKINS.** Ideal trellis Rose—a rapid grower and a profuse bloomer. Exquisite shell-pink, cluster of bloom very large and fragrant. Select, 2-yr. plants, 25c each; 5 for \$1.00; 10 for \$1.80.

**TAUSENDSCHOEN (Thousand Beauties).** A glory of color, delicate soft pink buds deepening to carmine as they open. Very profuse bloomer. Select, 2-yr. plants, 25c each; 5 for \$1.00; 10 for \$1.80.

**WICHURAIANA.** The lovely "Memorial Rose"—handsome trailing variety with glossy leaves and clusters of starry white flowers in midsummer, and an abundance of red fruits late in the season. Particularly desirable for covering banks, rockeries and graves in the cemetery. Select, 2-yr. plants, 25c each; 5 for \$1.00; 10 for \$1.80.

### Baby Ramblers

(Polyantha Roses)

Low growing, bushy plants—seldom over 15 inches tall—that are constantly in bloom from late spring until late fall. They are especially fine for Rose borders and low hedges, and are great favorites for cemetery planting. Choice of Pink or Red. Select, 2-yr. plants, 35c each; 4 for \$1.20; 10 for \$2.50.

## Our Superb Hybrid Perpetual Roses

Immense June Roses of Gorgeous Colors—They  
Should be in Every Garden.

We have an extra fine stock of these lovely Hybrid Perpetual Roses this season. There is not another class of Roses that can produce such an immense lot of bloom at one time; they are hardy, strong growers, with flowers of a larger size and more fragrant than any other type. Not only are they loaded with huge, showy blooms in June, but if given good care throughout the summer, they will often produce fine blooms in late summer and autumn.

**PAUL NEYRON.** By far the largest variety in cultivation and one of the best. Blooms are clear pink shaded soft rose; very fragrant. Select, 2-yr. plants, 35c each; 4 for \$1.20; 10 for \$2.50.

**ULRICH BRUNNER.** A brilliant Rose of large size, light, clear red in color, and an abundant bloomer. Delicious fragrance. So fine for the Rose garden. Select, 2-yr. plants, 35c each; 4 for \$1.20; 10 for \$2.50.

**MARSHALL P. WILDER.** Large, full blooms of rich, glowing red; very free blooming. A great favorite. Select, 2-yr. plants, 35c each; 4 for \$1.20; 10 for \$2.50.

**MAGNA CHARTA.** Extremely large, beautiful blooms of deep rose-pink shading to carmine and unusually fragrant. An abundant bloomer. Select, 2-yr. plants, 35c each; 4 for \$1.20; 10 for \$2.50.

**J. B. CLARK.** Broad, vigorous plant completely covered with showy, deep scarlet blooms of immense size, shading to a blackish maroon. Often blooms again in the fall. Select, 2-yr. plants, 35c each; 4 for \$1.20; 10 for \$2.50.

**GENERAL JACQUEMINOT.** The Rose for the millions. Fragrant, perfectly formed blossoms come early on long, strong stems, and are a brilliant scarlet-crimson. Select, 2-yr. plants, 35c each; 4 for \$1.20; 10 for \$2.50.

**PRINCE CAMILLE DE ROHAN.** Deep blood-red blooms of handsome character, perfectly formed. One of the finest deep red Roses. Select, 2-yr. plants, 35c each; 4 for \$1.20; 10 for \$2.50.

(If Roses are  
desired by parcel  
post, add 5c  
each, 10c for 4,  
or 25c for 10  
plants, for pack-  
ing and post-  
age).

**FRAU KARL DRUSCHKI.** Most popular of all pure white Roses, with extra large blooms of perfect form and fine fragrance. Free and perpetual bloomer. Select, 2-yr. plants, 35c each; 4 for \$1.20; 10 for \$2.50.

## Hardy Bush Roses for the Garden

**HUGONIS.** The Golden Rose of China. In May and June, this graceful, shrub-like plant is a shower of gold—the arching branches completely covered with beautiful, 2-inch single flowers of canary-yellow, with tufted stamens, the unusual foliage finely cut. A hardy and dependable Rose, splendid for the foreground of shrubbery groups or in the corners of the rose garden. Select, 2-yr. plants, 45c each; 3 for \$1.10; 10 for \$3.00.

**PERSIAN YELLOW.** The lovely, old-fashioned, yellow garden Rose. In June the bushy, vigorous plant is a mass of small, fragrant, double, golden-yellow flowers that are delightful in bouquets. Makes a pretty hedge, or is fine for mixing in shrubbery groups. Select, 2-yr. plants, 45c each; 3 for \$1.10; 10 for \$3.00.

# Our Beautiful ROSA RUGOSA The Hardest of All Roses

The Roses that grow and bloom where no others will; absolutely hardy even in the bleak cold climate of the Dakotas, Northern Minnesota and Wisconsin, where many Roses are more or less of a disappointment. Yet they will grow with equally as much vigor in the central and southern states. They require no winter protection.

Being shrubby growing plants, they are excellent for hedges, borders, or combine so well with flowering shrubs. Once planted they are permanent—no pruning, no spraying. Just a little manure spaded in around them and the ground kept loose, and they will last for years, yielding a great abundance of large, double, fragrant, colorful blooms. The foliage is somewhat wrinkled and waxy, making a splendid background for the artistic blossoms. At maturity they reach a height of from 4 to 8 feet, and following the flowers are brilliant seed pods or "hips" which hang on nearly all winter. It is an ideal Rose, too, for cemetery planting. Most Roses like lots of sunshine, but the Rugosas will also do well in partial shade. We have a splendid lot of Rugosa plants this season, in the following selected varieties:

**HANSA.** A handsome Rugosa, with large, double, full blossoms of deep rich red. A vigorous grower and profuse bloomer. **Select, 2-year plants, 25c each; 3 for 60c; 10 for \$1.80.**

**BELLE POITEVINE.** An extremely vigorous grower. Large, double flowers of clear rose-pink; very attractive. **Select, 2-yr. plants, 25c each; 3 for 60c; 10 for \$1.80.**

**SIR THOMAS LIPTON.** Beautiful snowy white blossoms, no tinge of pink or yellow. Flowers are very double, and borne in graceful clusters. **Select, 2-yr. plants, 25c each; 3 for 60c; 10 for \$1.80.**

**NEW CENTURY.** Unusually lovely, with large, full, double blooms of clear flesh-pink with light red center. **Select, 2-yr. plants; 25c each; 3 for 60c; 10 for \$1.80.**

Rugosa Roses.

**F. J. GROOTENDORST.** Charming clusters of double blooms of carnation-red come in great abundance, not only in June but throughout the summer, no Rose excelling it in continuous bloom. Bushy, vigorous, hardy plants that are superb for hedge planting, though just as fine for specimens. Has the same healthy, attractive foliage of all Rugosas. **Select, 2-yr. plants, 35c each; 3 for 90c; 10 for \$2.50.**

(If Roses are desired by parcel post, add 5c each, 10c for 4, or 25c for 10 plants, for packing and postage).

## How to Care for Roses

All Roses flourish best when planted in good rich, well drained soil in a sunny location. Set them deeply and firmly, giving the tops a severe pruning. Then, each succeeding spring, the Hybrid Perpetuals and Hybrid Teas should be trimmed back quite heavily to encourage more blooms. Rugosa Roses will require little future trimming except to keep them to the size desired. Climbing Roses, when once established, should have no trimming whatever in early spring except to prune out any dead wood. Any extensive trimming to Climbers should be done immediately following the blooming period.

The Climbing and Rambler Roses are all very hardy but require winter protection in places of zero temperatures. Lay down the canes in late fall and cover with earth, evergreen boughs, or leaves, or wrap in burlap. The Hybrid Perpetuals and Hybrid Teas should have winter protection, especially in the North. Before the ground freezes in the fall, mound the earth 8 to 12 inches up around the plant, then cover the exposed tops of the roses with leaves, straw or other mulching. You will have no trouble in wintering even the more tender varieties if treated in this manner.

## Rose Manual, 15c

This little booklet is of especial value to Rose lovers who are planning Rose beds and gardens. It gives complete instructions as to trimming, spraying, cultivation, fertilizing, etc., from year to year. In other words, it contains complete details on Rose culture which we do not have space for in our catalog. If you desire this helpful guide, send 15c to cover cost of printing and postage.

# Ferris' Beautiful Shade Trees

Our  
Prices  
are  
still  
LOW

You can all enjoy the beauty and comfort of our splendid trees on your lawns - along the street they will give seclusion, and will be a joy to the whole community.

## Green Ash

Good, rapid growing shade tree, with thick verdant foliage of medium size. Wood valuable commercially. 100 ft. at maturity.

|                     | Each   | 10     |
|---------------------|--------|--------|
| 6-8 ft. transplants | \$0.40 | \$3.00 |

## Mountain Ash

The Tree with the Red Berries. One of the most beautiful of all trees—deep green, fernlike foliage, light-smooth bark, a broad compact head, and then in late summer and fall a handsome covering of bright scarlet berries in clusters. In the spring large clusters of creamy white blossoms give it the appearance of a fine big bouquet. Hardy, grows rapidly, reaching 30 to 40 feet at maturity.

Mountain Ash.

ing, not to expose the roots to the air for a minute, but set deeply and firmly in good soil as soon as received. 40-60 feet high at maturity.

|                               | Each   | 10      |
|-------------------------------|--------|---------|
| 4-5 transplants               | \$1.10 | \$ 9.00 |
| 5-6 ft. transplants           | 1.60   | 13.50   |
| 12-14 ft. extra heavy, select | 6.00   | 50.00   |

## Catalpa Bungei (Umbrella Tree)

A striking tree for formal planting. The low, spreading head is 4 to 6 ft. from the ground, flat and rather dome-shaped, with large, dense leaves, giving it the appearance of a big green umbrella. Requires little trimming unless it is desired to keep the top to a certain size. Hardy. We have a fine lot of choice specimens.

|                           | Each   | 2      | 10      |
|---------------------------|--------|--------|---------|
| 1-yr. heads, 5-6 ft.      | \$1.00 | \$1.75 | \$ 7.50 |
| 3-yr. heads, 6 ft., heavy | 1.50   | 2.50   | 10.00   |

IN PLANTING, the directions given on pages 10 and 11 for Evergreens should be carefully followed, or see drawing below. A judicious trimming, cutting away any broken or bruised branches, and about two-thirds of the top will benefit the tree in every way. Plant deeply and firmly.

Our Shade Trees are all select, heavy, transplanted trees, that are bound to give the planter fine results if properly cared for.

|                           | Each   | 10     |
|---------------------------|--------|--------|
| 3-4 ft. transplants       | \$0.30 | \$2.50 |
| 6-8 ft. heavy transplants | 1.00   | 8.00   |

## Basswood - American Linden

Handsome lawn tree, with round, compact top, broad green leaves that give dense shade, and fragrant flowers followed by winged fruit. Good bee pasturage. The Linden grows rapidly, reaching 100 to 120 feet at maturity.

|                     | Each   | 10     |
|---------------------|--------|--------|
| 5-6 ft. transplants | \$1.00 | \$8.00 |

## Cut-Leaved Weeping Birch

It is hard to find a more beautiful, graceful tree. White bark, long, drooping branches, and tiny, finely cut leaves give a particularly artistic touch to the landscape—a truly charming tree at all seasons. Especially delightful when used in groups of two or three, or in connection with evergreens. Use great care in transplant-

Cut-Leaved Weeping Birch.

# Catalpa Speciosa

A beautiful picture in the spring when covered with the large white blooms. Grows rapidly, making a tall, upright tree, and has immense, dark green leaves. Of commercial value, used extensively for posts, railroad ties, etc. 75-100 ft. at maturity.

|                           | Each   | 10     |
|---------------------------|--------|--------|
| 5-6 ft. transplants ..... | \$0.50 | \$3.00 |

# American Elm

America's grandest tree and a favorite everywhere. Grows to an immense size, with great spreading branches, and beautiful, bright green foliage. Majestic, hardy, long-lived; it is the perfect lawn or park tree. Our Elms are unusually fine this season. 100-120 ft. at maturity.

|                               | Each   | 10     | 100     |
|-------------------------------|--------|--------|---------|
| 4-5 ft. transplants .....     | \$0.30 | \$2.00 | \$12.00 |
| 5-6 ft. transplants .....     | .40    | 3.00   | 16.00   |
| 6-8 ft. transplants .....     | .50    | 4.00   | 25.00   |
| 8-10 ft. transplants, heavy.. | 1.00   | 8.00   | 50.00   |

(We can make extra low prices on large Elms, 10-15 ft., and can furnish in carload lots. Write for special prices).

# Chinese Elm

(Siberian Strain)

The Wonder Tree That Grows as Fast as a Willow—Is Hardy Everywhere—and as Graceful as a Birch.

It has taken the country by storm—this beautiful, extremely hardy, rapid growing shade tree. And it has been planted everywhere with the same fine results. In a single year it will grow 4 to 8 feet; it is bushy and compact by habit, making it an ideal windbreak tree.

Catalpa Bungei.

Out on the arid western plains where few other trees exist, the Chinese Elm thrives remarkably well, while in the fertile sections it grows as no other tree has ever grown. From North and South, East and West come the same glowing reports.

As a lawn and shade tree it is perfect, growing compact and shapely, its slender, innumerable branches heavily covered with narrow, artistic leaves. It is one of the earliest to leaf out in the spring and the last to shed its foliage in the fall. We cannot recommend the Chinese Elm too highly, and we have an unusually fine stock of them this year. Order early. 40-50 ft. at maturity.

|                                                    | 25     | 50     | 100    |
|----------------------------------------------------|--------|--------|--------|
| 18-24 in. seedlings, well rooted and thrifty ..... | \$2.00 | \$3.50 | \$5.00 |

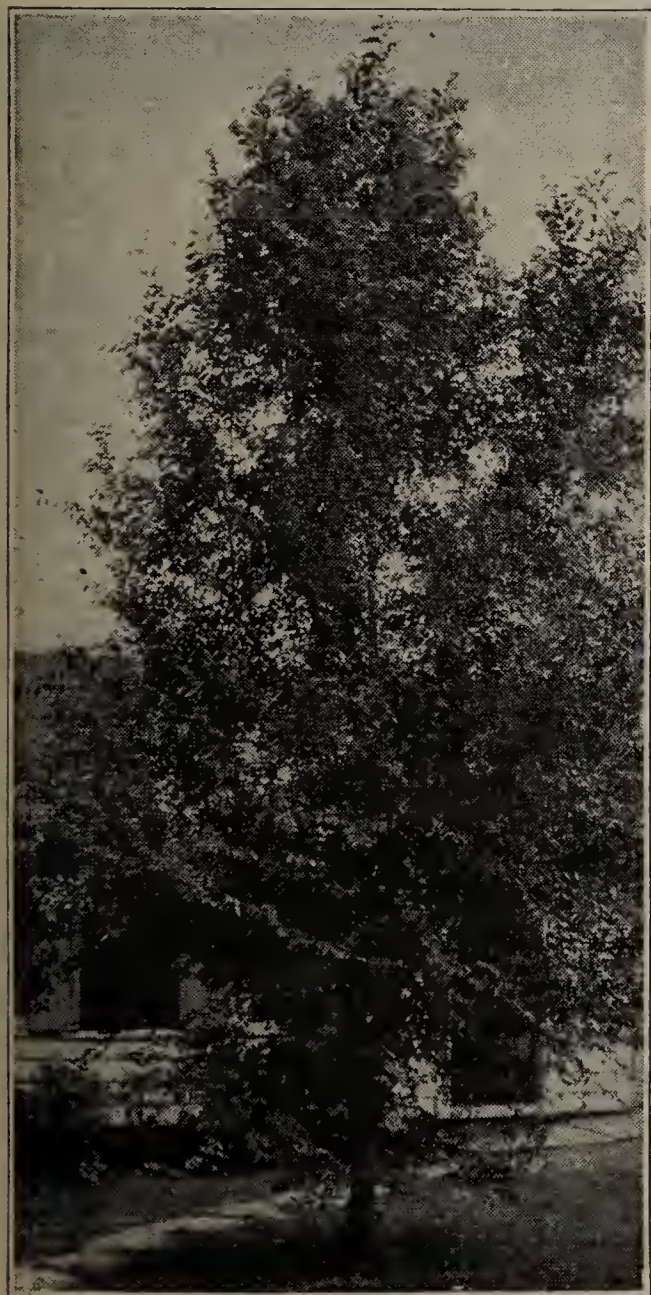

(If the seedlings are desired by parcel post, add 15c for 25, 25c for 50, or 35c for 100).

# Hard Maple

The well known Sugar or Rock Hard Maple. Its shady top is more upright than that of the Norway Maple, and it grows more slowly. Foliage very dense, turning to showy orange and red shades in autumn. Perfectly hardy, and while it tends to be a little rough when small, it develops into a magnificent shade tree—one of the most desirable for parks and lawns. We have some choice Hard Maples for our customers this season. 100-120 ft. at maturity.

|                                                     | Each   | 10      |

| 10-12 ft., heavy, select specimens .....            | 3.00   | 25.00   |
| 12-14 ft., extra select specimens, 2-3 in caliper.. | 5.00   | 45.00   |

Chinese Elm.

Norway Maple.

## Norway Maple

We consider this the finest of the Hard Maples, being a more rapid grower and smoother barked than the ordinary Sugar Maple. The spreading, rounded top is unusually symmetrical; foliage is large, dark green and very dense, staying green three weeks longer in the fall than other Maples, then turns to brilliant scarlet and yellow. It withstands well the smoke and difficult conditions of the city. For street or lawn planting, the beautiful and hardy Norway Maple cannot be excelled. Our trees are extra fine.

|                                                        | Each   | 10      |
|--------------------------------------------------------|--------|---------|

| 8-10 ft. heavy, select specimens . . . . .             | 2.50   | 20.00   |
| 10-12 ft. heavy, select specimens . . . . .            | 3.00   | 25.00   |
| 12-14 ft. extra select specimens, 2-3 in. cal. . . . . | 5.00   | 45.00   |

## Schwedler's Maple, The Red-Leaved Maple

Brilliant, purplish red leaves in the spring make a rich contrast with the vivid greens of surrounding nature; gradually the highly colored leaves soften to bronze, then a little later to deep waxy green, and late in the fall are deep yellow. A handsome lawn tree, developing the rounded, dense head of the Norway Maple. Every home planting needs one or more of our beautiful Schwedler's Maple trees. 50 to 60 feet at maturity.

|                                                    | Each   | 10      |

| 6-8 ft. heavy, well branched trees . . . . .       | 2.00   | 18.00   |
| 8-10 ft. select, well branched specimens . . . . . | 4.00   | 35.00   |

Schwedler's Maple.

## Pin Oak

The noblest tree of our country, deserving of far more planting. The foliage is handsomely carved, of a deep, waxy green, turning in the fall to a gorgeous scarlet. The tree grows tall and majestic, each year adding to its beauty and symmetry; it is extremely long lived and hardy. The Pin Oak is the finest of all Oaks for general planting, more easily established, grows more rapidly. We have beautiful specimens to offer our customers this year. 75 to 100 feet at maturity.

|                                      | Each   | 10      |
|--------------------------------------|--------|---------|

| 8-10 ft. select specimens . . . . .  | 3.50   | 32.00   |
| 10-12 ft. extra select spec. . . . . | 5.00   | 40.00   |

## Carolina Poplar

Conceded to be the most rapid growing shade tree of them all, often making 12 to 15 feet in a season. Grows tall and branching; leaves large and glossy, giving dense shade. Quite popularly used for quick windbreaks. 75 to 100 feet at maturity.

|                                      | Each   | 10     | 100     |
|--------------------------------------|--------|--------|---------|
| 4-5 ft. . . . .                      | \$0.20 | \$1.50 | \$ 6.00 |
| 5-6 ft. transplanted. . . . .        | .35    | 3.00   | 15.00   |
| 6-8 ft. transplanted. . . . .        | .50    | 4.00   | 25.00   |
| 8-10 ft. heavy transplants . . . . . | .75    | 6.00   | 35.00   |

Pin Oak.

Lombardy Poplar

Tall, slim, formal—the most striking tree on the landscape. It makes a perfect background tree, and its symmetrical, columnar shape brings out the rounded beauty of other trees and shrubs. One of the most popular for screens; use them singly to accent shrubbery groups or in connection with architectural features. 50 to 75 feet at maturity.

|                                        | Each   | 10     |
|----------------------------------------|--------|--------|
| 4-5 ft. ....                           | \$0.25 | \$2.00 |
| 5-6 ft. ....                           | .50    | 4.00   |
| 10-12 ft., extra heavy specimens ..... | 1.00   | 8.50   |

Bolleana Poplar

Very much like the Lombardy Poplar in appearance, having the same narrow, symmetrical top, but is a hardier, longer lived tree than the Lombardy. Leaves gracefully cut, light green above and clear white beneath, flashing beautifully in the breeze. Splendid for special landscape effects. 60 to 80 feet at maturity.

|                       | Each   | 10      |
|-----------------------|--------|---------|
| 6-8 ft., select ..... | \$1.25 | \$10.00 |

Sycamore - Plane Tree

An excellent tree for street and park planting because of its very rapid growth, lofty, spreading branches, and large, handsome, deeply lobed leaves. The bark is grayish green which sheds a trifle during the winter, revealing the smooth, creamy trunk beneath, and giving it an interesting mottled appearance. Plant in deep, rich soil and prune closely. 100 feet at maturity.

|                            | Each   |
|----------------------------|--------|
| 7-8 ft. transplanted ..... | \$1.00 |

Wisconsin Weeping Willow

The most widely planted Weeping Willow. Its charming, drooping habit of growth is especially attractive in the background or close to pools. Hardy. 30 to 40 feet at maturity.

|                            | Each   | 10     |
|----------------------------|--------|--------|
| 4-5 ft. ....               | \$0.40 | \$3.50 |
| 5-6 ft. transplanted ..... | .60    | 5.00   |
| 6-8 ft. transplanted ..... | 1.00   | 8.50   |

Wisconsin Weeping Willow.

Lombardy Poplar.

Russian Golden Willow

Rapid growing Willow, with interesting, bright yellow bark. In mass plantings they are very decorative in the wintertime. Make good, quick wind-breaks, and are very hardy.

|              | Each   | 10     | 100     |
|--------------|--------|--------|---------|
| 4-5 ft. .... | \$0.35 | \$2.50 | \$20.00 |

Roadside Planting and Reforestation

The Roosevelt Administration has urged a program for roadside planting and reforestation throughout the United States. We are co-operating in this great work by offering to planters and farmer friends a splendid lot of evergreens and shade trees at rock bottom prices—ideal trees for the wood lot, shelter belt, roadside, or reforestation. Especially do we call your attention to the amazing low price for American Elms on page 47, as well as the bargain prices on evergreens given on pages 12 to 17.

FERRIS' NURSERY STOCK A GENUINE IMPROVEMENT TO ANY PLACE

Stockton, Ill.  
Mr. Earl Ferris: March 25, 1933.  
I got quite a lot of stock from your nursery a number of years ago, and it has all done so well that we had no occasion to order any more. I wish you could see the Norway Spruce now that I got from you about 21 years ago. There were 175 trees, 1 to 1½ feet high, and now would average over 30 feet in height. I planted them in a double-row windbreak north and west of the farm buildings. We also got about 75 fruit trees from you of different kinds, and an assortment of other trees, grape vines, and shrubs. This has not only added value to my farm, but it has also beautified it, and I am sure that the money this stock cost me is the best investment I ever made. We are more than pleased with it, and it is there to be seen.  
Yours truly, ELMER L. NADIG.

A Beautiful Outdoor Living Room developed

Ferris' Garden Planting "B"

Here in this delightfully secluded spot, surrounded by lovely shrubs and gay perennials, the happiest hours are spent—chats with neighbors and friends, the family conclave, the children's game. It's a low price to pay for all the joy and satisfaction it will bring to you and yours.

## OUR BARGAIN PRICE (For Background Trees and Plants) \$29.00 \$59.00

# Beautify your home with

# FERRIS'

**Selected  
SHRUBS**

**Hardy  
Thrifty  
Plants**

**Wonderful  
Bargain Prices**

**N**O NEED, now, to deny yourself the beauty and serene joy of Flowering Shrubs, when you can get them at such very low prices. And what a miraculous change even a group of them will make around the porch or along the foundation. You will be delighted with their charming blooms, both for indoor bouquets and for the outdoor color they bring.

A few simple rules will help you to create the most beautiful setting for your home, such as keeping an open lawn for the most part, planting shrubs in groups at the entrance, around the foundation of the house, at the corners and along the boundary lines—keeping the taller growing sorts in the background and the dwarf plants in front—avoiding too stiff lines by rounding out the corners and forming curves along the straight stretches.

Berberis Thunbergi—Japanese Barberry.

We offer you here a wonderful assortment of shrubs to choose from—fine, hardy plants that will make ideal foundation groups, or taller growing varieties for screens and backgrounds, as well as good substantial sorts to give body and tone to the garden and outdoor living room.

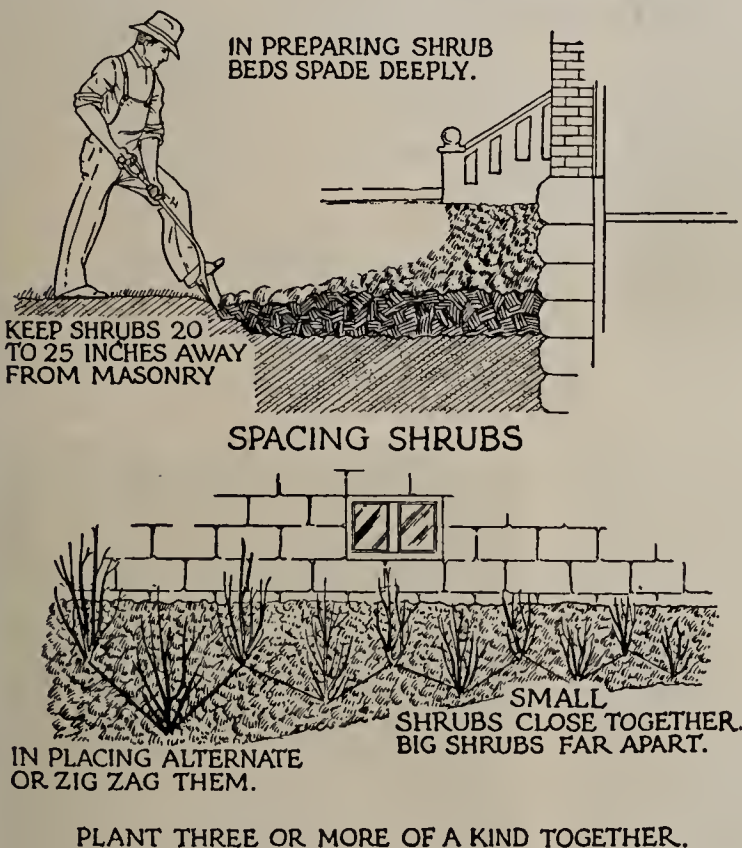

**FLOWERING ALMOND.** Early in the spring before other shrubs have budded, the spectacular Flowering Almond is loaded with exquisite double blooms of pink or white. Hardy, but does best when planted in a protected place close to the house or in the garden, yet should have a rather predominate place where the early flowers can reflect their full beauty. 4-7 ft. at maturity. Choice, Pink and White.

|                    |        |        |
|--------------------|--------|--------|
|                    | Each   | 10     |
| 2 ft. transplants. | \$0.30 | \$2.70 |

## PARCEL POST Shipment of Shrubs

The smaller sized shrubs we list can in most cases be shipped by parcel post, and where desired that way and it is requested on the order, we will ship parcel post with the postage C. O. D. This automatically insures your shipment and protects you. The larger, heavier shrubs are in many cases too large and bulky for parcel post shipment.

## How to Plant Shrubs

### PLANTING DIRECTIONS FOR SHRUBS

Shrubs are easily planted and require little care. Any good growing soil is excellent. Set the plants deeply and firmly, and trimming the tops back will insure a quicker and better growth. Keep them cultivated and free from weeds the first year or two, watering them in the evening during dry spells. After the first year they will require little care other than any annual pruning you may wish to give them. Each year's growth will add to the charm of your planting.

**JAPANESE BARBERRY** (Berberis thunbergi). A round, bushy, graceful plant, loaded with thorns, and hardy everywhere. Bright green in summer, the leaves becoming brilliant red in fall, with a handsome covering of scarlet berries that last way into the winter. Splendid for the foundation planting, and one of the finest of all hedge plants. Remember it is free from rust and can be planted anywhere. 3-5 ft. at maturity.

|                                           | Each   | 10     | 25     | 100     |
|-------------------------------------------|--------|--------|--------|---------|
| 1 ft. average, heavy, twice transplanted. | \$0.15 | \$1.00 | \$2.00 | \$ 5.50 |

| 2-3 ft. select, heavy .....               | .40    | 3.50   | 6.00   | 17.50   |

**RED-LEAF BARBERRY** (Berberis Thunbergi atropurpurea). Rich, bronze-red leaves that become more brilliant in the sunlight, so plant it in an open, sunny place. A splendid foreground shrub; beautiful in hedges. Like the Japanese Barberry, it has an abundance of thorns, and is thickly covered with bright scarlet berries in the fall. Hardy, and absolutely rust-proof. 2 to 3 feet high at maturity.

|                                                      | Each   | 10     | 50      |

| 4-year extra heavy transplants, 18 in. average ..... | .40    | 3.50   | 13.50   |

Flowering Almond.

Shrubs—Continued

**BEAUTY BUSH** (*Kolkwitzia amabilis*). The name fits it exactly, for it is graceful and lovely at all seasons, but especially so when entirely covered in May and June with charming bell-shaped flowers of an enchanting shade of pink. Very desirable in foundation groups or informal borders. 4 to 6 feet high at maturity.

|                                        |        |        |
|----------------------------------------|--------|--------|
|                                        | Each   | 10     |
| 2-yr., 1-2 ft. average .....           | \$0.35 | \$3.00 |
| 3-yr. transplants, 3 ft. average ..... | .60    | 5.00   |

**BUTTERFLY BUSH** (*Buddleia magnifica*). A delightful addition to the summertime garden, its arching branches handsomely tipped with light purple blooms in July and August; fine fragrance. This beautiful Summer Lilac should be used in the border or perennial bed, the tops pruned back severely each season. 3 to 5 feet high at maturity.

|                          |        |        |
|--------------------------|--------|--------|
|                          | Each   | 10     |
| 2-yr., field grown ..... | \$0.30 | \$2.50 |

**DWARF DEUTZIA** (*D. gracilis*). A charming little shrub, low growing, bushy, covered in May and early June with dainty white flowers. Excellent in foundation groups or edging the shrubbery border, while small clumps of them at the entrance walk are especially enticing. 1 to 2 feet high at maturity.

|                         |        |        |
|-------------------------|--------|--------|
|                         | Each   | 10     |
| 2-yr. transplants ..... | \$0.30 | \$2.50 |

**DEUTZIA, PRIDE OF ROCHESTER.** A graceful plant, often reaching a height of 4 to 6 feet, covered with handsome, double white flowers in May. Splendid in foundation plantings; should be given a rather sheltered position.

|                          |        |        |
|--------------------------|--------|--------|
|                          | Each   | 10     |
| 1-yr., field grown ..... | \$0.10 | \$0.80 |
| 3-yr. transplants .....  | .25    | 2.00   |

Deutzia, Pride of Rochester.

**DEUTZIA CRENATA.** Another favorite in landscape groups. Beautiful, double pink flowers thickly stud the graceful, upright branches in May. A delightful companion plant for the Pride of Rochester. 3 to 5 feet high at maturity.

|                          |        |        |

**RED-BRANCHED DOGWOOD.** Showy, blood-red branches make this one of the most interesting and delightful plants for the wintertime landscape. Summertime brings an artistic growth of bright green foliage, yellowish white flowers and pearly white fruit. Its tangled growth is fine for the background or mass planting; it does well in sunshine or shade. 5 to 7 feet at maturity.

|                                |        |        |

| 3-yr., heavy transplants ..... | .50    | 4.00   |

Forsythia.

**GOLDEN ELDER.** The golden beauty of its foliage contrasts richly with the green of other shrubs; large, flat blooms soften the luster, and are followed by purplish berries. A handsome, hardy shrub, excellent for contrast or for massing. 6 to 10 feet high at maturity, but can easily be kept trimmed back if desired. **Plant in full sunlight.**

|                               |        |        |
|-------------------------------|--------|--------|
|                               | Each   | 10     |
| 18-24 in., field grown .....  | \$0.20 | \$1.50 |
| 2-3 ft. transplants .....     | .25    | 2.00   |
| 3-4 ft., heavy transplants .. | .35    | 3.00   |

**FORSYTHIA (Golden Bell).** The first shrub to bloom in the spring—and what a bright spot it makes on the landscape! Beautiful, bell-shaped flowers of rich golden yellow cover the bush before the leaves appear. Early spring will reward you handsomely if you set out three or four of the joyful Forsythia in the groups around your home. 6 to 8 feet at maturity, but it is advisable to keep trimmed somewhat.

|                                |        |        |
|--------------------------------|--------|--------|
|                                | Each   | 10     |

| 3-yr., heavy transplants ..... | .25    | 2.00   |

**JAPANESE FLOWERING QUINCE** (*Cydonia japonica*). A long-time favorite in gardens. In May, often before the attractive glossy leaves appear, it is completely enveloped in clustered flowers of bright rose-crimson, looking almost as if it were ablaze, which sometimes gives it the name "Firebush." It likes a sheltered, sunny place. In combination with Forsythia or early bloomers of that sort, its beauty is enhanced, while a background of evergreens will bring out its full charm. 3 to 5 feet at maturity.

|                             |        |        |

| 3-yr. transplants .....     | .40    | 3.60   |

Variegated Dogwood.

Gentlemen:

Chicago, Ill., 7529 Yale Ave.,  
Sept. 21, 1933.

Early in the spring I sent you an order for Hybrid Tea Roses. I believe there were some 12 or 15 and I am happy to say that I had a 100% growth. To date I have had 175 perfect blooms. Ferris roses certainly grow.

Respectfully,

MRS. C. A. FRAZER.

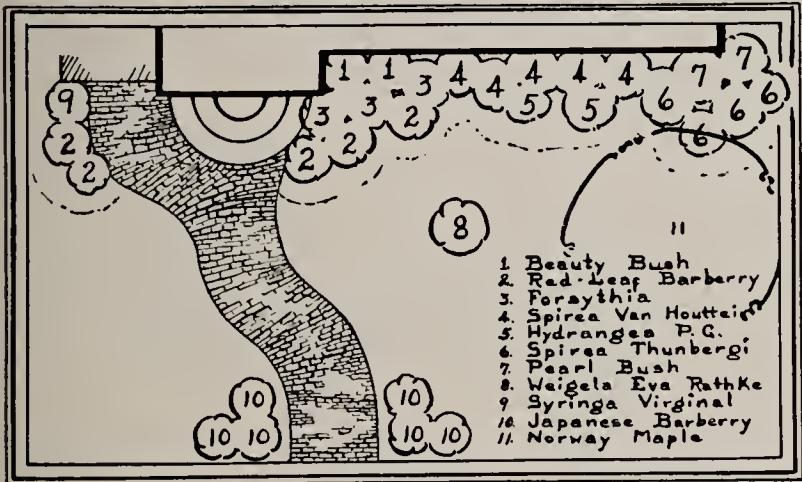

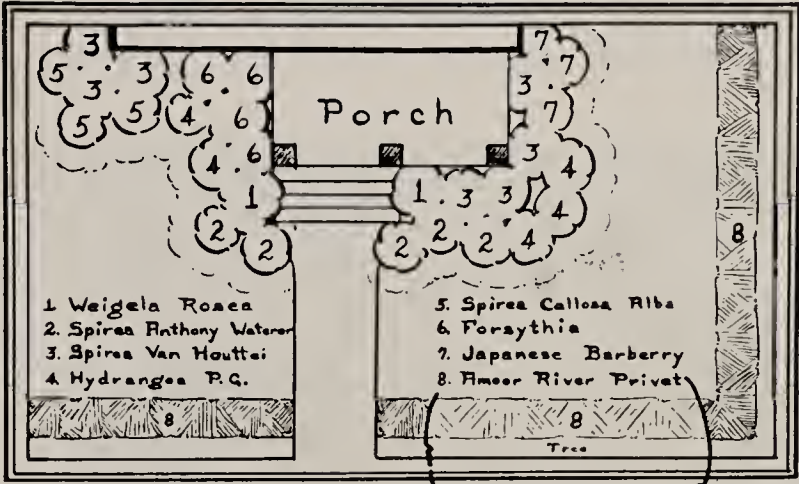

# Ferris' Landscape Collection "E"

It is surprising what a few Ferris' shrubs and a hedge will do to the exterior appearance of your home. This choice assortment will give polish and beauty to almost any type home.

# Ferris' Landscape Collection "F"

Your home is worthy of the serene beauty that this fine Ferris Collection gives to the exterior view. Our low prices make landscape improvements possible for everyone.

Shrubs—Continued

**PINK TARTARIAN HONEYSUCKLE.** Bleak, ungainly spots about the home are easily hidden with a screen hedge or mass planting of the robust and beautiful Honeysuckle. About the time of Decoration Day, it is covered with delicate pink buds that open bluish white; luxuriant foliage of bright green; in late summer a wealth of orange and red berries. It grows rapidly, in almost any kind of soil, and in partial shade as well as sunshine. 8 to 12 feet at maturity, but can be kept trimmed back to any height desired.

|                                  |        |        |
|----------------------------------|--------|--------|
|                                  | Each   | 10     |
| 12-18 in., field grown .....     | \$0.20 | \$1.50 |
| 2-3 ft., heavy transplants ..... | .35    | 3.00   |

**WHITE TARTARIAN HONEYSUCKLE.** Like the pink variety, except that the buds and blooms are pure white. It, too, has the bright red berries in the summer.

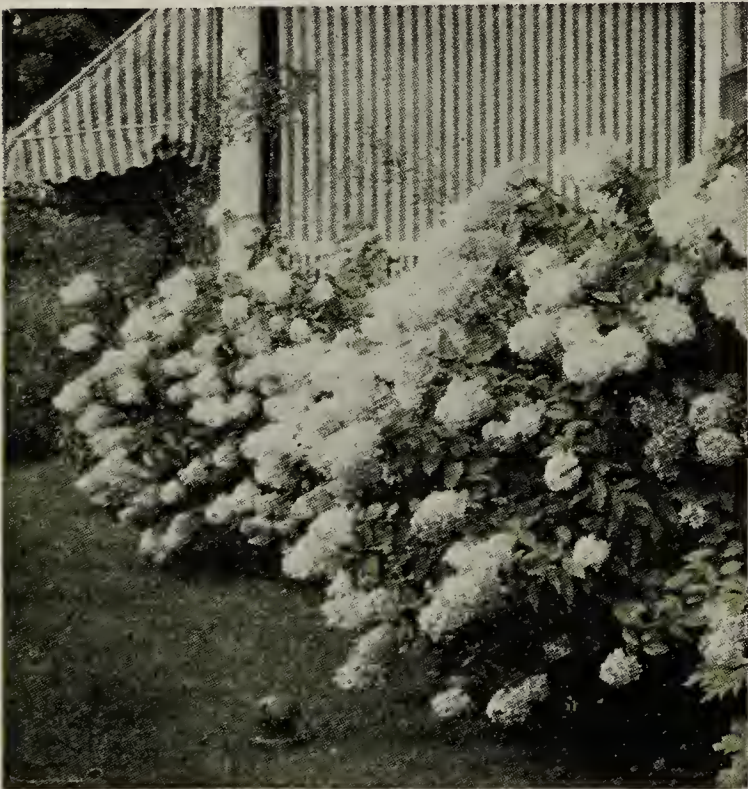

|                                  |        |        |
|----------------------------------|--------|--------|

| 12-18 in., field-grown .....     | \$0.20 | \$1.50 |
| 2-3 ft., heavy transplants ..... | .35    | 3.00   |

**RED TARTARIAN HONEYSUCKLE.** Blooms of this plant are light crimson. Habits of growth the same as the pink variety.

|                             |        |        |
|-----------------------------|--------|--------|
|                             | Each   | 10     |
| 12-18 in. transplants ..... | \$0.30 | \$2.50 |

**JAPAN HONEYSUCKLE, MORROWI.** A splendid plant, with wide spreading branches thickly laden with creamy white flowers early in the season, followed by handsome crimson berries in July. You will find it ideal for softening blank walls or screening undesirable views, and it is hardy everywhere. 4 to 6 feet at maturity.

|                                |        |        |
|--------------------------------|--------|--------|
|                                | Each   | 10     |
| 2-yr., field grown .....       | \$0.15 | \$1.00 |
| 3-yr., heavy transplants ..... | .30    | 2.50   |

Hydrangea Paniculata Grandiflora.

**HYDRANGEA ARBORESCENS (Hills of Snow).** The glorious, summer-blooming Hydrangea, with large, light green, heart-shaped leaves, and a grand covering of immense, pure white panicles of bloom in July and August that look much like the Snowball. One of the most desirable for foundation planting. Trim severely in early spring to induce bushy, vigorous growth and more bloom. 3 to 5 feet at maturity.

|                         |        |        |
|-------------------------|--------|--------|
|                         | Each   | 10     |
| 3-yr. transplants ..... | \$0.35 | \$3.00 |

**HYDRANGEA PANICULATA GRANDIFLORA.** A magnificent landscape shrub, and exceedingly popular. From August until late autumn, the shapely plant is loaded with large, globe-shaped blooms, at first white, with a delicate tinge of pink at the first frost, then light bronze and green, lasting for months. Very hardy, liking best a moist, sunny location; in beds or masses they make a glorious picture, while in foundation groups they are superb. 3 to 5 feet at maturity.

|                          |        |        |
|--------------------------|--------|--------|
|                          | Each   | 10     |
| 2-yr., field grown ..... | \$0.25 | \$2.00 |
| 3-yr. transplants .....  | .35    | 3.00   |

**TREE HYDRANGEA, P. G.** The same as Hydrangea Paniculata Grandiflora, but grown on stems in dwarf tree form. At maturity they stand 5 to 6 feet high. Fine for specimen planting on the lawn.

|              |      |        |
|--------------|------|--------|
|              | Each |        |
| 3-4 ft. .... |      | \$1.00 |

**WHITE KERRIA (Rhodotypos kerrioides).** Here is a fine shrub for the shady spots around the home, and a beautiful one as well. Its foliage is unusually attractive, sharp notches and deep veins giving it a somewhat plaited effect. Then, there are showy white flowers in May and June, followed by jet black fruits or seed pods that last all winter. 4 to 5 feet at maturity.

|                         |        |        |
|-------------------------|--------|--------|
|                         | Each   | 10     |
| 2-yr. transplants ..... | \$0.25 | \$2.00 |

**PEARL BUSH (Exochorda grandiflora).** The right place for this handsome shrub is in the background, or it can be grown as an individual specimen on the lawn. In early spring the buds have the appearance of gleaming pearls strung on slender threads, which in May open to magnificent sprays of pure white. 8 to 12 feet at maturity.

|                          |        |        |
|--------------------------|--------|--------|
|                          | Each   | 10     |
| 2-yr., field grown ..... | \$0.25 | \$2.00 |

**ROSA RUGOSA.** A Rose that is often included in the shrubs, as it is excellent in combination with shrubs—invaluable in the border plantings. See varieties, descriptions and prices on page 45. You will be surprised how much colorful beauty a group of three or more of them will bring to your shrubbery plantings.

**WHITE SNOWBERRY (Symphoricarpos racemosus).** Even in the shade, this pretty shrub will produce the long clusters of milk-white fruits which are so very attractive, and which remain far into the winter. Its compact form and semi-dwarf habits make it desirable for foundation groups. 3 to 5 feet at maturity.

|                                |        |        |
|--------------------------------|--------|--------|
|                                | Each   | 10     |
| 2-yr., 12-18 in. average ..... | \$0.15 | \$1.00 |
| 3-yr., heavy transplants ..... | .35    | 2.50   |

**RED SNOWBERRY (S. vulgaris).** Quite like the White Snowberry except that its fruits are red, and are clustered in thick ropes along the weighted-down stems. Thick, fine foliage; plant of good form. A delightful companion to the white variety. 2 to 4 feet at maturity.

|                                |        |        |
|--------------------------------|--------|--------|
|                                | Each   | 10     |
| 2-yr., 12-18 in. average ..... | \$0.15 | \$1.00 |
| 3-yr., heavy transplants ..... | .35    | 2.50   |

White Tartarian Honeysuckle.

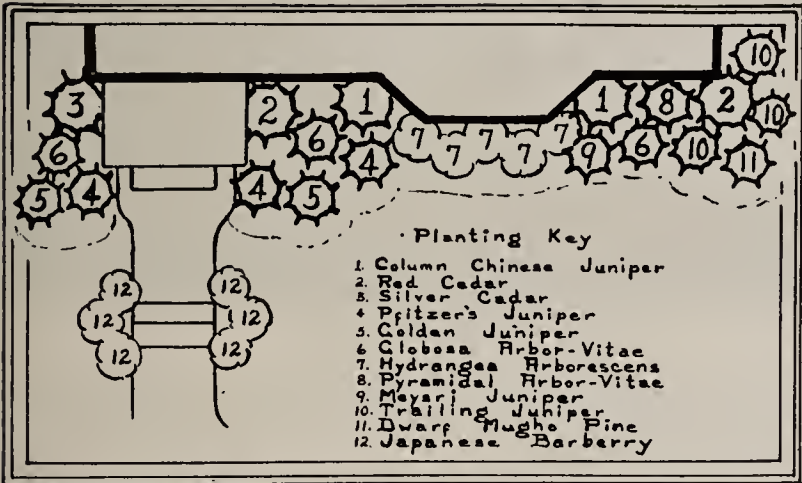

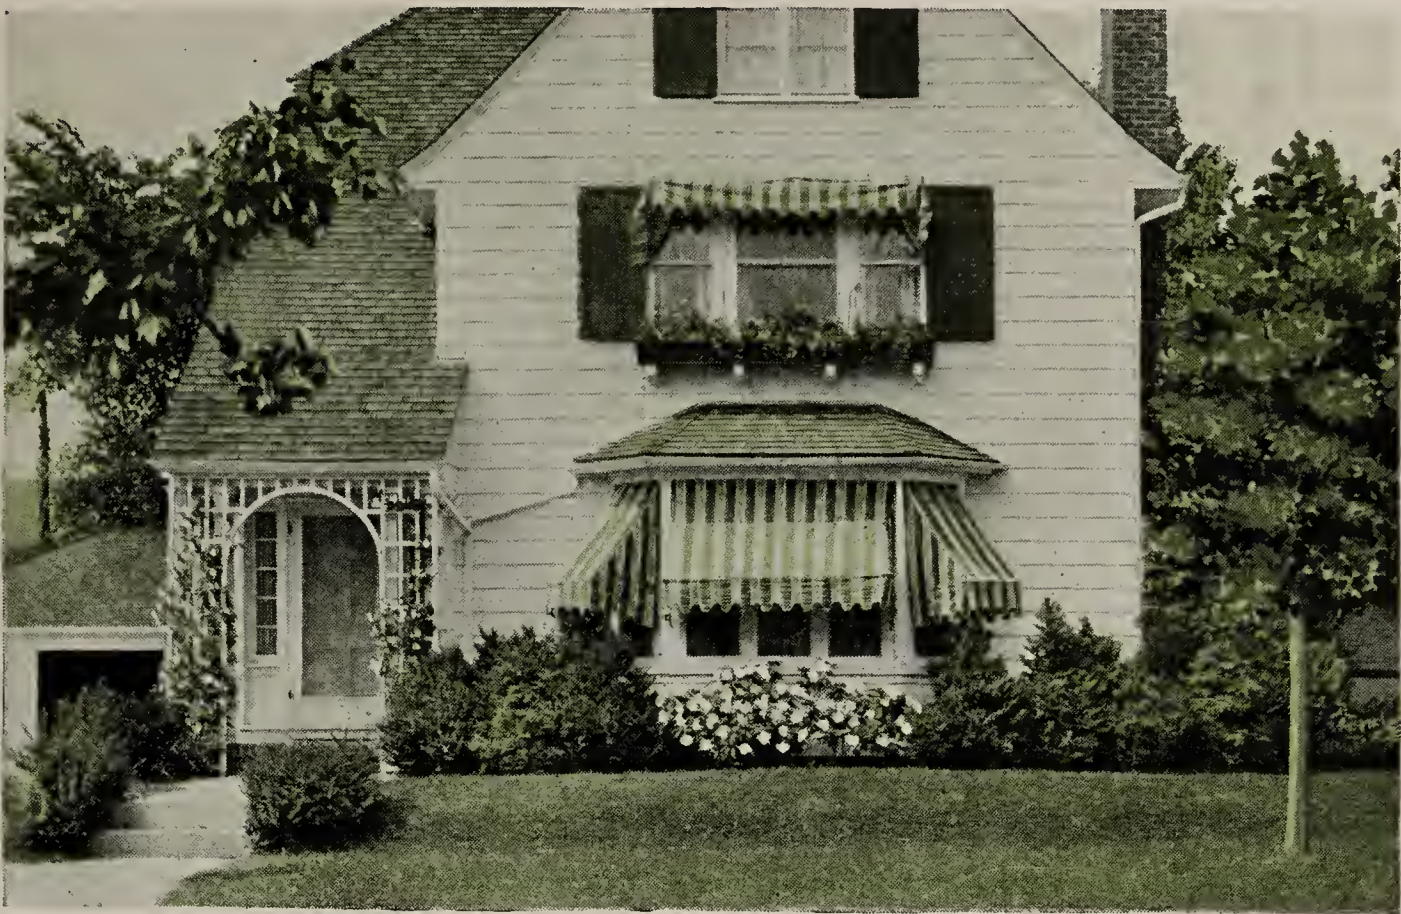

White Kerria Blossoms and Foliage.

Ferris' Combination Collection "G"

A modernistic planting for the new or old home —superb evergreens that give classic distinction the year through, while the group of flowering shrubs add a touch of gracious cordiality. A grand collection at a low price.

Ferris' Landscape Collection "H"

A careful selection of Ferris ornamentals has made this one of the most attractive homes in the community. It combines artistic foliage with a succession of beautiful bloom, and includes a fine Blue Spruce to give it perfection.

# LILACS—

## Old and New

Without the Beauty and Fragrance of the Lilacs,  
Springtime Would be Robbed of Half its Charm.

**OLD-FASHIONED LILAC** (Vulgaris). Easily the favorite of the old-time flowers, and because of their hardy, dependable nature and exquisite blooms, they will always be popular. Single specimens on the lawn or in the garden form immense plants, sometimes 10 to 12 feet high, while in groups or screen hedges they are superb. Choice of purple or white.

## Our Beautiful French Lilacs

Our selected French Lilacs are in great demand, and you should order early—they go so fast. Their blooms are enormous, many of them double, colors varied and beautiful, and so very fragrant. Moreover, they bloom when very young, usually the next year after planting. In clumps, hedges, or in combination with other shrubs in the foundation planting, they make a magnificent display. 5 to 8 feet at maturity.

White Snowberry. (See page 58).

Madame Lemoine Lilac.

**MADAME LEMOINE.** Beautiful, immense clusters of snow-white. Double.

**BELLE DE NANCY.** Large, double flowers of a charming pinkish tint.

**MICHAEL BUCHNER.** Exquisite pink-lilac buds merging into blue-lilac when fully open. Extremely large trusses; double.

**MADAME CASIMIR-PERIER.** Very large clusters of double blooms, clear white.

**PRESIDENT GREVY.** Large, full, double blossoms of exquisite lilac color.

**JEAN MACE.** Beautiful shade of cobalt blue; double.

**CHAS. X.** Reddish purple buds changing to mauve in full bloom. Huge, lovely single flowers.

**LE GAULOIS.** Large, handsome, double blooms of rosy lavender.

Dear Sirs:

Florin. Pa.  
Sept. 21, 1933.

Received three different shipments of shrubbery from you last spring, and I am delighted to report to you that I have not had one loss. Everything was beautifully packed and arrived here in fine condition. Best of all, I was amazed at the fine sturdy big bushes I received. I will surely order anything I need from you next spring, as I am more than pleased.

Your pleased customer,  
MRS. HOWARD MUSSELMAN.

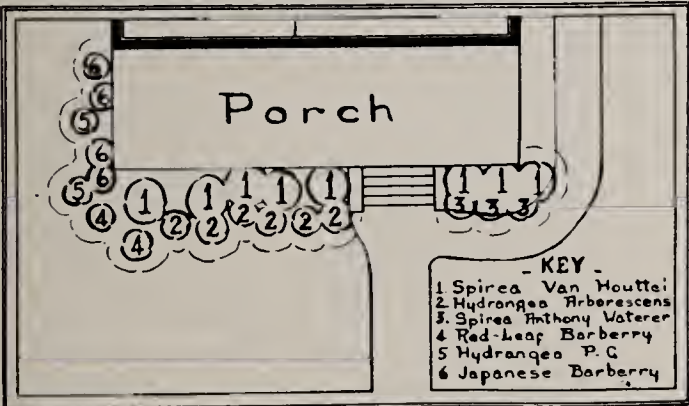

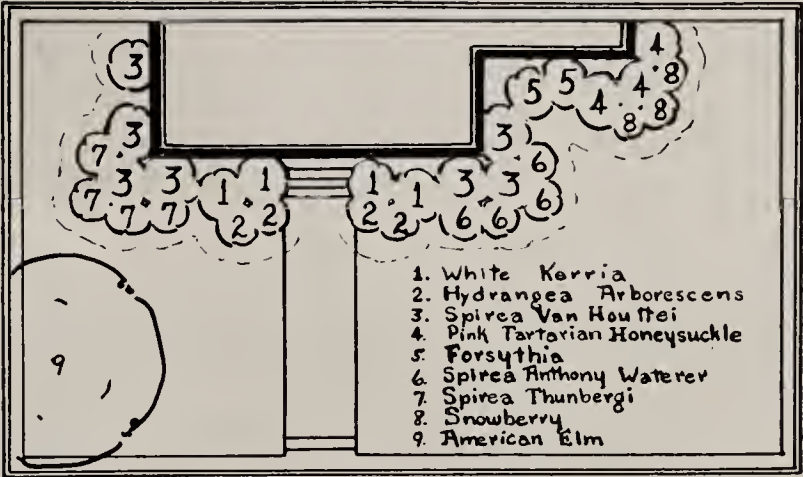

Ferris' Foundation Collection

"I"

A beautiful landscape setting for almost any style of architecture, softening the harsh lines, and bringing a lavish amount of bloom the season through. Fine for either the sunny or shady exposure.

Ferris' Foundation Planting "K"

You, too, can be proud of your home if you frame it with this fine combination of Ferris ornamentals, and the price is down to almost nothing!

Shrubs—Continued

**SPIREA VAN HOUTTEI.** "Bridal Wreath" it is commonly called; in fact, it looks like a beautiful, shimmering bride during May and June, when the long, graceful, drooping sprays are completely covered with the pure white blossoms. It is the favorite shrub the country over—so hardy, so easy to grow, answering so many purposes, and beautiful in or out of bloom. In foundation plantings, in screens or trimmed hedges, or planted as individual specimens on the lawn, the lovely Spirea Van Houttei meets perfection. 4 to 6 feet at maturity.

- 1-yr., field grown, 10c each;  
75c per 10; \$1.50 per 25;  
\$4.00 per 100.
- 2-yr. transplants, 20c each;  
\$1.50 per 10; \$2.50 per 25;  
\$7.50 per 100.
- 3-yr., heavy clumps, 35c each;  
\$2.50 per 10; \$4.00 per 25;  
\$12.00 per 100.

**SPIREA ANTHONY WATERER.** The everblooming Spirea, with a great wealth of rose-crimson blooms in July, and from then on a more moderate covering of flowers until frost. Dwarf, compact, ideal for foundation planting or foreground work. 18 to 24 inches at maturity.

|                           |        |        |

| 2-yr., select transplants | .25    | 2.20   |

Spirea Van Houttei.

Korean Spirea.

The New and Beautiful Korean Spirea

(Spiraea Trichocarpa)

While only recently introduced from the Korean Mountains of Asia, this handsome Spirea has already found much favor, surpassing even the well beloved Van Houttei in popularity, adaptability and fine foliage. Naturally it forms a broad bush, compact and round, with graceful, arching outer branches. It blooms two weeks later than Van Houttei, the flowers are larger, and have a distinct eye, appearing in dome-shaped clusters. A hardy, thrifty grower, and we recommend it highly for general planting. 4 to 6 feet at maturity.

|                   |        |        |
|-------------------|--------|--------|
|                   | Each   | 10     |
| 2-yr. transplants | \$0.35 | \$3.00 |

**SPIREA CALLOSA ALBA.** A good companion for the Spirea Anthony Waterer, with broad, white panicles of bloom from June until August; dwarf growing. In groups, by itself, or in combination with the Spirea Anthony Waterer, you are certain to like it. Hardy and a good bloomer. 2 feet at maturity.

|                    |        |        |
|--------------------|--------|--------|
|                    | Each   | 10     |
| 1-yr., field grown | \$0.20 | \$1.50 |
| 2-yr. transplants  | .30    | 2.50   |

**SPIREA THUNBERGI.** Tiny, feathery foliage covering its numerous, threadlike branches gives the Thunbergi a very delightful, fluffy appearance. Dainty white flowers in the spring. One of the best for foundation settings or shrubbery clumps. 3 to 4 feet at maturity.

|                    |        |        |
|--------------------|--------|--------|
|                    | Each   | 10     |
| 1-yr., field grown | \$0.20 | \$1.50 |
| 2-yr. transplants  | .30    | 2.50   |

**SPIREA SORBIFOLIA** (Ash-Leaf Spirea). Handsome, fernlike foliage like the Mountain Ash sets off so well the long, feathery panicles of creamy white bloom. Does well in shade or sunlight, is very hardy, and is an excellent shrub for foundation groups or informal planting. 4 to 6 feet at maturity.

|              |        |        |
|--------------|--------|--------|
|              | Each   | 10     |
| 2-yr. select | \$0.30 | \$2.50 |

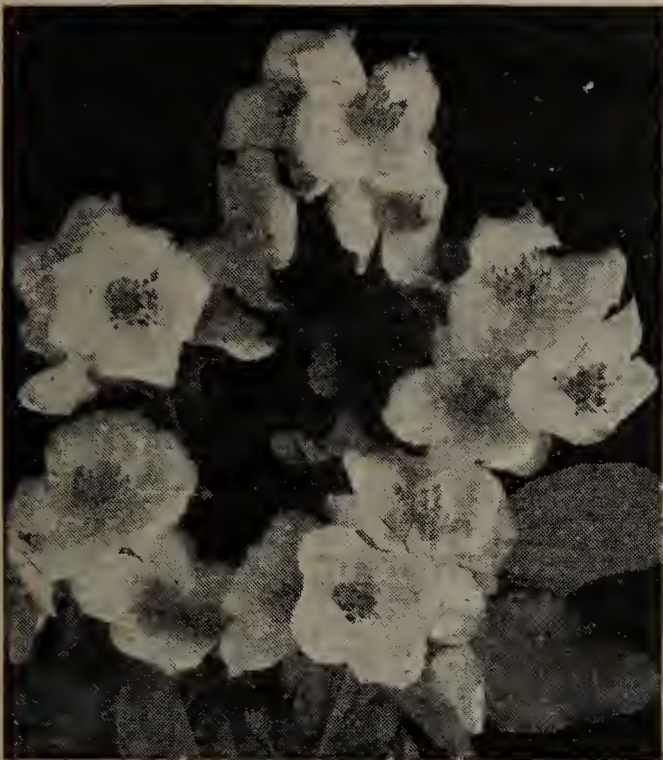

**SPIREA BILLIARDI ROSEA.** Long plumes of soft pink bloom cover the plant in July, often lasting until September. Very ornamental in foundation groups, hedges, or border planting. Hardy, compact, shapely bush, growing 4 to 5 feet high at maturity.

|                          |        |        |
|--------------------------|--------|--------|
|                          | Each   | 10     |
| 1-yr., field grown       | \$0.15 | \$1.00 |
| 4-yr., heavy transplants | .40    | 3.50   |

Spirea Thunbergi.

Syringa—Mock Orange.

**STAGHORN SUMAC.** A tall, broad-growing shrub, with luxuriant and lustrous foliage, deep green in the summer and brilliantly colored in the fall. The Sumac is one of our finest native shrubs, just the thing to fill up a corner or to dress up the background. Scarlet fruits in the fall.

|                           |        |        |
|---------------------------|--------|--------|
|                           | Each   | 10     |
| 2-3 ft. transplants ..... | \$0.40 | \$3.50 |

**SYRINGA, MOCK ORANGE** (*Philadelphus coronarius*). White, waxen blooms of delicious fragrance have made this one of the most popular of all shrubs around the home. The tall, vigorous bush is covered with the exquisite blooms in May and June, and is invaluable in screens and background planting. 8 to 10 feet at maturity.

|                          |        |        |
|--------------------------|--------|--------|
|                          | Each   | 10     |
| 1-yr., field-grown ..... | \$0.15 | \$1.00 |
| 3-yr. transplants .....  | .25    | 2.00   |

**SYRINGA LEMOINE.** Medium in height, with a lavish covering of large, very fragrant, white, sparkling blooms, sometimes semi-double, and very attractive, healthy foliage. A splendid shrub to fill in back of the dwarf types. 4 to 5 feet at maturity.

|                         |        |        |
|-------------------------|--------|--------|
|                         | Each   | 10     |
| 3-yr. transplants ..... | \$0.30 | \$2.60 |

**SYRINGA, VIRGINAL.** A truly magnificent shrub, and conceded to be the finest of all Syringas. The pure white flowers are extra large, five to seven in a cluster, some single, some double, some semi-double, and of the finest fragrance. A long bloomer—in fact, almost everblooming. 6 to 8 feet at maturity.

|                    |        |        |
|--------------------|--------|--------|
|                    | Each   | 10     |
| 2-yr. transplants. | \$0.30 | \$2.50 |

**TAMARISK, GALLICA.** A graceful, fairy-like shrub, often growing 10 to 12 feet high when untrimmed. Foliage is very delicate and feathery, light green in color, and when topped with the long, loose sprays of tiny pink flowers, it makes a most compelling picture—like a pink and silver mist. Will do well in either moist or dry soil.

|                         |        |        |
|-------------------------|--------|--------|
|                         | Each   | 10     |
| 2-yr. transplants ..... | \$0.30 | \$2.50 |

**SNOWBALL** (*Viburnum opulus sterile*). A showy plant for the May garden, and has always been popularly planted for its early, Decoration Day blooms. Very hardy, producing in quantity the well known, white, ball-shaped blooms. A favorite for cemetery planting and for the "homey" garden. 6 to 8 feet at maturity.

|                          |        |        |
|--------------------------|--------|--------|
|                          | Each   | 10     |
| 2-yr., field-grown ..... | \$0.30 | \$2.50 |

Snowball.

**HIGH BUSH CRANBERRY** (*Viburnum opulus*). Large bunches of shiny, crimson berries in the fall and winter are a distinguishing feature and particularly ornamental. Early in the season, the handsome, bright green foliage sets off so well the soft white flowers that are somewhat flattened. Sturdy, vigorous, beautiful; it does well in sunlight or shade. 6 to 10 feet at maturity.

|                          |        |        |
|--------------------------|--------|--------|
|                          | Each   | 10     |
| 2-yr., field-grown ..... | \$0.30 | \$2.50 |
| 3-yr. transplants .....  | .40    | 3.50   |

**DOUBLE-FILE VIBURNUM** (*Viburnum tomentosum*). A grand, all-season shrub, the broad plant loaded with handsome white flowers in May and June, followed by a heavy crop of attractive berries, which at first are red, changing to blue-black. Its bright green foliage assumes purplish tints in the fall. Grows about 8 feet tall, and does well in partial shade.

|                         |        |        |
|-------------------------|--------|--------|
|                         | Each   | 10     |
| 2-yr. transplants ..... | \$0.35 | \$3.00 |

**WEIGELA ROSEA.** How can it help but be popular, with its showy display of fine, bell-shaped, rose-pink flowers in May and June? Broad, bushy plant, with large, deep green leaves, the elegant blooms lasting an unusually long time. Excellent as a specimen, in foundation groups, or in massed borders. 4 to 6 feet high at maturity.

|                         |        |        |
|-------------------------|--------|--------|
|                         | Each   | 10     |
| 2-yr. transplants ..... | \$0.30 | \$2.60 |

**WEIGELA, EVA RATHKE.** An extra choice sort, with beautiful blooms very similar to the Rosea, except that they are very rich, deep crimson in color, and such an abundance of them. A splendid shrub for the foundation planting or the informal border. 3 to 4 feet at maturity.

|                         |        |        |
|-------------------------|--------|--------|
|                         | Each   | 10     |
| 2-yr. transplants ..... | \$0.35 | \$3.00 |

**FRENCH PUSSY WILLOW** (*Salix caprea*). A very interesting shrub or dwarf tree, producing many furlike catkins, one to two inches long, up and down upright stems. Quite often these pearl-gray catkins have a touch of pink, and are delightful in winter bouquets. The branches can be cut any time in December, January or February; then, if placed indoors in a vase of water, they will quickly burst forth into bloom. Remove from the water when in full bloom, and they will retain their loveliness for months. 6 to 10 feet at maturity.

|                            |        |        |
|----------------------------|--------|--------|
|                            | Each   | 10     |
| 3-3½ ft. transplants ..... | \$0.50 | \$4.00 |

High Bush Cranberry.

Weigela Rosea.

Bechtel's  
Flowering  
Crab.

**FERRIS'**  
**Dwarf Flowering Trees**  
**At Bargain Prices**

In Groups or as Specimens on the Lawn, They are Always Charming.

**Japanese Flowering Crab**  
(*Malus floribunda*)

A handsome sort, thickly covered with rose-red buds changing to white as they open, followed by artistic fruits of yellow in the fall. 15-20 feet at maturity.

4 ft., select ..... Each \$0.50

**Bechtel's Double Flowering Crab**  
(*Malus ioensis Bechteli*)

A real beauty, and so popular. From the middle to the last of May, it is profusely covered with delicate pink blossoms, double and large, which from a distance look like small roses. Very fragrant. 15 feet at maturity.

3 ft., select ..... Each 10 \$0.45 \$4.00

**Crimson Crab**  
(*Malus atrosanguinea*)

Everyone is delighted with this showy flowering tree—a veritable shower of dark red, single flowers in the month of May, with small, bright red fruit in the fall. Fine for individual planting. 15-20 feet at maturity.

4 ft., select ..... Each \$0.50

**Scheidecker's Flowering Crab**  
(*Malus Scheideckeri*)

Beautiful double blossoms of sweet fragrance abundantly cover the tree in May—often red in the bud, changing to pink as they open. Another fine specimen type. 12-15 feet at maturity.

4 ft., select ..... Each \$0.50

**Midget Crab**  
(*Malus micromalus*)

Upright, vasselike tree, which is a mass of lovely pink flowers in May, followed by a heavy crop of midget fruits. Extremely showy in both blooming and fruiting periods. 15 feet at maturity.

4 ft., select ..... Each \$0.50

**Paul's Scarlet Thorn - Crataegus**

In the Haw family, and like its kinfolk is absolutely hardy, and of unusual beauty. Showy, bright crimson double blooms in May and June set off by handsome, shiny foliage; during the winter its whorled branches and wild aspect make it wonderfully picturesque. Likes rich, heavy soil. Give it a prominent place near a shrubbery group, where it can show off so well its many charms. 12-15 ft. at maturity.

3 ft. specimens ..... Each \$1.00

Paul's Double Scarlet Thorn.

# BEAUTIFUL VINES

Ferris' Vines give delightful finishing touches to the home that shrubs and trees cannot supply—softening sharp angles, covering bleak stretches of wall, providing grateful shade around a sunny porch, or covering arches, trellises and pergolas in their alluring way. Many of them have fine blooms in season, adding still more to their desirability.

Our Vines are strong, well-rooted plants, grown with utmost care, so that homes of Ferris customers may have the finest sort of finish.

(If Vines are desired by parcel post, add 5c for one, 10c for 5, or 15c for 10 plants, to cover packing and postage).

**BOSTON IVY** (*Ampelopsis Veitchi*). Dainty, lovely vine with small overlapping leaves, forming a dense sheet of deep green, turning in the fall to bright scarlet. The Boston Ivy clings tightly to any surface, rough or smooth, brick, cement or wood. It is hardy, but prefers cool places, so gives best results at the north or east exposure. 35c each; 10 for \$2.50.

**ENGELMANN'S IVY** (*Ampelopsis Engelmanni*). Handsome, five-leaved Ivy that grows with unusual speed, forms a dense covering, and is hardy anywhere. It grows in sunshine or shade, withstands heat and drought, and readily climbs rough walls, fences, pergolas, etc. Scarlet colorings in the fall. 25c each; 10 for \$2.00.

**CHINESE WISTERIA.** We offer you grafted plants that are guaranteed to bloom. Long, pendulous clusters of

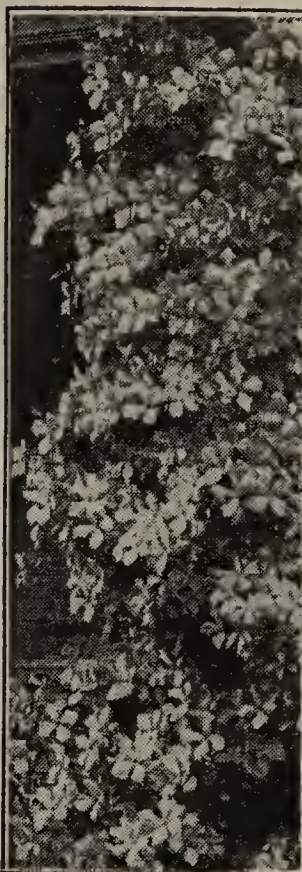

Wisteria.

pet-shaped, scarlet flowers in July and August have made this a very popular vine. Hardy, vigorous grower, and a fine climber; excellent for porches and trellises. 25c each; 10 for \$2.00.

**BITTERSWEET.** The favorite native vine; with bright, glossy foliage, bearing sprays of bright orange berries in the fall that are so popular for winter bouquets. Use three or more in a group to secure good fruiting. 40c each; 3 for \$1.05; 10 for \$3.00.

**MATRIMONY VINE.** Bushy, rapid growing vine, especially desirable for covering unsightly banks. Purplish flowers followed by crimson berries. Very hardy. 25c each; 10 for \$2.00.

**DUTCHMAN'S PIPE.** (Grafted). Easily recognized by its immense heart-shaped leaves, sometimes 12 inches across, supplying the densest kind of shade. Rapid grower, hardy, and does well in sun or shade. Curious, pipe-shaped, yellowish brown flowers. 45c each; 10 for \$4.00.

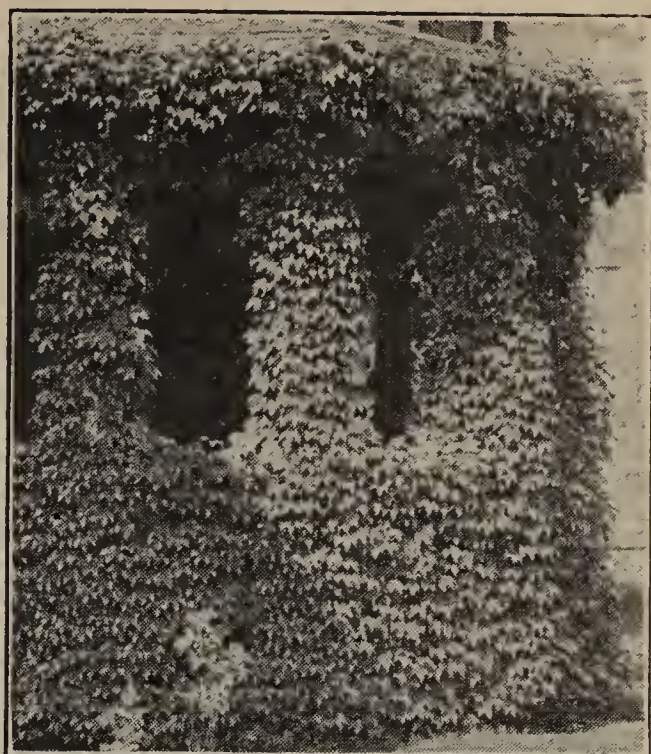

Clematis Jackmani.

ful, lovely plant at all times. Very rapid grower. 50c each; 10 for \$4.00.

**SILVER LACE VINE** (*Polygonum Auberti*). A beautiful, quick growing vine, with rich, glossy green foliage, and a mass of feathery white bloom in late summer and fall. Ideal for the porch or trellis. 55c each; 10 for \$4.50.

**HONEYSUCKLE, HALLIANA** (Hall's Japan). Fine, old-fashioned vine that is splendid for fences, trellises, covering banks, and also a good ground cover. Delightful flowers of pure white change to yellowish cream and are very fragrant. Will do well in shade. 25c each; 10 for \$2.00.

**HONEYSUCKLE, SCARLET TRUMPET.** Beautiful clusters of large, trum-

Boston Ivy.

## Clematis

Of all the vines for either shade or decoration, none can compare with the handsome Clematis.

**PLANTING DIRECTIONS.** Plant the Clematis in rich clay soil, mounded so that the water will not stand about the plant. It is important to see that the crown is three inches below the surface of the soil, cutting the top back to the crown. Water heavily before and during bloom. Cut worms may be avoided by wood ashes or a tin can with bottom cut out forced down over the root.

**MME. EDOUARD ANDRE.** Large beautiful flowers of velvety red. 80c each; 10 for \$7.00.

**HENRYI.** Large sized blossoms, creamy white in color. 80c each; 10 for \$7.00.

**JACKMANI.** The favorite everywhere. Immense flowers of a rich violet-purple, in bloom the summer through. 75c each; 10 for \$6.50.

**PANICULATA.** Luxuriant grower, with fine foliage, and an abundance of small, white, fragrant flowers in late summer and fall. 25c each; 10 for \$2.00.

Silver Lace Vine.

# Ferris' Hedges • Beautiful Living Fences

Our Stocky, Well Rooted Plants are Ideal for Quick and Permanent Hedges. Our Prices are Low so That Everybody Can Put Out That Longed-for Hedge This Year.

With the hedge comes the delicate touch of privacy that stamps a home as really your very own; it borders the picture and frames it artistically, without shutting off the lovely views. Bounding the lot lines and along the driveway or walk you will want a low hedge of Barberry or Privet, or if you live in the far north it would be safest to plant Buckthorn and Caragana.

To make your outdoor living room a delightfully secluded spot, enclose it with our fine Tartarian Honey-suckle, screening any unsightly views with these Honey-suckles or other tall, broad growing plants such as the Lilacs, Golden Elder and Spirea Van Houttei. Then, if you are drawn to an evergreen hedge, you should use the American Arbor-Vitae or one of the other easily trimmed, easily shaped varieties we are offering.

## Amoor River North Privet

(*Ligustrum amurense*)

The hardiest Russian Privet of them all, and the only Privet to use for hedge plantings in the North. The graceful upright bush is densely covered with lustrous, light green leaves that remain on the plant until late in the season. When properly sheared will give

Amoor River North Privet.

a very formal effect. To get a bushy, compact hedge, the plants should be set several inches deeper than they were in the nursery, and given a severe trimming at once, cutting them back one-third to one-half. Trim your hedge at least once a year in May or early June, squaring off the sides as well as the top. Privet plants should be set 12 inches apart in the hedge.

## Thunberg's Japanese Barberry

A beautiful, rounded, compact plant full of sharp thorns, and densely covered with small, bright green leaves that turn to brilliant crimson in autumn. Scarlet berries that cover the branches in the fall last long into the winter, making it an attractive plant at all seasons. Hardy everywhere, and will grow in partial shade. Wonderful for hedges and ornamental groups. Plant 18 inches apart in the hedge row, and may or may not be trimmed, as desired. The Japanese Barberry is absolutely free of rust, and can be planted without question in any state.

Buckthorn Hedge.

Dear Sir:

Linesville, Pa.

I wish to take this opportunity to compliment you on your excellent nursery stock. I have never lost a shrub or tree that I have purchased from your nursery, and I am very glad to recommend you to my friends. When you find a good nursery with reasonable prices, you want to pass the news along, and very shortly you will have another order from me.

MRS. H. A. MINNIGH.

Thunberg's Barberry Hedge.

Tartarian Honeysuckle Hedge.

## Ferris' Shrubs for Screen or Background Hedges

**SPIREA VAN HOUTTEI.** Beautiful in or out of bloom, and the medium tall, broad, compact screen it makes is protective as well as ornamental. It is always hardy, growing anywhere, and will do well in partial shade. Even when trimmed and kept low, it is a splendid hedge, dense to the ground. For complete description, see page 62. Plant 30 inches apart for screen hedges.

|                                  | 25     | 100    |
|----------------------------------|--------|--------|

| 2-2½ ft. transplants ..          | 2.50   | 7.50   |
| 3-3½ ft. heavy transplants ..... | 4.00   | 12.00  |

**GOLDEN ELDER.** The golden foliage of this hardy shrub makes a wonderful background, and its bushy, vigorous growth makes the most effective sort of a screen. Plant in a sunny place, setting the plants 2 or 3 feet apart. Complete description is given on page 56.

|                           | 25     | 100    |
|---------------------------|--------|--------|
| 2-3 ft. transplants ..... | \$2.50 | \$8.00 |

**TARTARIAN HONEYSUCKLE.** The finest of all shrubs for the tall screen. It grows rapidly, has thick foliage, small artistic flowers and bright colored berries. Can be trimmed to form a medium hedge, or will grow 10 to 15 feet high when allowed to develop naturally. See complete description on page 58. Plant 2 or 2½ feet apart in the hedge row.

|                           | 25     | 100    |
|---------------------------|--------|--------|
| 12-18 in. average .....   | \$2.50 | \$8.00 |
| 2-3 ft. transplants ..... | 5.00   | 17.50  |

Arbor-Vitae Hedge.

## Caragana - Siberian Pea Tree

The hedge plant for the North, as it is extremely hardy, doing well up in North Dakota and the northern section of Minnesota. It is a strong, thrifty grower, and can be trimmed back as much or as little as desired. The numerous, twiggy branches are set off by showy lenticels. Late in the spring, the plant is covered with small, bright yellow blossoms. For severe climates, it is a supreme hedge plant.

|                                | Each   | 10     | 25     | 100    |
|--------------------------------|--------|--------|--------|--------|
| 12-18 in., light hedging ..... | \$0.05 | \$0.40 | \$0.70 | \$1.50 |
| 18-24 in., light hedging ..... | .10    | .70    | 1.00   | 2.25   |
| 2-3 ft. transplants .....      | .20    | 1.50   | 3.00   | 8.00   |

## Buckthorn - Rhamnus

Another very hardy hedge plant that we especially recommend for the North. When untrimmed, it will make an attractive thicket-like background, and it is also easily trimmed and kept low for more formal planting. Strong, thrifty grower, with dull, gray-green foliage, and small white flowers in the spring followed by picturesque black fruits in the fall. Scattered thorns make it still more protective. Plant deeply, cutting the tops back to within 3 or 4 inches of the ground to induce a bushy, symmetrical growth. A splendid hedge plant for poor, thin soil, and very popular in northern regions.

|                                | Each   | 10     | 25     | 100    |
|--------------------------------|--------|--------|--------|--------|
| 12-18 in., light hedging ..... | \$0.10 | \$0.75 | \$1.50 | \$4.00 |
| 18-24 in. transplants .....    | .20    | 1.50   | 3.00   | 8.00   |

A Hedge of Spirea Van Houttei.

## Selected Evergreen Hedges

**AMERICAN ARBOR-VITAE.** See full description of this very fine hedge evergreen on page 21. Plant 18 inches apart in the hedge row; trim once or twice annually.

|                            | 25     | *100    |
|----------------------------|--------|---------|
| 1 ft. average, XX .....    | \$5.50 | \$20.00 |
| 15-24 in. heavy, XXX ..... | 9.00   | 35.00   |

**NORWAY SPRUCE.** The campus of the University of Ohio boasts one of the most beautiful evergreen hedges in the world, and it is of Norway Spruce—a close, compact hedge trimmed 6 feet high. Page 12 has complete description of this splendid hedge evergreen. Set 18 or 24 inches apart in a hedge row.

|                                  | 25     | 100     |
|----------------------------------|--------|---------|
| 18-24 in., XX .....              | \$4.50 | \$14.00 |
| 2-3 ft., extra heavy, XXXX ..... | 7.50   | 28.50   |

**WHITE SPRUCE.** Another excellent evergreen for hedge planting, with its close compact growth, and its susceptibility to trimming. This hardy, beautiful evergreen is described on page 13. Plant 18 or 24 inches apart in a hedge.

|                            | 25     | 100     |
|----------------------------|--------|---------|
| 18-24 in., XX .....        | \$5.00 | \$16.00 |
| 2-3 ft., extra heavy ..... | 8.50   | 30.00   |

**DOUGLAS FIR.** Shearing makes this wonderful evergreen even more compact, and it is being used more and more for trimmed hedges. Set them 18 or 24 inches apart in the hedge row. See full description on page 19.

|                            | 25     | 100    |
|----------------------------|--------|--------|
| 8-12 in., X .....          | \$2.25 | \$8.00 |
| 18-24 in. heavy, XXX ..... | 9.00   | 32.00  |

### OUR AIM IS TO PLEASE EVERY CUSTOMER

Dear Mr. Ferris:  
We want you to know that we have had exceptionally fine success with the stock we ordered this past spring. The Peonies all lived and two even blossomed this year; the Red-Leaf Barberries are splendid, as also are the Iris, Spiraea and the Blue Spruce. We are well pleased with all of them.  
MR. and MRS. C. E. McMILLAN.

Ionina, Mich., 935 W. Main St.  
September 3, 1933.

# Ferris' Selected HARDY GRAPES

Strong, Well-Rooted Plants—the Finest Fruiting Varieties—  
at New Bargain Prices

Grapes are a favorite fruit the world over, and have been since the beginning of time. There is in the Grape the good savory qualities and rich flavor that make it so popular for eating as fresh fruit, and the uses to which it can be put in canning and jelly making are almost without number.

**Care and Pruning.** Grapes should be planted deeply, from 6 to 8 feet apart, south slope where possible. Annual and careful pruning is essential to the production of good Grapes. This yearly pruning should be done from November to March while the vines are entirely dormant.

In trimming Grapes, perhaps the best method to follow is to keep them trained to two wires run between posts, the first wires about 2½ to 3 feet from the ground, the second 5 to 6 feet from the ground. The main shoot or stock should run up to the top wire, with two branches growing out from the central stock on both wires, one in each direction.

## PARCEL POST RATES ON ALL GRAPES

Add 5c each, 10c for 6, 15c for 10, 20c for 15, or 40c for 50 plants. More than 50 plants should go by express.

## Black Grapes

**CONCORD.** The standard Grape everywhere. Large blue-black berries of sweet, fine flavor, and large, compact bunch. Very hardy and productive. 2-yr. plants, 15c each; 10 for \$1.00; 25 for \$2.00; 100 for \$5.50; 200 or more at \$5.00 per 100.

**MOORE'S EARLY.** Best early Grape, ripening about two weeks earlier than the Concord, and a grand commercial variety. Berry is large, blue-black, splendid quality. Hardy, good grower and a heavy producer. 2-yr. plants, 20c each; 10 for \$1.50; 25 for \$2.50; 100 for \$8.00; 200 or more at \$7.00 per 100.

**WORDEN.** For home use, there is no finer Grape than the Worden. Larger in size, sweeter and of a finer flavor than the Concord, but does not keep nor ship as well.

Hardy and productive, the fruit ripening a week before the Concord. 2-yr. plants, 20c each; 10 for \$1.50; 25 for \$2.50; 100 for \$8.00; 200 or more at \$7.00 per 100.

**BETA.** Hardest of all Grapes, doing well even in North Dakota. Rather large sized bunches, berries medium size, blue-black in color, very juicy, having the sprightly flavor of the wild Grape. Unexcelled for jellies and wines; the vine a handsome arbor covering. 2-yr. plants, 20c each; 10 for \$1.50; 25 for \$2.50; 100 for \$8.00; 200 or more at \$7.00 per 100.

## Red Grapes

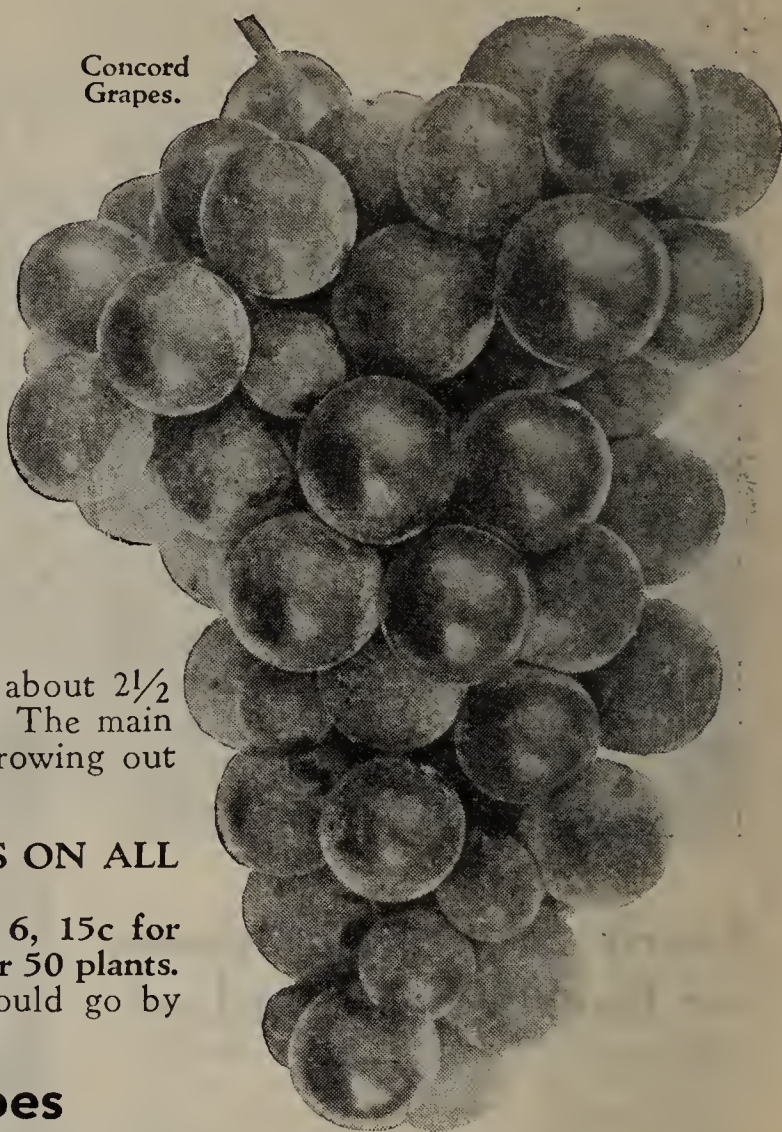

**AGAWAM.** A delicious Grape, large, round, light red in color, and of sweet, rich flavor. Excellent table and wine Grape. Ripens soon after Concord. 2-yr. plants, 20c each; 10 for \$1.50; 25 for \$2.50; 100 for \$8.00; 200 or more at \$7.00 per 100.

**THE NEW CACO GRAPE.** A beautiful and superior Red Grape that should be in every home planting. Large bunches filled with big juicy red berries of the most delicious, sweet flavor, ripening two weeks earlier than Concord. It is very hardy, rapid vigorous grower, and bears young and heavily. It has been awarded the very highest medals everywhere, and we recommend it highly. 2-yr. plants, 35c each; 10 for \$3.00.

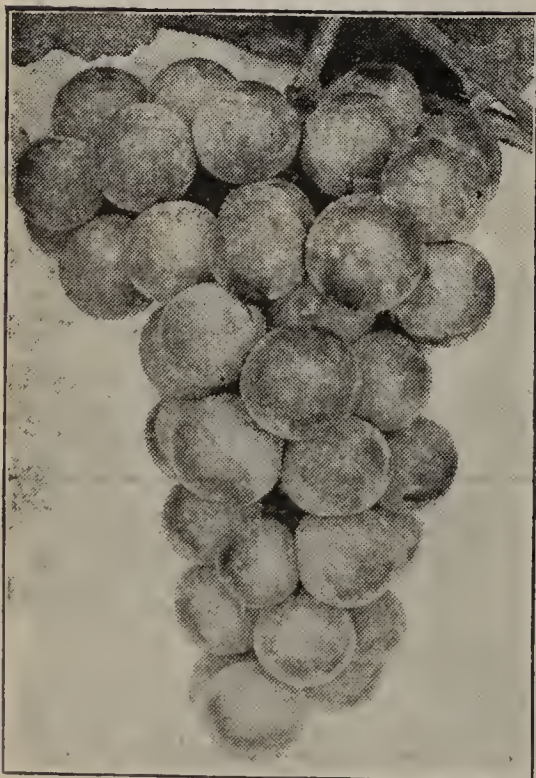

## White Grapes

**NIAGARA.** Hardest and best White Grape grown. Large sized fruit of sweet, delightful flavor; very popular for table use and wines. 2-yr. plants, 20c each; 10 for \$1.50; 25 for \$2.50; 100 for \$8.00; 200 or more at \$7.00 per 100.

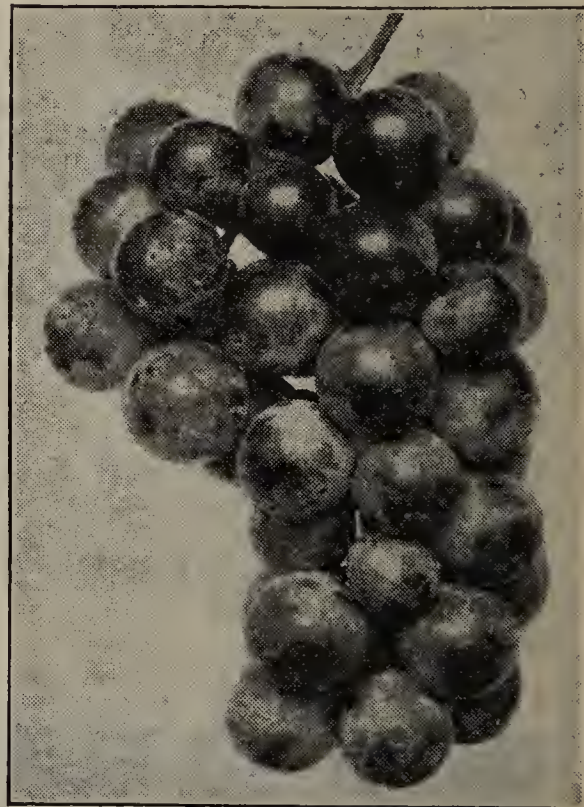

Concord  
Grapes.

Moore's Early Grapes.

Niagara Grapes.

Agawam Grapes.

## Ferris' Extra Quality Strawberries

Take Advantage of These New Bargain Prices—Have Strawberries the Season Through—and Shortcakes, as Many as You Want!

How easy it is to grow Strawberries, especially when you use our hardy, northern grown, extra well rooted plants. No matter how small the property, there is always room for a bed of Ferris' Strawberries; there are large commercial plantings of our plants giving remarkable results in every section of the country. By planting some of each variety, you will have Strawberries—loads of them—from early summer until late in the fall—fine, large, luscious berries for shortcakes, pies, canning, and every concoction you can think of. There is nothing like fresh Strawberries to please the whole family.

### How to Plant

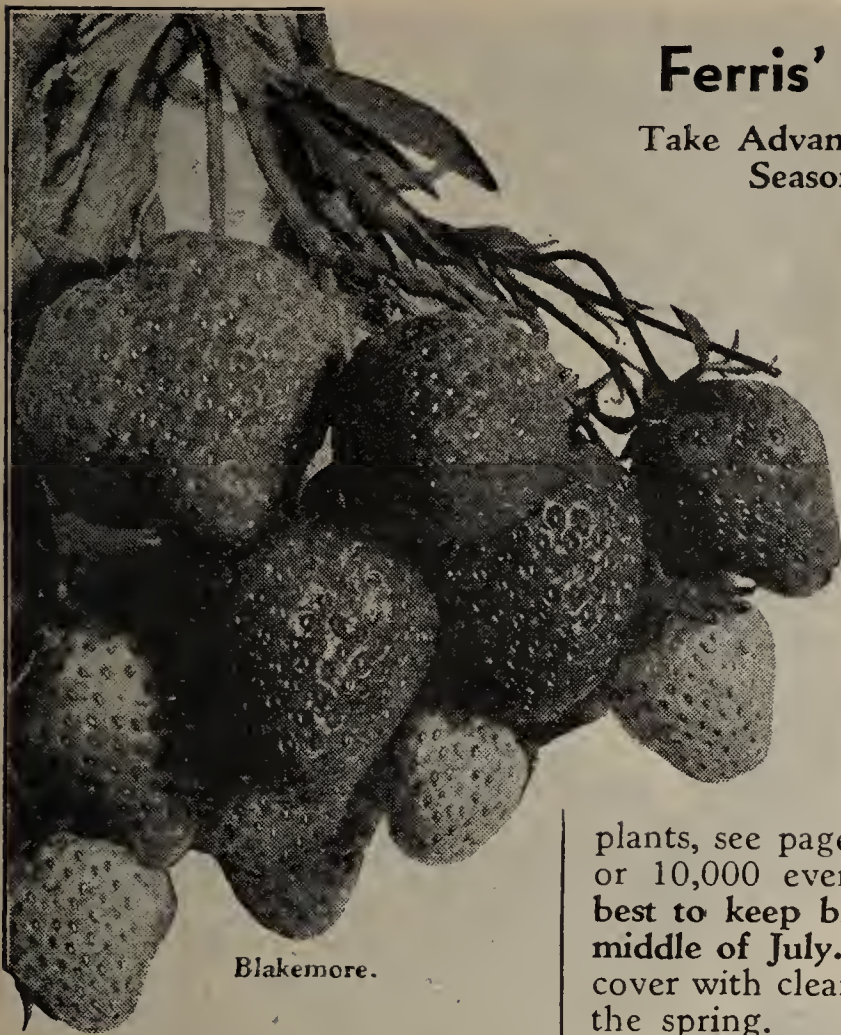

Plant Strawberries in good, rich, well drained soil; the crown of the plant when set should be at the surface of the ground or a trifle below it. Tamp the earth firmly around the roots, leaving a thin layer of loose soil at the top of the ground to prevent baking. For distance apart to set the

plants, see page 11. It will take about 8,000 spring-bearing plants to the acre, or 10,000 everbearing plants. Keep ground clean and well cultivated. It is best to keep blossoms and runners on the everbearing pinched off until the middle of July. In late fall, when the ground is frozen down an inch or two, cover with clean straw, leaves, or corn stalks, and do not uncover too early in the spring.

## The Finest Spring-Bearing Strawberries

**DUNLAP.** There is no known variety that is so universally popular nor one that is so extensively grown as the Senator Dunlap. Very large, rich red berries and of remarkably fine flavor. It is a heavy producer, a splendid keeper and shipper, and does well everywhere. 25 for 30c; 50 for 50c; 100 for 75c; 500 for \$3.00; 1,000 for \$5.00. After May 5th, add 25% to these prices. (If desired by parcel post, add 10c per 100, or 8c for smaller quantities).

**BLAKEMORE.** The splendid, new early Strawberry, surpassing all others for market and canning, and bringing the highest prices. Originated by the U. S. Department of Agriculture, it has been thoroughly tested and tried out in all sections, doing well everywhere, even withstanding drought better than other sorts. A heavy bearer, producing beautiful large berries of a bright red clear to the center, and because of its rich color and good keeping qualities, it is the favorite on the market today of all the early varieties. It has a wonderful flavor, hard to beat for fresh fruit, while for canning and preserving it cannot be excelled. 25 for 40c; 50 for 60c; 100 for 90c; 500 for \$3.50. After May 5th, add 25% to these prices. (If desired by parcel post, add 10c per 100 or 8c for smaller quantities).

Blakemore.

## Our Giant Mastodon Everbearing Strawberry

Our select strain of the Giant Mastodon is the king of all Everbearers—immense in size, full of sweet, rich flavor, a beautiful bright red color, and the heaviest producer of them all.

And imagine having these large, luscious berries in three months' time! Set out our fine, thrifty plants, give them the care they need, and in 90 days' time you will be well repaid by a magnificent crop of huge, delicious berries—not just for a few days, but all during the late summer and fall months, often into November, until the frosts stop them. It's the size and vigor of Ferris' Mastodon plants that enable them to produce these large, juicy berries during hot weather when Everbearers are, as a rule, producing few or very small berries.

We only wish we had the time and space to print all of the actual experiences our customers had with the Mastodon last season—glowing reports that would prove to you that without exception no home, or commercial planting is complete without it. And, North, South, East and West it is the same—everywhere in America, the Giant Mastodon is the leading Everbearer.

Ferris' New Bargain Prices on No. 1, Genuine Mastodon plants: 25 for 60c; 50 for \$1.00; 100 for \$1.65; 500 for \$7.00; 1000 for \$12.00. After May 5th, add 25% to these prices. (If desired by parcel post, add 10c per 100 or 8c for smaller quantities).

**ORDER YOUR STRAWBERRY PLANTS** before May 1st, for early spring planting is the safest and best. After May 5th the cost of handling strawberry plants is almost doubled, and we must get 25% more on all strawberries sold after that date. We advise express shipment of 500 or more plants.

Mastodon.

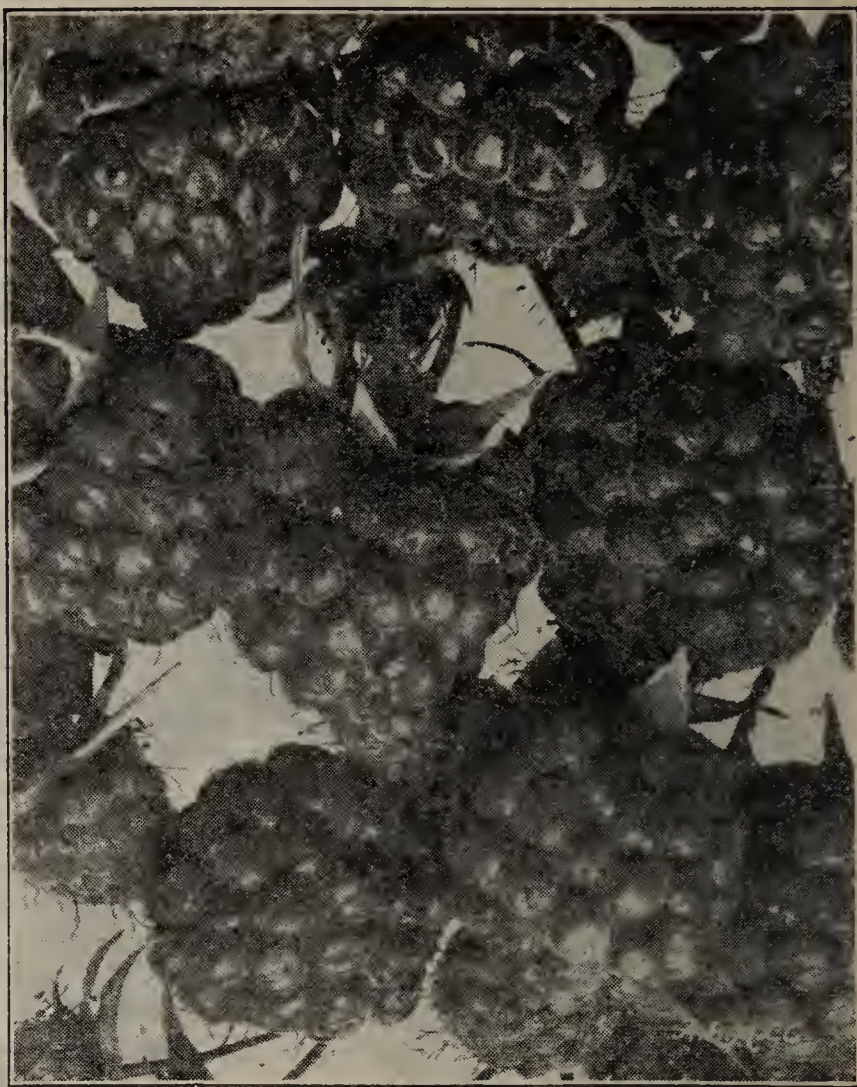

## Our Popular Raspberries

### Summer-time's Finest Fruits

### Buy Now at These Extra Low Prices

If you are looking for quick profits and enjoyable work for your spare time, by all means put out a patch of Red and Black Raspberries—fruit that everyone agrees to be delicious. The growing cost is slight, they are hardy, very easily produced, will grow almost anywhere, and there are never more than half enough Raspberries to supply the demand so market prices run exceedingly high. Two or three rows across the end of your garden, or between the rows in your orchard, will give you more than your family can consume—the surplus will net you a nice profit.

Plant Raspberries shallow, in any good growing soil, and for distance apart to plant, see page 11. Use shallow cultivation, then early in June mulch heavily with straw. The wood which fruited this year should be cut out after the last picking and burned. Trim back the ends of the canes about one-third early in the spring of each year.

Latham Raspberries.

## Red Raspberries

**LATHAM.** The greatest Red Raspberry in all the world!

Big, handsome berries of clear red color, and full of rich quality and flavor that simply cannot be equalled—hardy anywhere, even in the far north—and the heaviest producer of all Raspberries. Is it any wonder there is such a demand for Latham, not only for the home but for the commercial planting. As a profit-getter, it is head and shoulders above all others. The fruit is firm, keeps well and ships well. Ferris' Latham Raspberries are a beautiful, thrifty lot, guaranteed to be entirely free of mosaic; they have been rigidly inspected three or four times by experts who pronounced them supremely healthy and mosaic free. **Our new, extra-low prices:**

Select No. 1 plants, 12 for 60c; 25 for 90c; 100 for \$3.00; 500 for \$12.00; 1000 for \$22.00. (If desired by parcel post, add 10c for 12; 15c for 25, or 25c per 100 for packing and postage).

**NEW CHIEF.** An offspring of the famous Latham, having many of the fine qualities of its parent, and some even to a greater degree. The Chief is extremely hardy, a heavy cropper, and of unusual health and vigor; the fruit is a trifle smaller than that of the Latham, of a bright red color, and of superior flavor. It ripens ten days earlier than Latham, bridging the gap between Strawberries and Raspberries, thus bringing an extra good market price. Select, No. 1 plants, 12 for 75c; 25 for \$1.25; 100 for \$3.30; 1000 for \$25.00. (If desired by parcel post, add 10c for 12, 15c for 25, or 25c per 100 for packing and postage).

New Chief Raspberries.

## Black Raspberries

**There is Nothing in the World So Delicious and Wholesome as a Juicy Black Raspberry Pie**

**CUMBERLAND.** The largest Black Raspberry known, and our improved strain is the very best you can get in Blackcaps. The immense berries are firm, and of the finest quality; they bring the highest prices of all Black Raspberries on the market. Plants are hardy and produce enormous crops. For home or market use, the Cumberland cannot be equaled.

**KANSAS.** A seedling originated at Lawrence, Kansas. Berries very large, jet black, and of high quality. It stands the trying climate of Iowa. Early.

### OUR NEW LOWER PRICES ON OUR EXTRA CHOICE BLACKCAPS

**Black Raspberry Tips (1 yr.):** 12 for 60c; 25 for 90c; 100 for \$3.00; 500 for \$12.00. (If the tips are desired by parcel post, add 10c for 12, 20c for 25 or 40c for 100 to cover cost of packing and postage).

**Black Raspberry Transplants (2 yr.):** 12 for \$1.00; 25 for \$1.75; 100 for \$6.00. (If the transplants are desired by parcel post, add 15c to the 12 rate, 30c to the 25 rate, or 90c to the 100 rate, to cover packing and postage).

## Blackberries

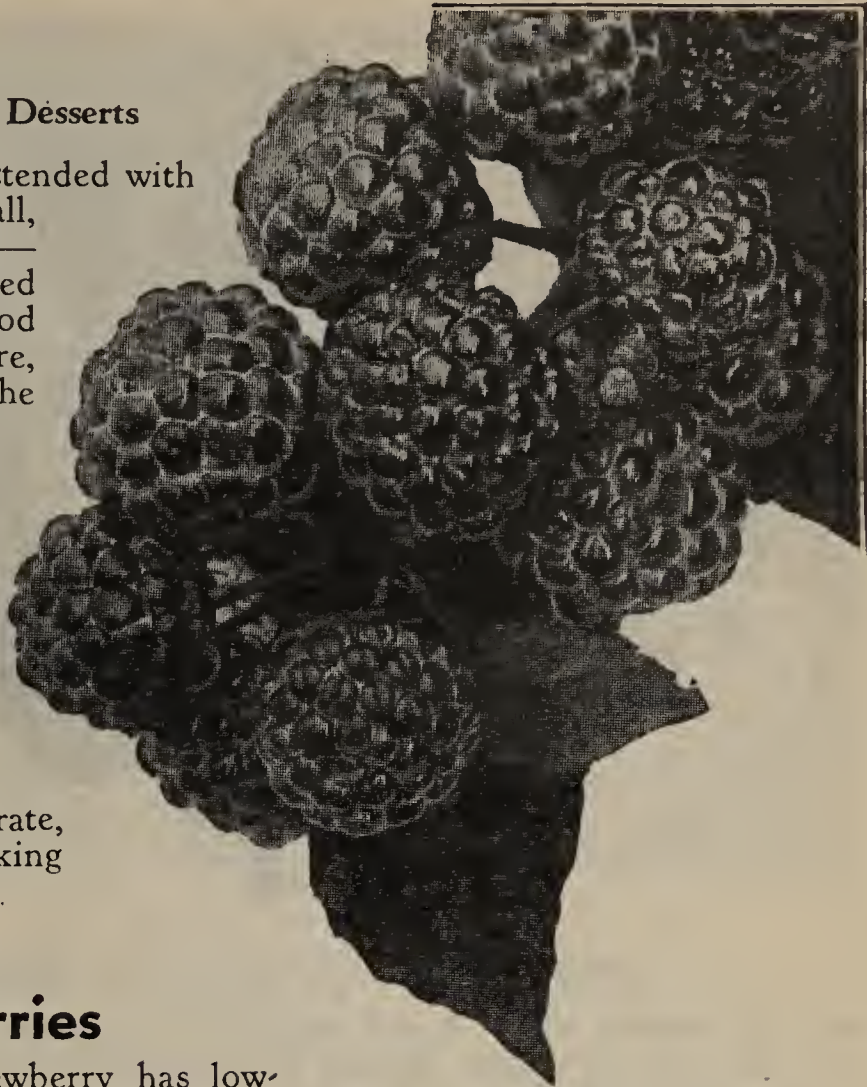

**Ferris' Selected Eldorado for the Finest Pies, Jams and Desserts**

The growing of this very delicious and healthful fruit is attended with so little trouble and expense that every garden, however small, should have at least 50 plants. For rich jams and jellies—pies—wine—the Blackberry is hard to beat. Plant in good, well drained soil, caring for them much as you would Raspberries. A good mulching under the bushes will help to conserve the moisture, and we advise pinching back the canes occasionally through the season.

**ELDORADO.** We consider this the finest of the Blackberries. Very hardy, berries jet black, sweet, and of very inviting flavor—few seeds. Heavy annual producer; good keepers, good shippers. For home use or marketing, it is the ideal Blackberry. 12 for 50c; 25 for \$1.00; 100 for \$3.50. (If desired by parcel post, add 10c to the 12 rate, 20c to the 25 rate, and 50c to the 100 rate, to cover cost of packing and postage.)

Eldorado Blackberry.

Cumberland Black Raspberry.

## Dewberries

**LUCRETIA.** The Dewberry has low-growing trailing canes, and produces great quantities of long, black berries; very sweet, and of delicious flavor. Ripens about 10 days earlier than Blackberries. Very hardy, though it requires a little winter protection here in the Middle West. 12 for 65c; 25 for \$1.00. (If desired by parcel post, add 10c for 12 plants, or 15c for 25 plants).

## Currants

**Every Garden Should Contain a Few Currant Plants**

They are so easy to grow, and rich, spicy currant jelly is hard to beat.

Postage rates on all Currants: Add 5c each, 10c for 12, or 15c for 25 plants.

**FAY'S PROLIFIC.** Leading market Currant — large, beautiful berries of superior flavor, and a big cropper. 15c each; 12 for \$1.50; 25 for \$2.50.

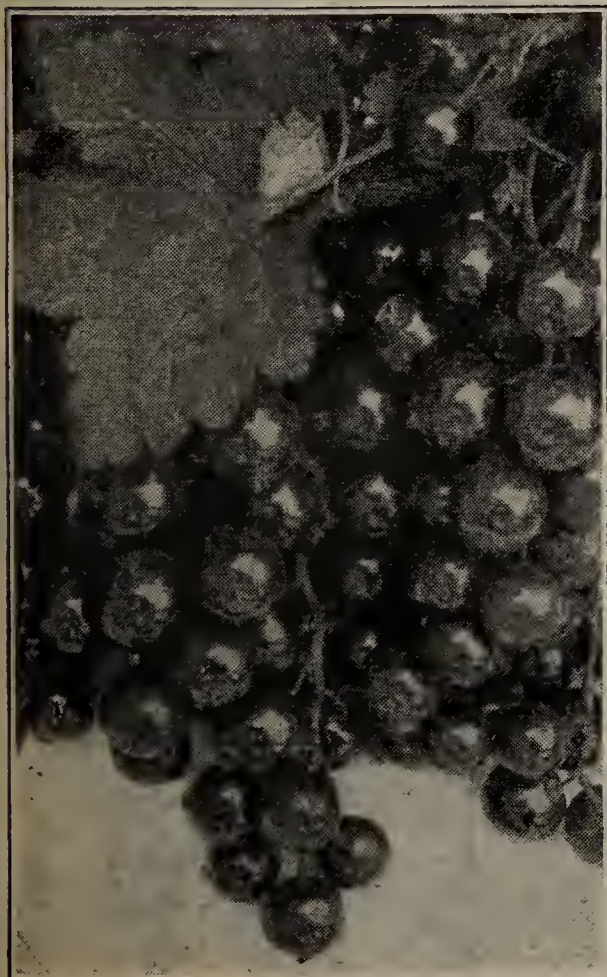

**LONDON MARKET.** Good for either home or market use. Fruit large, bright red, and of excellent flavor. 15c each; 12 for \$1.50; 25 for \$2.50.

**PERFECTION.** The largest and finest of all Red Currants. Plant a heavy producer and very hardy. Fruit of superb quality. 20c each; 12 for \$2.10; 25 for \$3.50.

**WHITE GRAPE CURRANT.** Beautiful clusters of white berries; sweet, rich flavor. Fine for table use. 25c each; 12 for \$2.10; 25 for \$3.50.

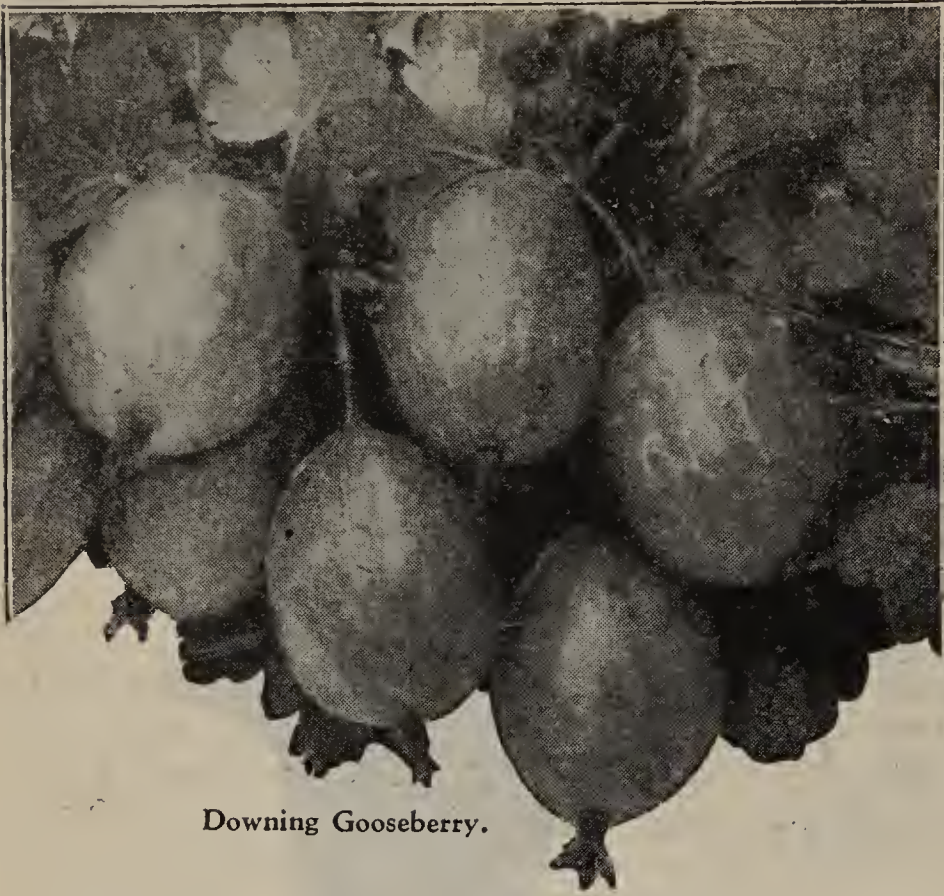

Lucretia Dewberry.

London Market Currant.

Downing Gooseberry.

## Gooseberries

There's Nothing Quite Like the Pies and Preserves from Ferris' Gooseberries

**HOUGHTON.** The old standby. Pale red, sweet and good; medium size, but very productive. 15c each; 10 for \$1.00; 25 for \$2.00.

**DOWNING.** Fruit very large, flesh whitish green, and excellent flavor. A favorite. 25c each; 10 for \$1.75; 25 for \$3.00.

(If Gooseberries are desired by parcel post, add 5c each, 10c for 10 plants, or 15c for 25, to cover packing and postage).

## Asparagus

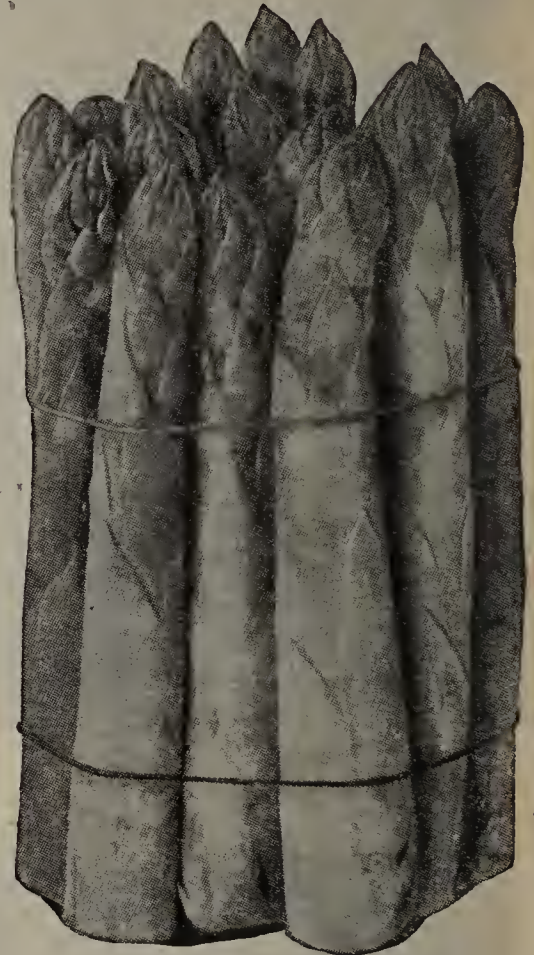

Delicious, Fresh Asparagus from Your Own Garden —Just Try It

A little space in the garden will grow all of the Asparagus you will need. Plant the roots in deep, rich

soil, the crowns about 4 inches below the surface. For best results, fertilize annually with well-rotted manure when through cutting in June. It is best not to cut Asparagus the first year.

**PALMETTO.** The earliest of all Asparagus and a good yielder. Shoots are large, green, tender, and fine flavored. 2-yr. roots, extra good, 25 for 35c; 100 for \$1.30; 1000 for \$10.00. (If desired by parcel post, add 15c for 25, 30c for 100 roots).

**WASHINGTON RUSTPROOF.** The very finest of all Asparagus. It is a pedigree strain, bred to resist rust. The shoots are thick and heavy, of a beautiful dark green color, the yield extremely heavy. Flavor unsurpassed. 2-yr. roots, No. 1, 25 for 40c; 100 for \$1.50; 1000 for \$12.00. (If desired by parcel post, add 10c for 25, or 20c for 100 roots).

Washington Asparagus.

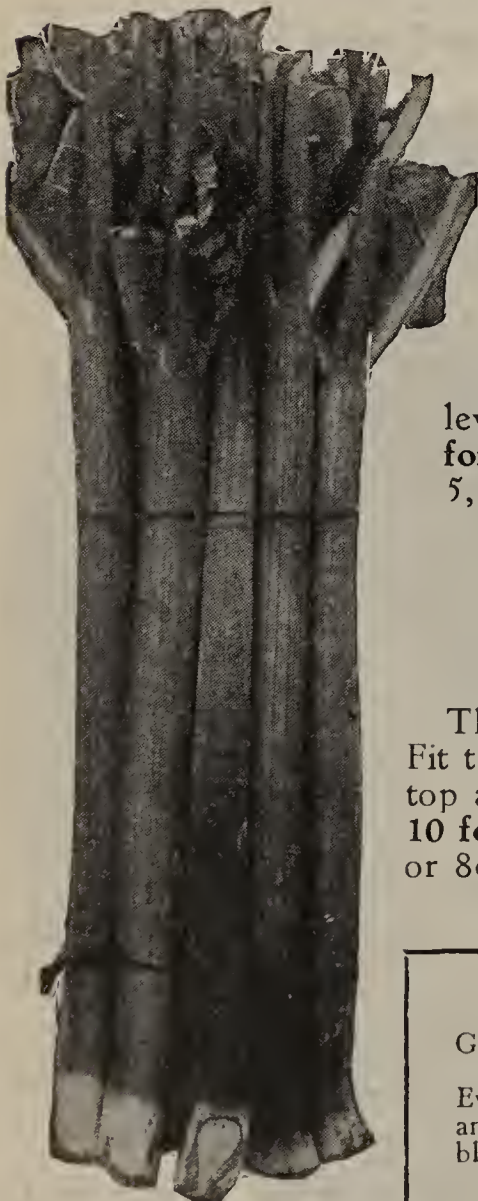

## Rhubarb

(Pieplant)

**LINNAEUS.** Early, very tender, and has a mild sub-acid flavor, not stringy or tough. The plant grows large; for pies and sauce, it is the housewife's favorite. Plant about 3 feet apart in good, rich soil, with the crowns 1 inch below level of the ground. 10c each; 5 for 40c; 10 for 75c; 100 for \$5.50. (If desired by parcel post, add 5c each, 10c for 5, 15c for 10, or 50c for 100).

## Horseradish

The nippy relish, that tastes so good in the springtime. Fit the soil as you would for strawberries, and plant with the top about 1 inch below the surface of the ground. 10c each; 10 for 90c. (If desired by parcel post, add 10c to the 10 rate, or 8c for smaller quantities).

Linnaeus Rhubarb.

Horseradish.

Gentlemen:

We had great success with the Raspberries, Blackberries and Evergreens from your nursery. They arrived in perfect condition and have done well. The Raspberry bushes had fruit as large as blackberries.

Park Ridge, N. J.

Sept. 13, 1933.

MRS. C. H. BLACKBURN.

## Use Ferris' Selected Apple Trees In Your Orchard or Back Yard

Extra Hardy—Splendid Roots and Tops—Quick to Bear—Guaranteed True to Name  
—And Our Prices Are Still Low

What wonderful profits orchardists have made from Ferris' Apple Trees, even in times of depression when farm products have brought little or nothing. The back lot planting of apple trees, with an abundance of fruit for the home, has helped to tide over many a hard time. This year Ferris' Apple trees are finer than ever—hardy, grown under the most expert conditions here in the north, grafted on whole root, with scions taken from bearing trees to eliminate any possible mistakes in varieties. Now is the time to buy.

### PLANTING DIRECTIONS

You will find the distance apart to plant Apple trees on page 11, and how to figure the number of trees to the acre. In setting your trees, follow the same transplanting directions that are given for evergreens (see pages 10 and 11), with the exception that fruit trees of any kind should never be mulched. Mice will make nests in the mulching and ruin your trees. The ideal place for small fruits, such as raspberries, is between the rows of Apple trees—they will then both get the shallow cultivation that means best success.

To produce healthy, well developed fruit, you should spray your trees at least three times a year, with Bordeaux Mixture, which can be secured at any drug store. First, they should be sprayed in the cluster bud stage, when the buds show pink but have not opened up; second, when 95 per cent of the petals have fallen; third, three weeks after the second spray. You will find the Apple tree easy of culture; it will do well on almost any well drained soil.

### Ferris' Low Prices On all Apple and Crab Trees

Except Golden Winesap, Ferris' Bright Red Delicious and Ferris' Yellow Delicious (See page 75 for prices on these three Apples).

4 to 6 ft. average height, good, select trees, with 3-year root and 2-year top. A beautiful lot. Each, 50c; 10, \$4.00; 25, \$8.50.

(The 4 to 6 ft. Apple trees should always be shipped by express. They cannot be shipped by parcel post unless given a severe pruning. Send 10c per tree extra for trimming, packing and postage, if you must have these No. 1 Apple trees by parcel post).

Duchess.

(For prices on these Apples, see page 73).

## Summer Apples

**DUCHESS OF OLDENBURG.** The head of the list for summer cooking apples. Fruit is nearly round, large, and beautifully streaked red and yellow. Flesh tender, juicy and pleasant. Bears young and abundantly.

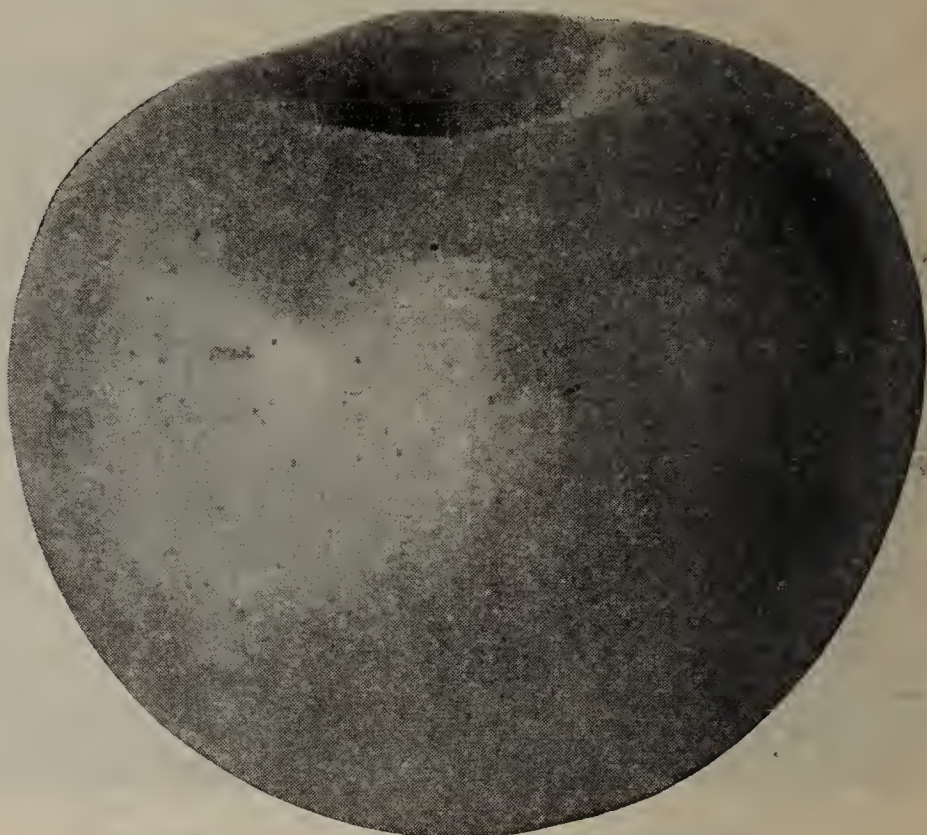

**YELLOW TRANSPARENT.** There is no summer yellow apple to equal it. Color a rich, transparent yellow, with a warm faint blush on the sunny side; flesh is melting, juicy, sub-acid; excellent quality. Tree very hardy, bearing heavy crops even when young.

**EARLY HARVEST.** Medium size early apple of clear, waxy yellow; juicy and fine flavor.

**RED ASTRACHAN.** The best early red apple for the northern climate. Good size fruit, dark red, fine quality. A young and heavy bearer.

**RED JUNE.** Medium size, skin red, flesh white, tender, juicy, sub-acid. An old-time sort always in demand.

**ANOKA.** This is the "Wonder Apple," that bears fruit on 1-yr. wood. That is, the second year after you plant it you will get fruit, and fine large apples of good flavor. In appearance and size it is much like the Duchess. Just imagine—the second year after you plant the tree you will be having fresh apple pie from your Anokas in July.

Yellow Transparent.

Wealthy.

## Fall and Early Winter Apples

**WEALTHY.** Very hardy, grows and bears well in the north as well as the south. Comes into bearing earlier than most other apples, often fruiting the second year after planting. Large size fruit, with vivid stripes of red; flesh white, fine, juicy, and of wonderful quality. Good for cooking and eating.

**WOLF RIVER.** Extremely large fruit, splashed and streaked with red; flesh white and coarse, juicy, mild, sub-acid.

**FAMEUSE (Snow).** Medium size apples with deep crimson stripes. The pure white flesh contrasts beautifully with its deep, rich color; juicy and of highest quality. November.

**MAIDEN BLUSH.** Large apple, beautifully blushed; flesh white, tender, and of excellent quality. Fine for eating, and a splendid cooker. August to October.

## Late Winter Apples

**DELICIOUS.** "Delicious" in every sense of the word, it has held the world record as a Perfect Apple. Fruit is large, rather elongated, and easily distinguished by the five little knobs on the blossom end; color a rich crimson, and the quality is superb. Good keeper and shipper—it commands the highest prices on the market of any apple. Our trees are genuine Delicious, descended from the original tree stock.

### Late Winter Apples—Continued.

**GRIMES GOLDEN.** It's hard to beat this beautiful, golden yellow apple, with its rich, spicy flavor. Fruit is quite large; flesh yellow, firm, very fine grained, juicy, sub-acid. It bears young and heavily; it is one of the most popular market sorts.

**JONATHAN.** One of the best sellers ever produced. Fruit has an extremely attractive, bright red skin—quality of the finest—flavor of the best. Flesh is tender and very crisp, very juicy. Hardy tree, bearing young and abundantly. It's a great apple and a favorite everywhere.

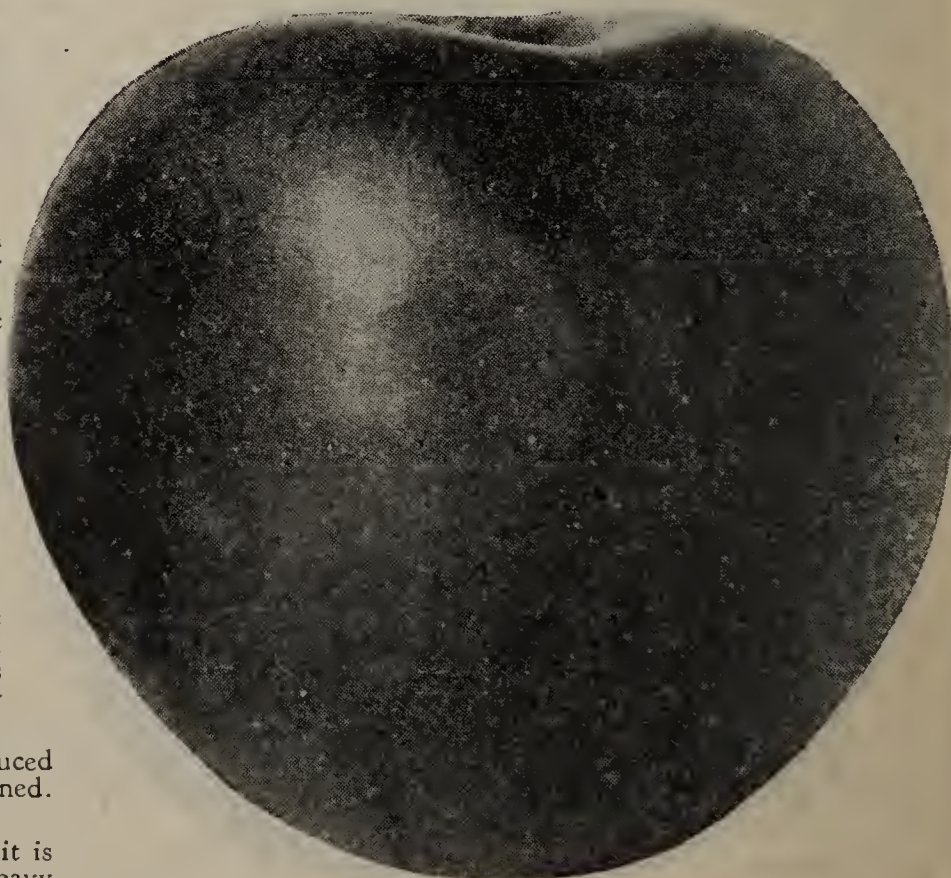

**McINTOSH.** Large, deep crimson and beautiful; flavor of the finest. Hardy, vigorous tree, and a regular bearer. Flesh pure white, crisp and very tender. Should be in every home orchard, and is a fine market sort.

**STAYMAN'S WINESAP.** Large, dark red apple with rather indistinct striping; flesh tender, juicy, and rich sub-acid flavor. A great favorite for eating and cooking, and a wonderful market fruit.

**SALOME.** One of the finest winter apples for the North. Good size fruit of dark, rich red color, and of extra good quality. When stored, it will keep until May—in fact, its crisp, juicy flesh is much improved after it has been stored for a while. Very hardy and fine.

**NORTHWESTERN GREENING.** The best Greening ever produced and the hardiest. Fruit large, greenish yellow, firm and fine grained. Early and productive bearer. Good keeper.

**TOLMAN SWEET.** The universal favorite of the sweet apples. Fruit is large, creamy yellow, and somewhat blushed; flavor very fine. Heavy producer, fruit a good keeper.

Winesap.

(For prices on these Apples and Crabs, see page 73).

**HARALSON.** A new apple that many consider to be the finest of all winter varieties for the North. Very hardy, fruit of good size, attractive red color, while flesh is fine grained, tender and juicy, quality of the best. Starts bearing when very young; it is a fine keeper in storage.

**GANO (Black Ben Davis).** Large, bright red apple, with polished skin. An early and prolific bearer; fruit keeps long and is splendid for cooking.

**ROMAN STEM.** Medium size fruit of greenish yellow color; flesh tender and juicy, with rich, pearlike flavor. Fine for eating or cooking. An excellent keeper.

**ROME BEAUTY.** A large, beautiful apple of light yellow color shaded red; flesh tender, juicy, and of good quality. Very popular market apple.

**WILLOW TWIG.** A late keeper that lasts until the fresh apples are here again. Large greenish yellow fruit, faintly striped with red. Splendid for cooking.

## Crab Apples

**HYSLOP.** Large, deep crimson crab of fine flavor. Very popular on the market.

**DOLGO.** Called the perfect crab. It is extremely hardy, growing and bearing large crops of delicious crabs in any part of the United States. As an ornamental tree on the lawn, no fruit tree can equal the Dolgo Crab, and especially is it a thing of beauty when loaded with the large white flowers in spring, then the great clusters of bright red fruit in the summer. Fruit is oval in shape, and a deep solid red; it makes the most delicious kind of jelly, and always jells perfectly even after the fruit is dead ripe.

**TRANSCENDENT.** Very hardy, bearing young and abundantly. Good size fruit of rich yellow shaded with red. Firm, crisp flesh, very juicy, and tart flavor. Fine for jelly and pickles.

Jonathan.

**WHITNEY.** The finest and most popular of the Crabs. Large size fruit, greenish yellow splashed with carmine, and unusually fine flavor. Splendid for pickles and preserves.

## If You Want the Finest In Winter Apples— Here They Are

### Bright Red Delicious

One of the newer Apples that has been very popular with Ferris customers. It has all the fine qualities of the common Delicious, then in addition the fruit is completely covered with a deep rich red color, and is conceded to be the most beautiful of all Apples. The flavor is delicious, flesh crisp and juicy, the fruit keeping well until spring. Tree is a heavy bearer. You will certainly want some of our genuine Bright Red Delicious in your home planting.

### Yellow Delicious

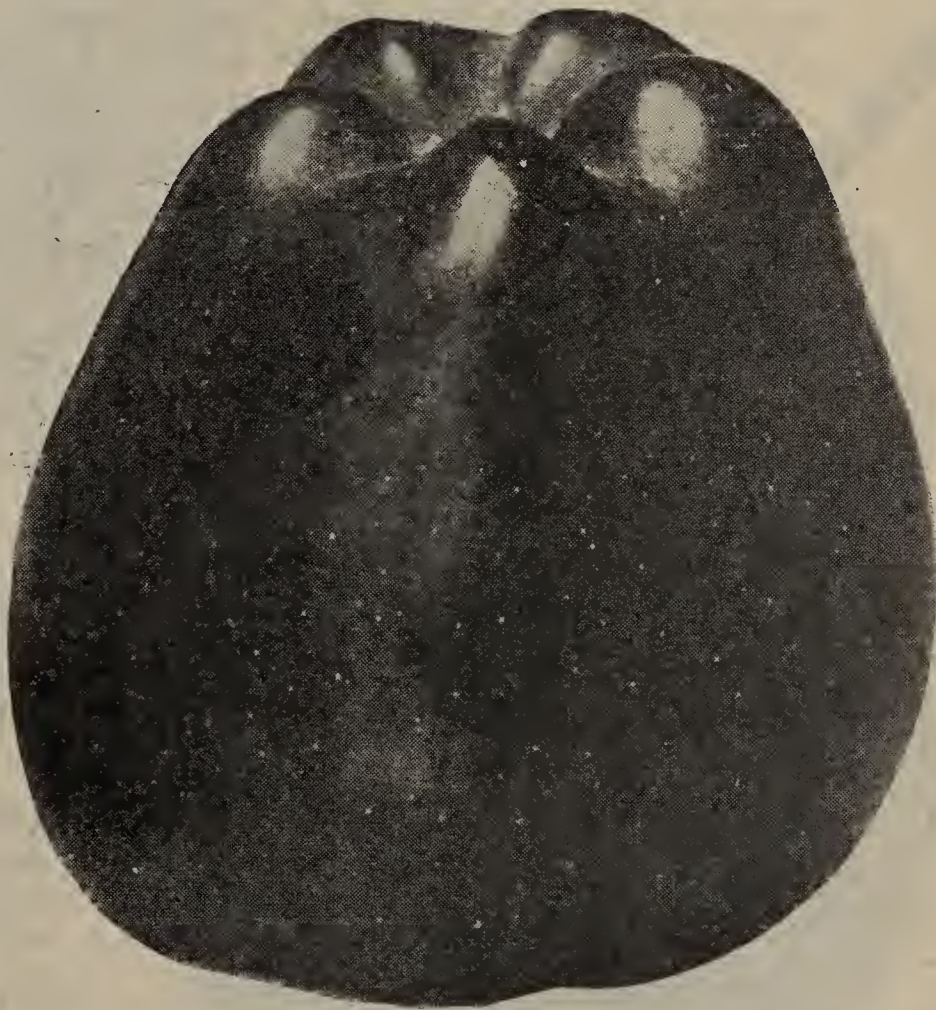

If you want the finest yellow winter Apple that has yet been grown, you will have to get our new Yellow Delicious. Beautiful, golden yellow Apples of immense size that bring the fanciest prices on the market. Flesh is firm, juicy, crisp, and of a most delicious sweet-tart combination; a splendid keeper. Tree bears very young. Order at once as our stock is limited.

## You Will Get Big Crops of Fruit From Our Hardy Cherry Trees

The Price is Amazingly Low This Year

Let's have more of those juicy Cherry Pies—America's most popular dessert! And why not? It's an easy proposition if you plant a few of Ferris' strong, hardy, well-rooted Cherry Trees this spring, at these remarkable bargain prices. Quick to bear, and such big fine crops—all the children will want to eat, plenty to can, and pies to your heart's content. The Cherry is so easy to establish—likes good, well drained soil, and should be planted at the same depth as in the nursery row. You can plant it anywhere on the lawn, for the tree is ornamental as well as fruitful.

We are offering you here the three best, hardy Cherries. Every home planting should contain a clump of our extra select Cherry Trees.

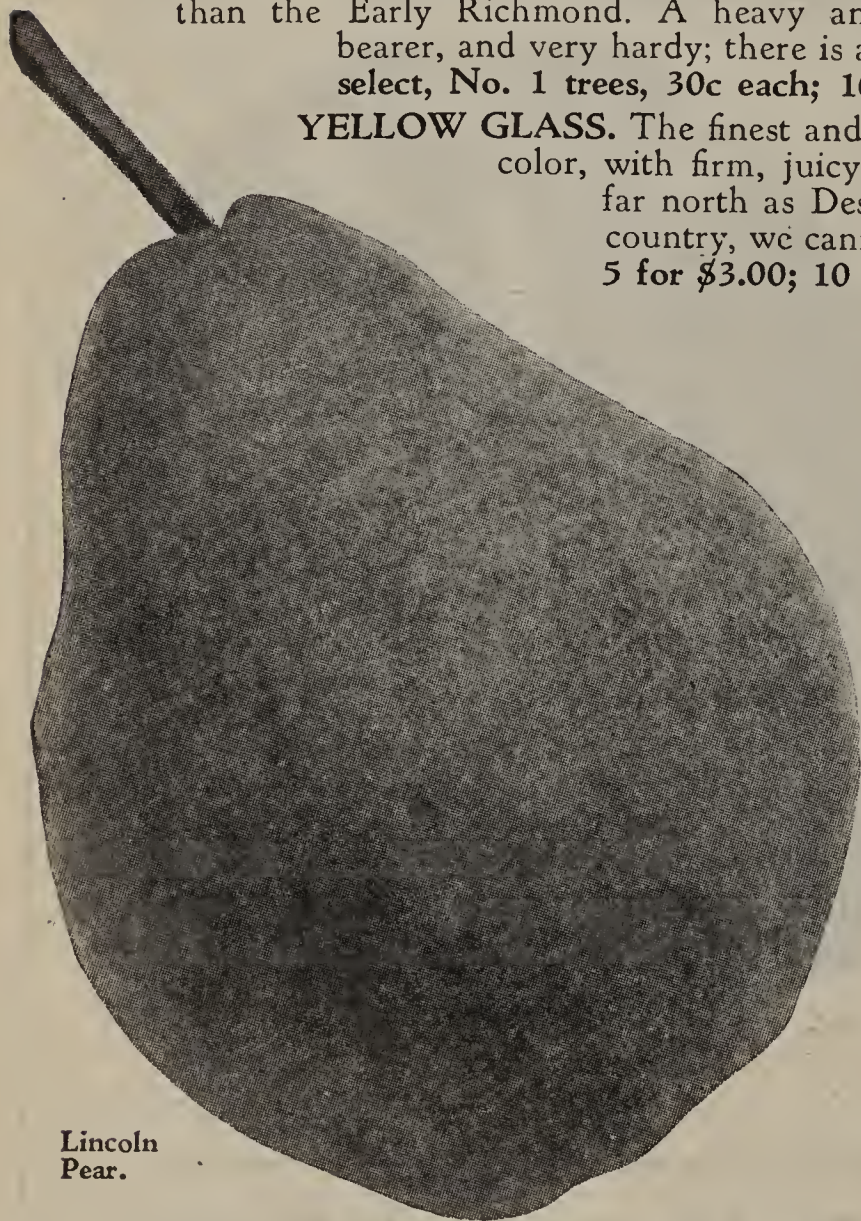

**EARLY RICHMOND.** The earliest of them all, and a general favorite. Fruit medium size, bright red and juicy, rich acid flavor, and especially fine for cooking. Heavy bearer, and extremely hardy. 3½ to 4 ft. average, select, No. 1 trees, 30c each; 10 for \$2.50; 100 for \$17.50.

**MONTMORENCY.** A beautiful, large, red Cherry of the finest acid flavor, and ripens 10 days later than the Early Richmond. A heavy annual bearer, and very hardy; there is always a strong demand for Montmorency. 3½ to 4 ft. average, select, No. 1 trees, 30c each; 10 for \$2.50; 100 for \$17.50.

**YELLOW GLASS.** The finest and hardiest of all Sweet Cherries. It has a beautiful golden yellow color, with firm, juicy meat, and is of superb flavor and sweetness. It fruits well as far north as Des Moines, and for our customers who live in the Sweet Cherry country, we cannot acclaim it too highly. 4-4½ ft., select, No. 1 trees, 75c each; 5 for \$3.00; 10 for \$5.00.

Montmorency Cherry.

Lincoln Pear.

## Selected Pears

Our new prices on all Pear trees, excepting Lincoln: Strong, well-rooted, averaging 4 to 4½ ft. high, 35c each; 10 for \$2.50.

**BARTLETT.** Large, yellow Pear of fine flavor. Very popular.

**KIEFFER.** Well known canning Pear. Hardy; prolific; fruit large and yellow.

**SECKEL.** A rather small Pear of unusual sweetness and fine flavor. Very productive.

**PATTEN.** A wonderful, hardy Pear, doing well even in the North. Attractive, large fruit, green in color with reddish blush. Flesh is very tender, juicy, sweet, and rich. We recommend the Patten highly.

**LINCOLN.** The very finest Pear ever produced. Quality is as good or even better than the luscious Bartlett, very hardy, and a heavy cropper. Beautiful large fruit of clear yellow flushed with bright red, and whether canned or eaten fresh its flavor is delicious. 4 to 4½ ft., No. 1 trees, 75c each; 10 for \$5.00.

## Choice Peaches

Our new prices on all Peach trees, averaging about 4 feet in height, 35c each; 10 for \$2.50; 25 for \$5.50.

**CRAWFORD'S EARLY.** A fine-flavored Peach of large size; yellow blushed red. Freestone.

**CRAWFORD'S LATE.** Excellent quality; fruit large, a beautiful yellow with red cheek. Freestone.

**ELBERTA.** The market favorite. Large yellow fruit, blushed, and of fine flavor. Freestone.

**J. H. HALE.** A beautiful large Peach, yellow blushed red; solid yellow flesh of delicious flavor. Freestone.

## Plant

# Ferris' Hardy Plums

They Will Bear You Immense Crops of Delicious Fruit—Take Advantage of Our Extra Low Prices.

Here are the finest of all Plums—hardest and most fruitful—Plums of the highest quality and flavor. You should plant a clump of several varieties to get the biggest and best crops, and you will very quickly harvest a bountiful crop of luscious Plums—all you want to eat fresh, a large quantity for canning and pies, and some to sell besides. They are so easy to grow, and our Plum trees are all select, No. 1 grade.

**OUR NEW LOW PRICES ON ALL PLUM TREES:**  
3½-5 ft. high, No. 1 trees, 35c each; 10 for \$3.00.

## The New Minnesota Hybrid Plums

Delicious Plums—and Hardy to the Canadian Line.

**UNDERWOOD.** Very large, red fruit, juicy and sweet, and the very best flavor. Small pit, semi-cling; produces heavy annual crops and is extremely hardy. By all means have an Underwood or two in your clump of Plums.

**GOLDEN ROD.** Finest and hardest yellow Plum. Large fruit, juicy and sweet, and of excellent quality. Freestone.

**MONITOR.** A handsome, dark red Plum, large and extremely hardy; flavor of the best.

**LORING PRIZE.** A prize winner—fruit extremely large, nearly freestone, bright red, and of a delicious flavor superior to the California Plum.

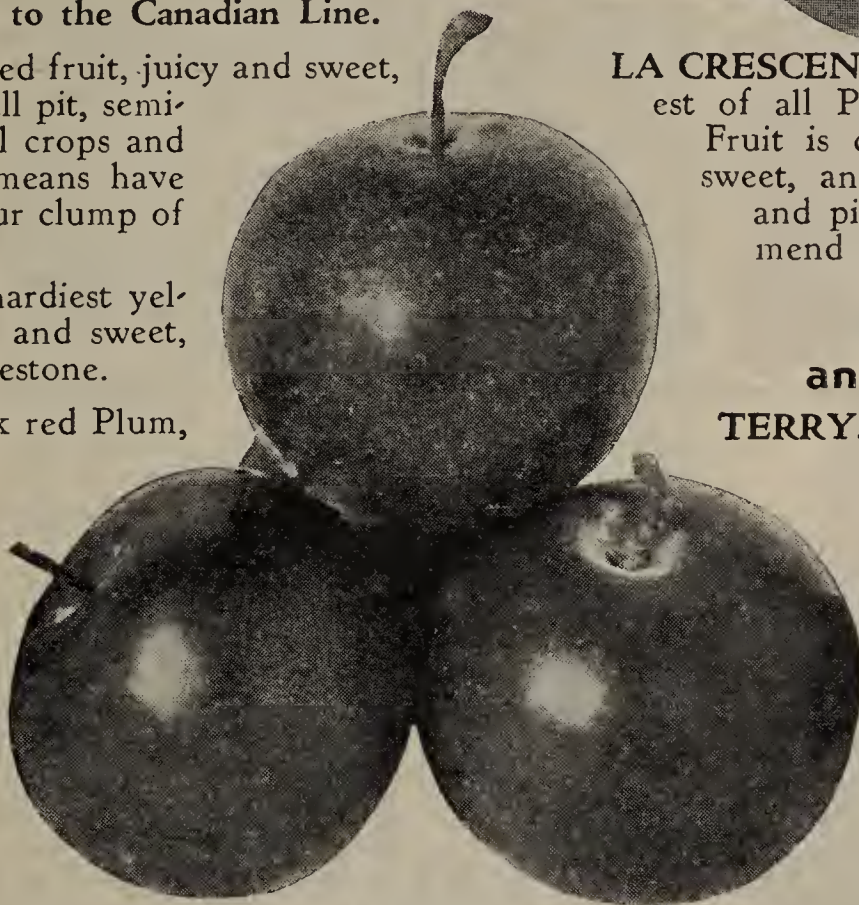

Underwood Plum.

**LA CRESCENT.** Some claim it to be the finest of all Plums—splendid for table use. Fruit is clear yellow, very tender and sweet, and makes wonderful preserves and pies. An early Plum; we recommend it highly.

## Selected Native and European Plums

**TERRY.** One of the finest Plums grown. Very large red fruit, with juicy flesh of fine flavor. Hardy and a heavy bearer.

**BLUE DAMSON.** The old favorite for preserves. Medium size fruit, black in color, overspread with a heavy bloom. A heavy annual producer.

Monitor Plums.

## Hansen's Hybrid Cherry Plums

These are the Wonderful Hardy Plums Originated by Prof. N. E. Hansen of South Dakota—Immense in Size—Superb in Quality.

(It is usually desirable to plant one or two other types of Plums in your clump of Hansen's Plum trees, for best cross-fertilization. Spray annually with Bordeaux Mixture).

**WANETA.** A masterpiece in Plums. It often bears the next year after planting; fruit is extremely large, sometimes 2 inches in diameter, and of finest quality. Color dark reddish purple. One of the most popular Plums ever grown.

**HANSKA.** You will like this large, bright red Plum, with its rich apricot flavor. Young to bear, and hardy anywhere. Fine for cooking or eating fresh.

**OPATA.** Not so large as some of the other Hansen's Plums, but of very fine quality, and the first Plum of them all to ripen. Fruit is freestone, dark purplish red with blue bloom, and with a very pleasing "sweet-acid" flavor. Very heavy bearer, growing and fruiting well in any section.

**SAPA.** One of the most wonderful of the Hansen's Plums, with dark purple skin and purple flesh of the finest flavor. Very fine for canning. Fruit is borne in clusters similar to grapes; medium large in size. Very hardy.

**KAGA.** A new Hansen's Plum of delicious quality. Fruit is quite similar in size and color to the Hanska, being very large and a rich red color, but is a heavier bearer. The flesh of this splendid Plum is firm, fragrant, and of delicious flavor, especially fine for preserves. Hardy everywhere.

Waneta Cherry Plum.

## FREE GIFTS FOR EARLY ORDERS

Don't overlook the choice Premiums we are offering all customers who order early—see page 5 of this catalog for details. These are gifts you will be proud of, and it will pay you to order now so that you can take advantage of them.

## We Give Satisfaction to Our Customers Everywhere

York, Pa., Sept. 12, 1933

Dear Sir: Mr. Ferris, I am very proud to say I haven't lost a single thing. My Rose of China grew very nicely, and I raised every Barberry plant—they put on a lot of new growth.

MYRTLE SPANGLER.

Ncenah, Wisc., Sept. 14, 1933.

Dear Sir: I got 200 Amoor River North Privet and a Rose bush last spring, and every plant is growing just fine.

Yours truly, WILLIAM ECKRICH.

Chicago, Ill., 2443 New England Ave., Sept. 13, 1933.

Dear Sir: I have been very proud of all my Earl Ferris nursery stock and have had wonderful results with it all. Everything I bought from your nursery has grown well, and I can see how healthy your nursery stock is when compared to my neighbors' from other nurseries. I am certainly recommending you to them.

Yours truly, MRS. GEORGE BERRY.

Columbus, Ohio, 36 W. Tompkins St., Sept. 18, 1933.

Gentlemen: All shipments received from you have been entirely satisfactory, both in the way they were received as well as the plants themselves. It has been a pleasure to do business with you.

Yours truly, F. W. RUFENER, JR.

Ionia, Mich., 935 W. Main St., Sept. 3, 1933.

Dear Mr. Ferris: We want you to know that we have had exceptionally fine success with the stock we ordered this past spring. The Peonies all lived and two even blossomed this year; the Red Leaf Barberries are splendid, as also are the Iris, Spirea and the Blue Spruce. We are well pleased with all of them.

MR. AND MRS. C. E. McMILLAN.

Coal City, Ind., Oct. 6, 1933.

Dear Sir: I am very glad to be able to report no losses in my flower garden. My roses have been the talk of the town and are still blooming. I have had blooms every day. Also my perennial Phlox all lived and bloomed—they have some blooms yet. I am certainly proud of them, and when I want more, I will order from your company.

MRS. I. P. HILBURN.

Sun Prairie, Wisc., Feb. 6, 1933.

Dear Sirs: Want you to know that the nursery stock we got from you last spring was good, hardy stock. Strawberries are fine, fruit trees are all growing, and Blackberries fine. Sure am satisfied, and am sending a little order again today. You can always depend on me as a Ferris booster.

Yours sincerely, DR. T. F. PFAFF.
